—Considerable interest centers in and around the election to be held this afternoon for school trustees of Walhalla School District No. 26. The voting will be from 2 o'clock p. m. to 4 o'clock p. m., the space of two hours—ample time for every interested citizen to express his or her opinion by means of the ballot. VALUE OF A TECHNICAL EDUCATION.

A technical education is the best insurance against hard times. In earning capacity it may equal an estate of \$50,000. For the untrained are the positions of poverty and obscurity.

Times are hard in South Carolina, but the cost of an education at Clemson College is comparatively low—sufficiently low to be within the reach of any ambitious young man in South Carolina.

Scholarships, free tuition and the payment by the United States Government to R. O. T. C. students, still further reduce the cost.

Do not allow the financial difficulties to keep you from entering college this fall to prepare yourself for the opportunities that lie ahead.

SCHOLARSHIPS AND EXAMINATIONS.

The college maintains one hundred and seventy Four-Year Scholarships in the Agricultural and Textile Courses. Each scholarship means \$400 to help pay expenses and \$160 for tuition, apportioned equally over the four years.

Also, fifty-two Scholarships in the One-Year Agricultural Course. These scholarships are worth \$100 and tuition of \$40. The scholarships must be won by competitive examinations, which are held by each County Superintendent of Education on July 5th. It is worth your while to try for one of these scholarships.

Credit for examinations passed at the county seat will be given to those who are not applying for scholarships, but for entrance.

R. O. T. C.—Clemson is a member of the Senior Division of the Reserve Officers' Training Corps. All R. O. T. C. Students receive financial assistance from the Federal Government, this reaching about \$200 per year during the Junior and Senior Classes.
