—The first real fall weather reached this section Monday night, when a stiff breeze came up just before midnight, followed by a series of showers. At 6 o'clock Tuesday morning the thermometer registered 52, but it seemed cooler than this reading indicated, due to the damp breeze that was still blowing. This morning the thermometer registered 46, but there had been no more rain and the breeze had died down, the weather being much more pleasant.

The bereaved parents have the sympathy of many friends in their sorrow.

—Raise your own meat this year. Buy your pigs from W. M. Brown, Walhalla.—Adv.

—D. E. Nicholson, of the White-water section, was in Walhalla for a while last Friday. This was his first visit here in about two months, he having been confined to his home by reason of an accident that came very near being quite serious. Mr. Nicholson was digging a cellar at his home in the mountains. At the time of the accident he was in a stooping position, in the act of placing a brace in the cellar to prevent the caving of the dirt, and a large quantity of clay caved in on him, completely covering him. Fortunately two of his boys were working in the cellar at the time, and they at once began the work of rescuing their father. He was dug out from under the pile of clay, not seriously hurt, but "badly damaged" by reason of the great weight of clay that covered him in his uncomfortable position. Added to his discomforts was the fact that in digging him out one of the boys struck his foot with his shovel or pick, from which hurt Mr. Nicholson still limps. He considers himself very fortunate, however, in that his boys were present to give immediate aid.

—Miss Florence Hetrick left yesterday afternoon for Anderson, where she will enter the Anderson College. The exodus of the young ladies from Walhalla began with the departure of the afternoon train on the Blue Ridge. C. last year. We wish for all these young ladies a full measure of success in the prosecution of their studies.

—York News: "W. J. Edmonds, of Honea Path, has accepted the position of superintendent of the York Cotton Oil Company and expects to move his family to York within a short time. They will occupy the Quinn house, on King's Mountain street. Mr. Edmonds is highly recommended for his line of work, and the management of the oil company is confident that a capable man has been secured." Mr. Edmonds is well known in Walhalla, he having resided here for some time. He is a machinist by trade, and has given a number of years of attention to the oil mill business.

—Last Friday morning about 6 o'clock Jack Darby caught a stray pigeon at his home on the north side of town. He heard the rattling of a light chain, and going in the direction of the sound, he found the pigeon. It was carrying a brass watch chain of some 10 or 12 inches in length, which was fastened about one leg. Attached to the chain also was an emblem in brass showing the figure of a base ball player in the act of pitching the ball. The bird seems to be of the ordinary home species, not of the carrier type. Mr. Darby is interested to learn the name and address of the owner of the bird, the purpose of its flight, etc.

—We regret to chronicle the death of Frank Chandler, which occurred at his home in the Ebenezer section on Monday of this week. Mr. Chandler had been sick for a week or more suffering from an attack of typhoid fever. He was about 28 years of age and is survived by his wife and two children. Several years ago he married a Miss Orr, a daughter of Billie Orr. Interment took place at Wolf Stake cemetery Tuesday afternoon. To the bereaved relatives is extended the sympathy of numerous friends.

—H. C. F. Busch, of Charleston, has recently purchased from W. John Schroder his 40-acre farm below West Union, located on the Walhalla-Seneca road. The price paid for this property was \$4,000. Mr. Schroder will continue to reside on the premises until January, 1918, when he expects to return to Walhalla. From now on, however, he intends to give his time and attention to his patent well fixtures and shop work, and a considerable portion of his time will be spent in Walhalla even before he resumes his residence here. Mr. Busch will, it is understood, give his attention to the establishment of a summer colony on the place he has just bought, which is ideally located for such a purpose. He anticipates expending some \$10,000 on buildings, we are informed. Both Mr. and Mrs. Busch have visited in Walhalla, where they have numerous friends, who will rejoice to know that they will later be identified with this section. It is Mr. Busch's intention to take up his proposed summer resort work at the beginning of 1920, giving himself two years in which to complete his plans and wind up his other business affairs that would interfere with his new plans. Mr. and Mrs. Busch will be most heartily welcomed to this section, and the success of the former's undertaking will be hailed with delight on all sides.

—The Courier is showing this week what to us is a curiosity indeed, though some have viewed it say that they have seen others of these oddities. The curiosity is in the shape of a watermelon of the "moon and stars" variety. The bulk of the melon shows the ordinary dark green color, while at the end of the melon appears a yellow circle about four inches in diameter, this circle representing the moon. Dotted all over the balance of the melon are numberless little yellow circles or dots, representing stars. There are hundreds of these, probably a thousand or more. An added peculiarity of the variety is that, dependent upon the phase of the moon at the time of the formation of the melon on the vine, the large end marking reflects the moon phase. Some of the melons, therefore, represent the first quarter, the half moon, the nearly developed orb, or the full moon, as in the case with the melon brought to this office. The melon was grown by Jos. A. Knox, of Tugaloo river, who two years ago secured the seed in Texas. One of his "moon and stars" melons this year weighed 40 pounds when ripe, and this he was saving to cut when his son, Lieut. Jule Knox, of the Philippine constabulary service, arrives on a visit to his parents. The melons are said to be of excellent flavor, red meat and very delicate. We are indebted to B. T. Clinkscales, of Round Rock, Texas, for bringing this melon to our office. Mr. Clinkscales has been spending some time visiting at the home of M. C. Todd, of Walhalla, and among other relatives in this section. He
