Y. M. C. A. WORKERS ON ARMY TRANSPORTS

Y. M. C. A. Secretaries Now Accompany Troops From Home To The Camp And From Camp All The Way To The Boche Trenches

Y. M. C. A. secretaries have carried their work to the troops in transport, says an announcement just received from the National War Council of the Y. M. C. A., and are now promoting a systematic recreational, educational, social and religious program for the soldier boys en route by sea to France. With the sanction of the War Department each transport now carries one or two such secretaries whose function it is to do all that is possible to make the voyage both comfortable and enjoyable for the fighting men aboard.

"Games are provided, musical and movie entertainments staged, magazines and books are supplied and writing paper is issued free to the men," the statement continues. "A report of a transport worker recently arrived shows that in his equipment there were such articles as a folding organ and song books, motion-picture equipment with 20 reels, pocket testaments, writing paper, boxing gloves, medicine ball, rope quoits, checkers, dominoes, Victrola and records and a Sonora machine.

"The appointment of transport secretaries completes the link of Y. M. C. A. work, which begins with the recruits in camp, continues through the training period, comes overseas on the transports and goes on in the camps in France all the way from the ports to the front line trenches. Transport secretaries are assigned to ships, and remain on their ships as does the crew.

MADE NEW START AND SHE WON OUT

GREAT PROBLEM IS FACED BY GIRL WORKERS IN CITIES. EXPENSES GROWING.

Almost Beyond Work When She Began Taking Tanlac, Which Soon Restored Her.

There is no bigger problem than that which the woman worker has to meet. With rent, clothing, food, fuel all going higher and higher, her worries are greater than ever. Though weaker and more liable to illness than men, these women must be at their best, whether they are in office, store, factory or home. They must be bright, confident, ambitious or fail.

The weak, nervous, run-down woman has very little chance, and this was realized by Josephine Dougherty. Miss Dougherty is one of the army of women workers, a competent, quick-witted saleswoman in a New York department store which has 50,000 customers daily. Her home is at 436 East 138th street.

"Because of suffering, my work was getting so hard I could not stand it," this girl declared. "I would suffer so after eating that I could not keep my strength up. There would be pains and I would have a feeling of suffocation. I had lost sleep so long and had become so nervous I was in a badly run-down condition. I was subject to headaches and pains in my limbs and back. Even my heart had become weak.

"I knew I could not go on that way, but the medicine I took did not seem to do me any good. Other girls began to tell me about Tanlac, and I finally decided to try it. Tanlac, I know, is the best tonic and builder there is.

"I feel just fine. I do not suffer from those pains or weaknesses any more. I sleep well and my appetite has returned. My nervousness went with my stomach trouble. I recommend this Tanlac to every one I know who needs building up and cleansing of the system like I did."

Tanlac, the master medicine, is sold exclusively by Bell's Drug Store, Walhalla; J. C. Cain, Oakway; Salem Drug Co., Salem; Seneca Pharmacy, Seneca; Stonecypher Drug Co., Westminster; Hughs & Dandy, Richland.—Adv.

"SLACKERSVILLE"

Townville, July 1.—Editor Keewee Courier: We have thought for some time of writing an article for your paper, but the pressure of business prevents us from doing many things we would like to do. I may write for your valuable paper again some time, but right now I wish to mention a fact that exists in a very small territory in Oconee county, near Townville, in which lives a well to do farmer who, when asked by the committee to buy bonds, replied that he would "buy from the committee at Seneca"; and when asked by the Seneca committee he would reply that he would "buy from the committee at Townville." After investigation we find that he and some of his neighbors have bought from no one. A thing of this kind at a time like this makes a patriotic neighbor a little indignant; and not only us, but Seneca as well, for I am told by good authority that they have named that little section of the county occupied by these tight-wads "Slackersville."

Now, Mr. Editor, we think this thing should be investigated, and if there are men who will not aid the government by buying bonds and stamps, the different committees should expose them through the press, so the whole country will know who they are.

In the last drive (for W.S.S.) they would not subscribe for any. One of the committee reports that every one in the district has been visited, both black and white, and only three refused to buy, and they are white men—land owners—and in good circumstances.

If The Courier did not see and publish T. M. Welborn's letter that he sent in with \$1,000 for W.S.S. it would be well to do so yet. It could be obtained from J. D. Hammet, and no doubt would do them good. A man who will not do his part in this war should go over into the Pendleton section and look up Mat Morris and talk with him. His boys, like many others, are now in France. They have gone between us and destruction, like going down in a well. When they put their feet on the soil over the water they looked back and said, "You keep your hands on the windlass by buying bonds and stamps and we will do our part over here."

Notes from Bounty Land.

Bounty Land, July 1.—Special: Mr. Cromer and Mr. Tribble, of Townville, were recent guests at the home of W. E. Woolbright.

Mr. and Mrs. Dean Davis and Miss Julia Davis spent Sunday with relatives near Clemson.

Bruce Lynch made a brief visit to friends in Belton the first of the week.

Misses Eula Rankin and Emma Wilson spent Friday at the home of J. F. Morton in West Union and attended the union meeting at Rocky Knoll Saturday.

Miss Laura Perritt left Sunday for a fortnight's visit to her sister, Mrs. A. S. Rollins, Charleston.

Lolla Parks, colored, claims the distinction of producing the first cotton bloom in this section.

Crops everywhere look flourishing. Special mention should be made of fine corn grown by J. N. McDonald, L. P. Rankin and on Dr. J. S. Stripling's place. Of course Capt. Ellison is always in the lead, as well as others, but the crops mentioned most recently attracted our attention.

News of the death of Miss Martha McDonald was received with sorrow by many warm friends in this section. Her remains were interred in

HOSPITAL VESSEL TORPEDOED.

234 Souls Missing—Only 24 Persons Accounted For.

London, July 1.—A Teuton submarine sank the British hospital ship Llandoverly Castle, 110 miles southwest of Fastnet, on June 27, the British admiralty announced to-day.

The Llandoverly Castle was homebound from Canada. She carried 238 persons. The total includes 80 Canadian army medical corps men and 14 female nurses.

Of the total of 258 on board, only one boat, containing 24 survivors, has so far reached port. Search is still being made and there is a bare possibility that others may yet be found.

It is to be noted that in this, as indeed in all other instances, the German submarine had a perfect right to stop and search the hospital ship under The Hague convention, but she preferred to torpedo the Llandoverly Castle.

The Llandoverly Castle was 11,423 tons gross and was built at Glasgow in 1914 for the Union Castle Mail Steamship service. The vessel was 500 feet long, 63 feet beam and 37 feet deep.

Body of Murdered Man Found.

Savannah, Ga., July 1.—This morning the body of Oscar Cooler was found under the house at 544 Zubly street. He had been beaten about the head until death ensued. The police have taken in custody Dick Font and Mattie Douglas and are holding them for investigation. A witness states she saw Font attack Cooler in the yard of 543 Orange street, adjoining the yard of the Zubly street house, and after killing him carried his body into the next yard and placed the body under the house. Robbery is thought to have been the motive.

Sunday evening, after the close of the above observations, a heavy rain, accompanied by severe wind, fell in and north of Walhalla. The precipitation must have been an inch or more. Corn was blown about considerably and it is thought farmers will be unable to get in it to give it another working.

An oven has been invented to utilize for baking the smoke and hot gases that ordinarily would pass out of a chimney from a residence heating plant.
