BUY RED CROSS SEALS.

It is a pretty custom—and at the same time a most helpful customthat has been carried out for a number of years—the buying of Christ-mas Red Cross Seals. The money that is derived from the sale of these seals is devoted to the work of eradicating tuberculosis, a disease that for years upon years was considered as incurable, and the un-litself. fortunate ones who contracted it doomed to horrible death.

Fortunately, medical research has brought to light the fact that tuberculosis, or as we used to call it, "consumption," is by no means necessarily fatal; but the woful prevalence of the disease makes con-tinuous and strenuous warfare against it an absolute necessity. Hence the great need of funds to carry on this work year after yearthe work of curing old cases of the disease, and by no means less important, the campaign of education to bring about prevention of the development of new cases. There lies the trouble—to get the well people take care of themselves and live in such manner, under such condi-tions, as will make the contracting of tuberculosis practically impossible.

However, what we started out to say is this: The annual campaign for the sale of Christmas Red Cross seals is upon us again, and we urge all to patronize liberally this most worthy cause. It is as much a work for humanity as were the Red Cross drives for funds when our soldiers wore on the field of nattle, hundreds, thousands wounded and need-ing the attentions that no other orcontration or newer on earth We did not think :97.12 hon; and duty call: as strangly fr day as it ever did when we could almost hear the roar of the belching cannon and the shrick of the death-

dealing shells across the seas. The cause is the same—For Humanity. Let us not pass it up for others to perform this great work. There is something for all

to do, and we all can help. In the times but very recently past sections of our own immediate county have felt the sore need of the services of a nurse-community nurse, county nurse-some one with ability and experience who can be called on in cases of emergency. But there was no such one to be had. We have wished for such a one, telegraphed, telephoned, written, begged —all to no avail. Oconee had no morning. Waddell immediately sur-

Newberry, Who Defeated Ford, In-dicted With Many Others.

Grand Rapids, Mich., Nov. 29.— Truman H. Newberry, United States Senator from Michigan, was indicted by a United States grand jury today for corruption, fraud and conspirary in connection with the elec-tion by which he obtained his seat in the Senate, defeating Henry Ford, his Democratic opponent.

With Newberry, 136 persons were indicted by the grand jury on the same charge. The names of all but fifteen most prominent were withheld from publication by Judge Clarence W. Sessions, presiding, until warrants could be served on them. Among those named were W. A. Hopkins, of St. Clair, Mich., princi-ple legislative clerk of the U. S. Senate; John S. Newberry, brother of the Senator, Detroit, and Paul H. King, of Detroit. King was manager of the Newberry campaign com-

Judge Sessions indicated that the evidence before the grand jury disclosed the fraudulent expenditure of between \$500,000 and \$1,000,000 in connection with the election.

A Political Scandal. Government officials asserted that

the testimony presented to the grand jury had revealed a political scandal that in many respects was without parallel in American annals.

It was alleged that voters were bribed, election boards corrupted, editors subsidized and moving pic-ture theatres bought up in the endeavor to defeat Henry Ford first in the primaries of both parties, and later, when he had won the Demo-cratic nomination, in the election

Officials were secretive as to how the alleged conspiracy was uncover ed, but a general outline of their methods was made available. It of Karl J. Houch, who, with Frank C. Dailey, special assistant to the attorney general, was a cent. al figure in the election fraud cases of Terre itaute, Indianapolis, Evansville and Frankfort, Ind. These cases, he-ginning in 1915, resulted in some 200 convictions.

Dailey and Houck came to Michigan last August. Bank records were inspected and the visitors' lists of safety deposit vaults gone over. With the tale of these as a starter, the investigators were sent out, they visited "small fry" politicians first, offering them vague hints of what might come from a mythical campaign of a certain Michigan poli-Objections to small returns tician. were followed by "confidential" comparisons with the Newberry campaign.

could secure the services of a nurse.

This year the Red Cross Seals will have an additional attraction for our people. If we go at it with a will and sell one thousand dollars worth of these "Seals for Humanity," 25 per cent-one fourth of the amount -will be used for the regular tu-berculosis work being carried on, and the remaining 75 per cent, or \$750, will be kept in the county to apply to the salary of a competent nurse.

Even if there were no great fea-ture of this kind in connection with the Red Cross Seal sales this year, we would not be doing too much if we exceeded the thousand-dollar mark. With this great local incentive in connection with the drive, we ought to go "over the top" by leaps and bounds.

Let's give three rousing cheers for the Red Cross Seal Campaign, and let us in cheering not forget that cheers cannot do the work of dollars. They are all very good in "whoopin' 'em up,' but it takes dol-lars to do the real work.

Let's add dollars to our cheers for anti-tuberculosis work and for a community nurse! All together now--and from now till Christmas!

"We will prosecute without mercy," so the authorities are quoted as saying in New Orleans the other day, when in that city saloons were to be open for a few days, and when an effort was going to be made, it was intimated, to sell intoxicating liquors at as high a price as \$5.00 a drink. The Federal officers became wonderfully active to prevent profiteering in liquor, when, as a matter of faci, all parties concerned would have been better off if what liquor was sold during those few days had been sold at a thousand dollars a drink, or drop, for that matter. Yet profiteering in products and articles absolutely essential to the well-being of the citizens of this country goes on day by day, prices continue to ascend and conditions become worse, with no They know that indigestion and dis-one to hinder, with no law to in- ordered stomach are so needless. voke for protection of the masses who are being daily robbed. Waddell is an employee at the mill, but also is a Baptist preacher, although he has no pastorate. He came to Griffin from Manchester. He says that for several days he had friction with Horne, under whom he worked in the mill, and that as the result of further argument this morning Horne advanced on him with a knife and a crow-bar.

ends Indigestion, Gases, Sourness, Acidity

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one— your stomach is too valuable; you mustn't njure it with drastic drugs.

When your meals don't fit and you feel uncomfortable, when you belch gases, acids or raise sour, undigested food. When you feel lumps of indigestion pain, heartburn or head ache, from acidity, just eat a tablet of Pape's Diapepsin and the stomach distress is gone. Millions of people know the magic

of Pape's Diapepsin as an antacid. The relief comes quickly, no disappointment, and they cost so little too -- adv.

There's 117 inches of wheel-base in a Hot Spot Chalmers and every inch denotes high efficiency.

Radiator to rear axle, it indicates perfect design, superior material, rare skill in workmanship, and an attention to detail that lifts it far

to owners less than one per cent per year of the list price of the car for repair parts.

As a matter of fact once an owner's license plate is bolted on the Hot Spot Chalmers the car seldom returns for service.

Give it gas, oil, grease, water, and fair treatment and it'll respond like the fine "creature of steel" it is.
