

GINNINGS TO NOVEMBER EIGHT

Show Decrease of Half Million Bales in South Carolina.

The following statement of comparative figures for ginnings in the State of South Carolina, by counties, will prove interesting. The figures are given out from the census bureau, department of commerce, for the comparison date of Nov. 8th, and are as follows:

Table with 4 columns: County, 1920, 1919. Lists counties like Abbeville, Aiken, Allendale, etc., with corresponding ginning figures for both years.

BREAKS A COLD IN A FEW HOURS.

"Pope's Cold Compound" Instantly Relieves Colds, Headaches and Sore Throats.

You may "sniffed up" right now, and "catch" a cold. A dose of "Pope's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all grippe misery.

The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dizziness, feverishness, sneezing, soreness and stiffness.

"Pope's Cold Compound" is the quickest, surest relief known, and costs only a few cents at drug stores. It acts without assistance, tastes nice and contains no quinine. Insist upon Pope's!—adv.

Death Rate Last Year Low.

Washington, Nov. 20.—The 1919 death rate in the death registration area of continental United States, embracing 81 per cent of the total population, in statistics made public today by the census bureau is the lowest recorded for any one year. The rate of 12.9 per 1000 population showed a drop of 5.1 per 1000 from the unusually high rate of 1918 resulting from the epidemic of influenza.

The total number of deaths in 1919 was 1,096,436, of which 11,579 or 10.2 per cent, were caused by heart disease, while tuberculosis resulted in 106,985, or 9.8 per cent, the statistics showed. Deaths attributable to pneumonia totaled 105,213, influenza 81,113, nephritis and Bright's disease 75,095, and cancer and other malignant tumors 68,551.

Three States—Delaware, Florida and Mississippi—were added to the registration area in 1919, making a total of 23 States, the District of Columbia and 18 registration cities in non-registration States in the area.

MISUNDERSTANDING AS TO MILK

State Board Issues Statement in Regard to Skimmed Milk Ruling.

Columbia, Nov. 20.—"Unnecessarily, there appears to be a lot of misunderstanding with reference to the recent declaration of the State Board of Health regarding the sale of skimmed milk in small cans," said Commissioner Harris yesterday.

"As this department is charged with the enforcing of the regulations, and as our inspectors will have this matter under their observation, I wish to get the public straight on the matter. The State Board of Health made this regulation not because the canned skimmed milk is poisonous, but because it has not full nourishment."

"The regulation of the State Board as to the skimmed milk provides that it must not be sold in packages or tins containing less than one gallon of liquid or ten pounds of powdered skimmed milk; also, that at the stores, shops or places where such condensed, evaporated or powdered milk is sold, a sign must be displayed, upon which is printed in black letters at least five inches in height and worded as follows: 'Condensed, evaporated or powdered skimmed milk should not be fed to babies or invalids—it has not the food value of whole milk.'

Mothers who have reared their little ones upon the condensed milk of certain well established brands need feel no alarm, for that kind of milk has not been put under the ban of the State Board of Health. And as the skimmed milk is not actively injurious, but is merely lacking in fat, the State Board of Health has suggested that the merchants who have been innocent purchasers of stocks be allowed ninety days from Oct. 7th in which to rid themselves of what they have on hand, and wholesalers have been ordered to buy and sell no more except under the form provided by the State Board of Health.

"On account of so many people flocking to the centers of population, where it is impractical to keep a family milk cow, it is necessary for some mothers to find a substitute for fresh milk for their children, and the regulation by the State Board of Health will impose no hardship upon them, for they may continue to use the whole milk."

"But, hereafter, watch the label and see that it does not read 'skimmed milk,' for after the 1st of January it will be unlawful to sell that kind of milk in small cans."

800,000 FARMERS ASKED TO GO ON Strike as Protest Against the Abnormal Deflation of Prices.

Kansas City, Mo., Nov. 18.—A nation-wide producers' strike to combat the falling prices of farm products was urged in a call sent out today by the National Farmers' Union to its local unions throughout the country.

The call, in the form of a resolution adopted at the national convention of the organization here, went forward to the secretaries of local branches of the organization, which represents producers of grain, cotton, wool and live stock, said to number 800,000.

The proposed strike was urged in retaliation for what the convention considered abnormal deflation in the prices of farm products, through which, it was asserted, "American farmers have been robbed of one billion dollars in reduced value of products now on hand." All farmers were urged to hold this year's production from the markets until "profit-making levels" were restored.

The action of the National Farmers' Union was in line with a "wheat strike," called several weeks ago by the Wheat Growers' Association of the United States. Delegates asserted that a considerable quantity of this year's wheat crop was being held off the market by farmers.

Reduction of production in the future was threatened "unless the prices of our products are fairly re-adjusted to the end that we may obtain just returns for our labors and investments," in another resolution approved by the convention.

Officials of the organization pointed out that members were not under obligation to obey the terms of the strike, but expressed the belief that such a movement would be effective. A conference of representatives of all farmers' organizations of the country was called to meet in St. Louis on Dec. 16 to consider the creation of a national farm marketing board. Charles S. Barrett, of Union City, Ga., who has served for fifteen years as president of the union, was re-elected last night.

Hogs Pay Big Money.

Mr. Pete Wing of Hawk Point, Mo., made a lot of money out of his hogs. He says: "I fed them Dr. LeGear's Hog Prescription. It has given wonderful results in putting gains on them with less feed. They were on heavy feed for only a month, averaged a gain of 2 1/2 pounds daily, and were only 7 months, 10 days old when sold."

Mr. Wing profited by the advice of Dr. LeGear, Graduate Veterinarian and Expert Poultry Breeder, of 28 years' standing.

Dr. LeGear's Hog Prescription will put weight on your hogs also, because it expels worms, purifies the blood and conditions them so that they gain flesh on less feed.

It makes no difference what ailment is prevalent among your stock or poultry, it is money in your pocket to get the proper Dr. LeGear Remedy from your dealer, on a satisfaction or money back offer.—adv.

Police Men's Union Surrenders.

Boston, Mass., Nov. 18.—More than 8,000 members of the Boston Police Men's Union voted unanimously last night to instruct officers of the union to surrender its charter to the American Federation of Labor. A statement issued after the meeting said that the "conditions leading up to the police strike of 1919 have in many ways been remedied, and efforts are being made to improve them at all times." No members of the present police force are members of the union.

CASE AFTER CASE

Plenty More Like This In Walhalla.

Scores of Walhalla people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

B. Colkers, W. Main St., Walhalla, gave the following statement March 16, 1911: "My kidneys were out of order and my back pained awfully. I had other symptoms of kidney complaint, too. I was advised to take Doan's Kidney Pills and I did. They soon completely cured me."

On April 10, 1918, Mr. Colkers said: "I think just as highly of Doan's Kidney Pills now as when I endorsed them before. I am glad to recommend them at any time for they surely did me a great deal of good. I confirm my former endorsement."

Missionary Returns to S. C.

(Newberry Observer.)

Mrs. Wm. Johnson received a telegram Wednesday night from her niece, Mrs. Georgette Simpson Leonard, that she had landed in this country and would reach her former home at Prosperity on Friday. Her husband comes, too—and, of course, the baby, who is a pretty good-sized little girl by this time.

It has been about six years since Mrs. Leonard, as Miss Simpson, sailed away to far-off South Africa as a missionary from the Lutheran church. She was before that a well-known and very successful teacher in Prosperity and Newberry.

She and her husband have their work at Mongolla, and are home now for a vacation, after an absence of years from the home land.

The Same Thing.

Barr—I hear that you are leading a double life.

Carr—Not exactly. It's costing me double to lead the same life I led years ago.—Judge.
