WALHALLA, S. C.

Locals from Bounty Land.

Bounty Land, Nov. 24.—Special: Mrs. M. T. Hughs, of Walhalla, and Mrs. Lige Gillison, of West Union, were guests in the community recently.

Mrs. Jane Burkhalter has returned to West Union after a week's stay at the homes of her nephews, W. D. and J. R. Wright.

Mr. and Mrs. H. M. Pickett and children, of Greenville, and Mr. and Mrs. J. E. Pickett, of Clemson, were late guests of their mother, Mrs. J. B. Pickett.

A. G. Shanklin, of Clemson, visited his mother, Mrs. Julia D. Shanklin, last week.

Mrs. W. T. Hubbard was hostess last Tuesday afternoon to quite a number of the grandmothers of the vicinity, and the hours from 3 until 6 were spent in that jovial social intercourse in which each of these youthful-hearted grandmas has a characteristic capacity for enjoyment. The customary competition in prize-winning formed the chief diversion on this occasion, the contest being in the formation of words spelled from masses of jumbled letters, which when rearranged, spelled utensils used in grandmother's kitchen. There were four competitors who formed the highest number of words, and on drawing for a decision Mrs. Sallie H. Coe was the lucky winner, the prize being an aluminum boiler. At 5 o'clock an elegant course dinner was served. There were about 15 grandmothers at this enjoyable meeting, besides several other guests.

Mrs. J. G. Breazeale and sons, Enoch and James, of Westminster, and two daughters, Miss Samile and Mrs. Harry Mitchell, were recent short-while guests at the Davis home. Miss Sallie Davis accompanied them to Westminster.

Louis and Jesse Rankin and Noah Cater went to Anderson to-day on business.

O. H. Doyle, of Anderson, was at his home here a short while Sunday.

Mrs. Stella Hopkins spent from Saturday until Monday morning with

her parents, Dr. and Mrs. Fletcher Porter, in Pickens.

Y. L. Hix and W. A. Rankin were in Anderson last week.

Joe Owens has been confined to his bed for a week on account of illness. His friends hope for an early convalescence.

The box supper was not as largely attended as was hoped, but the Improvement Association appreciate the sum of \$14.25 derived from the sale of the seven boxes. This sum will be used in the enlargement of the library.

Mrs. Matilda Gant, of Atlanta, is spending some weeks with her niece, Mrs. W. E. Woolbright.

Wooden Silk Dresses.
(Greenville Daily Piedmont.)
Our granddads used to have a great joke about wooden nutmegs manufactured by the Connecticut Yankee, but the wooden silk dress of to-day is no joke. Perhaps that handsome necktie hanging down over your manly chest this very minute is just plain timber, disguised.

A scientific magazine tells us that the United States, failing to compete with cheap Oriental labor in the culture of the silkworm, is making a very successful imitation out of the spruce tree. It is called viscose silk. The spruce wood is, of course, reduced to pulp. Then they put it through a process which makes it look and act like molasses, except you can't make rum of it and it doesn't go any too well with buck-wheat cakes. This molasses is strained through a fine screen, the strings dropping into a solution which transforms them into yarn thread. This yarn takes dye readily, is strong as any silkworm silk, wears well and stands the rubby-rub of the washtub in great shape.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of H. W. GROVE, 30c.

NEW PROHIBITION REGIME.

Federal Authorities Intervene When State and Local Fail.

Washington, Nov. 25.—Enforcement of constitutional prohibition will be placed squarely up to State and municipal authorities, and the Federal government machinery will not intervene until obvious inefficiency on the part of local officials makes such action necessary, the board of temperance of the Methodist church was told to-day here by John F. Kramer, Federal prohibition commissioner.

It was Mr. Kramer's first pronouncement of policy since he assumed office a week ago.

Mr. Kramer said the people of the country could be divided in two classes.

"Heretofore the line of demarcation has been between those who favored the prohibition of the liquor traffic and those who opposed it," he said. "From now on the line of demarcation will be between those who are in favor obeying the law, whether their personal views are in harmony with the law or not, and those who will be ready and anxious to violate the law."

Describing the machinery being set up for the enforcement of prohibition laws, Mr. Kramer said:

"The first step will be with the various State inspectors. They will keep themselves informed as to conditions in their States and will report to the State Federal director, who will investigate and report to the district Federal agent, who will use his forces to investigate and arrest if evidence warrants. One of the chief duties of the State Federal director will be to enlist the aid of all State officers. He will also endeavor to secure the backing and support of all civic, moral and religious bodies."

Affirming his belief that the great mass of the American people were at heart law-abiding, the prohibition chief declared that "this fact will tell mightily in the matter of getting results from the law." He declared that local authorities should be "jealous of their rights of enforcement and zealous in the performance of their duty."

"The highest success will be attained only if the great mass of law-abiding people make their influence and power felt," Mr. Kramer said. "Obedience to law should be taught from every school room, preached from every pulpit, urged from every platform."

No Oil is Being Found.

Columbia, Nov. 25.—That South Carolina has no petroleum in its rock beds, and that prospectors who are investing their money digging oil wells in the State are throwing money to the winds, is the opinion of Stephen Taber, State Geologist and head of the department of geology at the University of South Carolina.

Prospecting for oil has been carried on in several parts of the State in the past few months, and these cases have shown that there is no oil.

The State Geologist says South Carolina's rock strata are not the oil producing kind, especially the rock beds in the Piedmont section.

"Oil has never been found in commercial quantities in old crystalline rocks, such as the gneisses and schists which occur throughout the Piedmont section of the State, and from what geologists have learned concerning the origin and accumulation of oil in rocks it is hopeless to search for oil in these formations," Prof. Taber says.

Reported that Villa Will Avenge.

El Paso, Texas, Nov. 27.—Persistent rumors of the hatching of a plot by Villa elements in the State of Chihuahua, following the execution of General Felipe Angeles, noted rebel leader at Chihuahua City yesterday, reached the border to-day.

Every one connected with the trial of the Villa chief has been marked for vengeance, according to the reports. Francisco Villa, the ally of Angeles, plans to start immediately upon his campaign or reprisal, Chihuahua City being his objective point, it is said.

Radical Start Hunger Strike.

New York, Nov. 25.—A hunger strike was coupled with a "silence" strike to-day by 73 radicals at Ellis Island in an effort to have removed an iron barrier separating them from visiting relatives.

The barrier was erected after discovery that several reds planned to escape by exchanging clothes with friends and after some visitors had taken revolvers to the radicals.

In a letter to the House Immigration committee, which is in New York investigating the immigration and deportation system, they reiterated that they would not attend deportation hearings held by immigration inspectors and would go on a hunger strike in addition. Three summons to the dining room were unanswered. Drinking water and oratory had been their only diet to-night for 24 hours.

About a half dozen voluntarily attended hearings, but joined in the hunger strike. One attended a hearing, but refused to answer questions.

CARBON!

Rid System of Clogged-up Waste and Poisons with "Cascarets."

Like carbon clogs and chokes a motor, so the excess bile in liver, and the constipated waste in the bowels, produce foggy brains, Leadache, sour, acid stomach, indigestion, sallow skin, sleepless nights, and bad colds.

Let gentle, harmless "Cascarets" rid the system of the toxins, acids, gases, and poisons which are keeping you upset.

Take Cascarets and enjoy the nicest, gentlest laxative-cathartic you ever experienced. Cascarets never gripe, sicken, or cause inconvenience. They work while you sleep. A box of Cascarets costs so little too.—adv.
