

**JACKSON DEMOBILIZATION UP.**

**No More Overseas Men Will Be Received at that Camp.**

(The State, 16th.)  
Camp Jackson ceased to exist as a demobilization camp yesterday and no more overseas troops will be mustered out of the service here. Orders from Washington early in the month caused the camp to be abandoned as a demobilization center, along with several others throughout the country. These orders are still in effect, and in accordance with their terms all demobilization material, equipment and a number of men connected with this department will be sent to Camp Gordon within the next three or four days.  
Since the signing of the armistice over 50,000 men have been discharged that came through the port of Charleston, and probably 10,000 from other ports, at the camp, which shows that the facilities for such work there have been of the best. This does not include men at the camp when war ceased, which would bring the number up to 100,000 or more. The work has been carried out efficiently and with dispatch, making one of the best records for any army camp in the country. Now that no additional troops are to be discharged at Camp Jackson this will be a source of regret to many, as the presence of overseas men in Columbia has meant much to the capital city. With the closing of the camp here as a demobilization center, Camp Gordon will receive all the men from this section to be discharged. Charleston as a landing port for overseas troops ceased yesterday along with the order stopping the discharge of men at Camp Jackson.

All arrangements are being completed at the camp for the shipment of material to Camp Gordon by the last of the week, it was learned yesterday. Just how many men will go with the overseas discharging outfit is not known, but the number will not be large.

Despite the transfer the camp will not be deserted, as it is a permanent post. The Forty-eighth Infantry, the transport corps, the construction division of the army school, the utilities division, the base hospital and other organizations will be maintained. Rumors that the entire camp will be made a general hospital, similar to other institutions, is given little credence by officials of the camp. This, however, is considered by many to be a possibility.

**No Worms in a Healthy Child**  
All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 60c per bottle.

**Blind Tiger Defined.**  
Atlanta, Ga., July 16.—Suppose you have a friend, and the friend has a quart of liquor, and the friend lets you have a pint of liquor at the market price to accommodate you; and suppose the police get wise to the transaction and arrest your friend, can he be punished for violating the prohibition law?

In other words, is your friend, technically speaking, to be classed as a blind tiger?

This interesting question has been presented to Judge Andy Calhoun, of the Atlanta city court, and he has decided that the friend in such a case is certainly a blind tiger, and that nothing else can be made of it. "Any man who sells whiskey to another in these dry times," remarked Judge Calhoun, "is accommodating the man to whom he sells it. But the law does not make provision for excusing him on that ground."

**"BAYER CROSS" ON ASPIRIN**

Always Ask for Genuine "Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder. "Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.—adv.

**GOVERNOR ADVISES OFFICERS.**

**Mr. Cooper Points Out High Responsibilities of Law Officers.**

Columbia, S. C., July 16.—That the peace officers of the State can so direct public opinion that the people will demand a high standard of morality and law observance, was the central thought presented to solicitors, sheriffs and magistrates by Governor Cooper to-day at the conference called here by him to devise plans for a more thorough system of law observance and law enforcement.

Large profits from the illicit sale of intoxicants and a loosening of standards due to the war, he stated, had caused many persons in South Carolina to erect distilleries and had caused immoral practices in various parts of the State. These conditions, he thought, could be remedied by the co-operation of the peace officers, backed by a healthy public opinion.

The Governor quoted a wealth of statistics showing the jail populations of South Carolina, the prevalence of various sorts of crime and various other figures dealing with the State's criminology.

The Governor said in part:

"I have requested a conference with the sheriffs, foremen of grand juries, solicitors and magistrates for the purpose of discussing the administration of criminal laws of this State. I do not wish to create the impression that the people of South Carolina are lawless, because I am sure that the great majority are law-abiding and law-respecting. But due to a combination of circumstances we have a lawless condition throughout the State. The sale of intoxicating liquors and every compound or mixture of every kind that is calculated to produce drunkenness has been condemned. This prohibition is now nation wide. Owing to the very high price which a great many people are willing to pay for alcoholic beverages, illicit distilleries have sprung up all over the State, and various devices are being used in the manufacture of intoxicants. My information is to the effect that men who ordinarily would not think of engaging in any illegal practice are so attracted by the profits which they may make that they are engaging in this nefarious business. But there are other matters closely allied with and resulting from this practice that must be considered. The population of the jails in this State is on the increase. In various sections reports of immorality have been called to my attention. A great deal of this condition is doubtless due to the natural reaction following the war, and incident to the general unsettled condition. Whatever may be the cause, or the explanation the fact remains that there is more violation of law in this State and more immorality than is conducive to the best interest of our people.

"The Governor cannot without the support of the good people of the State prevent crime. The solicitors can not suppress crime without the aid of public opinion and co-operation on the part of the citizens. The sheriff is powerless in the discharge of his duties unless he is likewise supported by the people of his county. Grand juries may present bills of indictment, but no good results can be expected unless every presentment is approved by the people whom they serve. The magistrate is also dependent for the successful administration of his office on public opinion. My experience as prosecuting officer has led me to the conclusion that while all this is true, yet the Governor, solicitors, sheriffs and magistrates can create a public opinion and secure the co-operation and support of the people of their county by a tactful and efficient administration of their respective offices.

"My purpose, therefore, in calling this conference is that we may take counsel together, have an exchange of views as to conditions, and the remedy to be applied, and thus aid in creating not only a sentiment against crime, but an active, aggressive co-operation of all the machinery for its suppression. I confess to you that I have felt deep concern over conditions as they have been reported to me, but I am not pessimistic. I am not in the least discouraged, because I am sure that you gentlemen will give to me that support and co-operation which I need. I can promise you that I stand ready at all times to support you in your efforts, to give the people of your respective counties that protection and security that the law undertakes to provide for every citizen.

"I think it is not inappropriate that I give to you my conception of the duties of solicitors, sheriffs, grand juries and magistrates. The solicitor is the State's attorney. He represents the State in all criminal prosecutions. The office is created in order that the people who are vitally concerned may be properly represented in the courts, and properly protected against the criminal. While I think it inadvisable for the solicitor, in any case, to become the prosecutor in the ordinary sense

**AMERICAN MINE SWEEPER**

**Destroyed, One Officer and Six Enlisted Men Killed.**

Washington, July 15.—One officer and six enlisted men were killed in the destruction of the American mine sweeper Richard H. Buckley by the explosion of a mine in the North Sea on July 2. Two other officers were injured.

The dead are: Commander Frank A. King; Floyd Armen, engine man; two seamen, two men and a cook.

The officers injured were Lieuts. Frederick G. Keyes and Walter Sharon, but the dispatches to the navy department to-day said their injuries were not serious. Two officers and sixteen enlisted men were rescued.

The Buckley was engaged, with other mine sweepers, in removing the North Sea mine barrage when a mine became entangled in the sweeping cable. Before the cable could be played out again, the mine exploded directly under the ship's stern. The trawler was shattered by the terrific impact and sank in six minutes, before other vessels of the fleet could reach her. Commander King's home was at Albany, Ala.

**Three Men Killed.**

Philadelphia, July 15.—Three men were killed when a seaplane plunged into the back channel at the Philadelphia navy yard late yesterday afternoon. The dead are Ensign Roebeck, Chief Machinist Mate Erkle and Coxswain H. G. Sonder. Their bodies have not yet been recovered. Two other men were injured.

The plane, which was of the Canadian F-5-L type, was up in a practice flight testing radio telephones. It was descending from a considerable height, and when about 200 feet above the channel it suddenly plunged into the water. The cause of the accident has not been determined.

The injured were taken to the naval hospital.

There is more catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions, and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

F. J. Cheney & Co., Toledo, Ohio. Sold by druggists, 75 cents. Hall's Family Pills for constipation.—adv.

of the word, yet it is his duty to advise with others as to the method and procedure in originating prosecution. He should, therefore, inform himself as to conditions in his circuits and advise investigations and prosecutions.

"As a general rule I think a sheriff should not become a prosecutor, and yet it is peculiarly his duty not only to arrest a person charged with crime, but to discover persons responsible for crime, and see that prosecutions are instituted even if he is forced in some cases to become the prosecutor. The grand jury is the grand inquest of the county, and once it is organized continues in office until another grand jury has been organized according to law. The members of the grand jury are conservators of the peace, and the obligations which they assume demand that they be on the alert during the vacation of the courts as well as during their session, with the view of bringing to trial persons who are suspected of violating the law.

"Likewise the magistrates should do more than issue warrants on proper complaint. Their duty is to conserve the peace of the community and wherever the law is being violated and the criminal is unknown the magistrate should take steps as will detect the criminal, and see that he is brought before the bar of justice. Crime is a disease, contagious and infectious. I am quoting from one of the most eminent of our circuit judges, who has passed to his reward. This disease germ can live only in a congenial atmosphere, and its antidote is public opinion. This public opinion is created by a vigorous and impartial execution of the laws on the part of those charged with its administration.

"I have made these remarks to indicate to you what I had in mind in calling this conference, and have indicated what should be considered. In the past few months I have received letters from wives and mothers who are distressed because husband or son is the victim of an illicit distillery, or a person who is furnishing, under the pretense of medicine, certain compounds used as a beverage."

**Tired Nervous Mothers**  
Should Profit by the Experience of These Two Women

Buffalo, N. Y.—"I am the mother of four children, and for nearly three years I suffered from a female trouble with pains in my back and side, and a general weakness. I had professional attendance most of that time but did not seem to get well. As a last resort I decided to try Lydia E. Pinkham's Vegetable Compound which I had seen advertised in the newspapers, and in two weeks noticed a marked improvement. I continued its use and am now free from pain and able to do all my household work."—Mrs. B. B. ZIELINSKA, 202 Weiss Street, Buffalo, N. Y.

Portland, Ind.—"I had a displacement and suffered so badly from it at times I could not be on my feet at all. I was all run down and so weak I could not do my housework, was nervous and could not lie down at night. I took treatments from a physician but they did not help me. My Aunt recommended Lydia E. Pinkham's Vegetable Compound. I tried it and now I am strong and well again and do my own work and I give Lydia E. Pinkham's Compound the credit."—Mrs. JOSEPHINE KIMBLE, 935 West Race Street, Portland, Ind.

**TO TRADE WITH THE GERMANS.**

**Export Restrictions Abolished and Bunker Restrictions Rescinded.**

Washington, July 16.—General licenses covering import and export trading with Germany were issued Monday by the war trade division of the State Department with the approval of acting Secretary Polk. Except in certain limited cases, provided under the treaty of peace, trading between the United States and Germany may be commenced at once.

The war trade divisions action was in line with the order of the Council of Five at Paris lifting the economic blockade of Germany last Saturday. The formal notice by acting Secretary Polk was accompanied by two sweeping orders, one abolishing the export restrictions and the other rescinding bunker restrictions which have prevented the coaling of vessels at American ports without licenses.

Trading with Germany is expected to begin at once, three ships for Germany already having been loaded in American ports. The shipping board has announced it stood ready to establish steamship lines between American Atlantic and Gulf ports and Hamburg and Bremen as soon as cargoes are at the docks.

Restrictions left in force affect trading between the United States and Hungary and with those sections of Russia controlled by the Bolsheviks. The importation of dyes, dye stuffs, potash, drug, and chemicals which have been manufactured in Germany, even if they have been transported elsewhere before being shipped to the United States, is still forbidden, except when individual importation is secured to cover the movements. The importation of wheat and flour also is banned to protect the government guarantee on wheat grown in the United States and the general license does not cover importation of sugar or of tin, in pig or alloy.

In rescinding the export conservation list, the board called particular attention to the fact that all regulations which have been in force affecting the movement of coal and coke to Scandinavia and Holland have been set aside, while the bunker license is extended to authorize vessels flying the flag of any nation to coal in the United States for any port without any formalities. All of the licenses are made effective from July 14.

**LEMON JUICE**

**FOR FRECKLES**

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, and see how freckles and blemishes disappear, and how clear, soft and rosy-white the skin becomes. Yes! It is harmless and never irritates.—adv.

**British Colonials Best Paid Soldiers.**

Washington, July 15.—Popular belief that the American soldier is higher paid than that of any other country, is erroneous, according to an official table issued to-day by the general staff. This shows the three British dominions—Australia, New Zealand and Canada—allow material higher pay for each grade than does the United States. For instance, in the Australian army a corporal earns \$72.90 per month, as compared to \$36 in the American army. The other extreme is shown in the cases of France, Japan and Italy, where the private receives \$1.50, \$0.78 and \$0.58 per month, respectively, against the \$30 paid the American doughboy.

**Army Officer for Sheriff.**

Columbia, July 14.—Governor Cooper to-night named Capt. Sam D. Willis, who commanded the Butler Guards in France, to be sheriff of Greenville county, to fill the vacancy caused by the recent killing of Sheriff Hendrix Rector.

Capt. Willis is only 29 years old and is probably the youngest sheriff in the State. There were twelve applicants for the office.

**Card of Thanks.**

Editor Keowee Courier:  
We desire through your columns to extend our many thanks to our neighbors and friends in this community for the kindness shown us during the sickness and at the death of our aunt, Mrs. Annie Woolbright. May God's richest blessings rest upon all.  
Mr. and Mrs. T. W. Byrd.  
Coneross, July 16.

**A Choice Farm.**

We want you to look at a tract of 62 1-2 acres, adjoining Mr. Sam Grant, Jr., and the Wade Bates farm. The house is a five-room dwelling, situated in a beautiful grove, facing the main road from Okway to Earle's Grove, and the land lies in a gentle slope to the south. It is a peach of a farm, and we just bought it because we knew it would sell easy. Let us show it to you.  
Watch this paper for our list of farms for sale.
