

UNCLE SAM TAKES 6 BREWERY

Plants—Largest Seizure Ever Made Under the Volstead Act.

New Orleans, June 30.—Government agents yesterday seized six of the breweries raided last Saturday and formally declared the brewery property as a whole, both real and personal, under government ownership. The seizure is declared to be the largest ever made in the United States under the Volstead act.

The breweries are charged with making and selling beer which exceeded the alcoholic content permitted by law. Saturday's raid extended only to the confiscation of thousands of barrels and cases of "cereal beverages."

Yesterday's seizures included all the buildings, machinery, vats and trucks and other brewery accessories, as well as the valuable sites occupied by the plants. The value of the property totals millions of dollars.

Both operations were under the direction of Theodore Jacques, local prohibition enforcement officer, assisted by a squad of some thirty special agents, who had been assembled here from various States. Reports given out are to the effect that three brewery company officials had already left for Washington to make formal protest against the confiscations.

As the government will not operate breweries, the action of yesterday throws out of work hundreds of men who were employed by the Standard, Dixie, American, Columbia, National and Union, the six companies affected.

Authority for Mr. Jacques' latest action was said to have arrived yesterday from Washington. No opposition was offered by those in charge of the plants, officials of the companies in most instances assisting in the listing of assets.

666 has more imitations than any other Fever Tonic on the market—but no one wants imitations.—adv.

NOTES FROM AN ENTOMOLOGIST

Clemson College Expert Talks Bees, Trees and Worms.

Bees — Requeening.

Clemson College, July 2.—Attention of bee-keepers is directed to the necessity of requeening weak colonies. The main honey flow in most sections of the State is about over, and it is recommended that requeening be completed, as far as possible, during July. Those bee-keepers who have not had experience with requeening should write to the Extension Service for Information Card No. 10, which gives specific directions. The operation is very simple if directions are followed.

The queen is the motive power of the hive. If she is weak or, in other words, if she is a poor layer—then the entire hive is weak and unprofitable.

The Peach Borer.

Those fruit growers who intend to use the mounding method for control of the peach tree borer should now become familiar with the requirements. This operation is recommended for the first week in July. Full directions for mounding and trunk wash are given in Information Card No. 17, which will be mailed on request. This card also gives the government directions for the use of para-dichlorobenzene in peach tree borer control. The time for applying this is approximately the first week in October.

Those not familiar with the peach tree borer will, upon examining their trees, find a mass of gum around the base or near the ground. The work of this insect is very weakening to the trees and is the most important cause for the appearance of the shot-hole borer among fruit trees.

Cut Worms.

A number of letters have reached us about cut worms, together with specimens. The occurrence of cut worms in abundance at this time is an abnormal condition, and while serious injury may occur, it rarely does occur at this time of the year. It generally indicates that the cut worms are heavily attacked by natural enemies. The worms are now full grown and are rapidly going into the ground for the pupa, and those intending to plant crops need not fear any further attacks from this pest this season.

Colds Cause Grip and Influenza
LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 30c.

Daughter Seeks to Succeed Father.

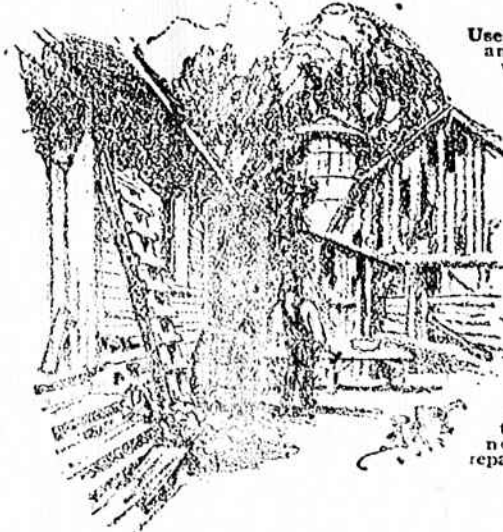

Chicago, June 30.—Mrs. Winifred Mason Buck, youngest daughter of the late Congressman Wm. E. Mason, to-day announced her candidacy to succeed her father, who was Congressman at large from Illinois. Mrs. Buck is the mother of four children.

"HE WHO LOOKS BEFORE HE LEAPS BUILDS OF CYPRESS AND BUILDS FOR KEEPS."

BUY THE GRADE THAT FITS THE JOB

You'll get a pleasant surprise when you find that for a lot of the odd jobs of repairs or replacement around the farm the lower grades of CYPRESS ("the Wood Eternal") are not only "good enough," but exactly the right thing. Getting the appropriate grade for the given purpose is half the skill of buying. (Economical, too.) The other half, of course, is insisting on "Cypress, of course."

It has been truly said that "it's the repair bills that eat the holes in the bank account." It is equally true that "using Cypress mends the rip in a leaky purse."

Use Cypress and yours will never look like this.

If he'd built of Cypress at first this would need no repairs now.

"Build of Cypress & You Build But Once"
"The Wood Eternal" is your "one best bet." Cypress grows in "your own back yard" and can be had on demand in your own lumber yard.

Buy the grade that fits the job. Why pay for high grades where lower grades are more appropriate—and cheaper? But be sure to insist on

"TIDE WATER" CYPRESS
"THE WOOD ETERNAL"

Because it lasts practically forever—if you get the true "tide water" variety—and therefore means double money's-worth of lumber.

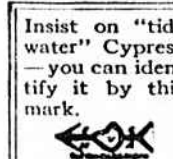

Write us for list of FREE PLANS for farm buildings—but in the meantime insist on "CYPRESS and no substitutes" from your local lumber dealer—no matter for what purpose you buy.

Address
SOUTHERN CYPRESS
Manufacturers' Association

260 Graham Building, Jacksonville, Fla.

YOUR LOCAL DEALER WILL SUPPLY YOU. IF HE HASN'T ENOUGH CYPRESS LET US KNOW AT ONCE.

Insist on "Tide Water" Cypress—you can identify it by this mark.

BOUNTY LAND PERSONAL NOTES

Marriage that Proved a Surprise to Many Birthday Gathering.

(Unavoidably omitted last week.)

Bounty Land, June 27.—Special: Mrs. R. N. Rankin attended the funeral of her brother, Jackson Orr, which took place last Wednesday in the Cheochee cemetery.

Mrs. Carl Grant, of Ware Shoals, is visiting her aunt, Mrs. C. E. Gambrell.

Master Howard Crow, of Gainesville, Ga., was a late guest of his cousin, Howard Davis.

Melton Lusk, of near Salem, and J. B. Cleveland, of Westminister, were in the community a few hours Saturday.

J. E. Dendy and four sons, Marshall B. Willie, Joe and Randolph, of Hartwell, Ga., were guests of relatives in the community Sunday. Marshall and Willie will prolong their visit a few days.

On Sunday, June 19th, the children and grandchildren of Mr. and Mrs. J. P. Gambrell met at the home of Mr. and Mrs. Claude E. Gambrell to celebrate the 71th birth-date of J. P. Gambrell. Those present from a distance were: Mr. and Mrs. A. P. Rodgers and family, Mr. and Mrs. W. A. Stone and family and Troy Crenshaw, all of Pelzer; Mr. and Mrs. W. P. Rodgers and family and J. H. Rodgers, of Fountain Inn; Mrs. W. P. Davis, of Easley, and Mr. and Mrs. E. M. Gambrell, of Walhalla.

Mrs. H. E. Alexander, of Seneca, spent the week-end with her cousin, Mrs. J. J. Ballouner, and attended Children's Day exercises at Richland Sunday morning.

Mrs. R. P. Walker and daughter, Miss Minnie Walker, of Louisville, Tenn., are guests at the home of the former's sister, Mrs. J. A. Dendy.

Oscar McKie and son, of near Walhalla, were recent guests of D. H. McKie.

Rupert Stribling, of Seneca, spent several days last week with his sister, Mrs. J. N. McDonald.

The recent marriage of Mrs. Mattie Brown to R. H. Saxon, of Atlanta, Ala., was a surprise of much interest to Mrs. Saxon's many friends here and elsewhere, who congratulate the young (?) couple and wish for them many years of happy and congenial companionship.

"LOWDEN'S GEORGIA PEACH."

Mr. and Mrs. J. Barbour Shanklin and three children, Miss Mary Julia, J. B. Jr., and Bill, of Anderson, were recent guests of Mrs. Julia D. Shanklin.

The Richland Sunday school appropriately observed Children's Day Sunday morning and an interesting and instructive program was well rendered.

Mrs. S. N. Huggs spent last week in Greenville.

Miss Grace Verner most delightfully entertained a number of her friends Friday evening.

Miss Mary Lucius Foster returned recently from Rock Hill, where she took a short course in domestic science in Winthrop College.

Everett Jeffries, of Clemson College, visited in the community the first of the week.

Mr. and Mrs. Monroe McDonald, of Walhalla, were late guests of Mr. and Mrs. Marcus McDonald.

At a meeting Sunday afternoon of the Rock Springs Missionary Society, Mrs. W. C. Foster, of Seneca, was elected to represent the society in the Missionary Conference, which will meet at Sandy Springs early in July.

Miss Beulah Powell, of Westminster, was a week-end guest of Miss Lilla Williams.

Mr. and Mrs. Tom Rice, of the High Bridge section, were late guests of Mr. and Mrs. Tom Owens.

Mr. and Mrs. J. N. McDonald visited at the home of the latter's father, W. D. Stribling, the first of the week.

Oscar Doyle, of Anderson, made his weekly visit Sunday to his parents, Mr. and Mrs. Jasper Doyle.

Appointment of Henry L. Johnson

of Georgia Vigorously Opposed.

Washington, June 30.—Senator Pat Harrison, of Mississippi, will challenge the Republicans of the Senate to confirm Henry Lincoln Johnson, Georgia negro, appointed by the President to be Registrar of Deeds in the District of Columbia, in open executive session.

Senator Harrison has a resolution pending with an adverse committee report before the Senate providing for open executive session consideration of confirmations and treaties. The Senate, it is probable, will reject the resolution. But that will not deter Senator Harrison from asking the Republicans to confirm, to the end that the people of the country may know what Democrats and Republicans think of the appointment.

Senator Harrison said this afternoon that, should the Republicans accept his challenge, the Senate would be reminded that Johnson, before an investigating committee of Congress, confessed that in the pre-convention campaign last year he received from Governor Lowden, of Illinois, \$11,000 and became known as "Lowden's \$11,000 Georgia Peach."

Senator Harrison also stated that the Senate would be reminded that the President's appointee would be permitted, as Registrar of Deeds, to overlord a force of white girls and dictate professional and personal communications to white stenographers. On account of the embarrassing situation, Senator Harrison holds that the Republicans will decline his challenge and receive the Democratic barrage in secret and in silence. Johnson was Registrar of Deeds under President Taft. President Wilson named Henry C. Ostello, a prominent citizen of Washington, to the post.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

Raised Red, White and Blue Corn.

Chicago, July 1.—After three years of experiment, Prof. Wm. L. Woodburn, of Northwestern University, has produced an ear of corn containing red, white and blue kernels, so he announced to-day. Prof. Woodburn asserted that he would soon be able to perfect his corn so that the rows of kernels would show solid bars of red, white and blue. The colored corn was produced by crossing red and white ears to make blue ears, according to Prof. Woodburn, and then grafting the three varieties.

SUMMER LEGUME CATCH CROP.

Stubble Lands Should All Be Sowed Down in Peas or Beans.

Clemson College, July 1.—If possible, all stubble lands should be seeded down in peas or beans for soil improvement as once where moisture conditions will permit, advises N. E. Winters, extension agronomist, who says that a summer legume catch crop of peas or velvet beans not only helps to save plant food from leaching away, but also obtains from the air, through the bacteria living on their roots, large amounts of valuable nitrogen during the summer and fall months.

After the wheat and oats are harvested, bacterial action goes on in the soil rapidly, making plant food soluble and available for the use of plants. If the soil is left bare for several months, large amounts of expensive nitrogen are leached out by the summer rains and lost in the drainage waters. Lysimeter experiments show that where growing crops are kept on the land, only five or ten pounds of nitrogen are lost in the drainage waters annually, but that where land is left bare, from 75 to 150 pounds are lost annually, depending on the climate, temperature and rainfall.

Peas or beans may be planted broadcast and disked in, or in rows and cultivated, according to labor conditions and the farmer's choice. One bushel or more of seed per acre is necessary if planted broadcast, whereas, if planted in rows, one peck or less is sufficient. A method which Mr. Winters has found successful is to throw out the stubble into furrows with a middle-buster or lister and plant in rows in the bottom of these furrows. The combined lister and planter is very convenient for this purpose, permitting the whole to be done at one operation.

666 quickly relieves Constipation, Biliousness, Loss of Appetite and Headaches due to Torpid Liver.—adv.

Coneross Locals.

(Unavoidably omitted last week.)
Coneross, June 28.—Special: Little Miss Harriet DuBose spent a few days last week with her cousin, Miss Evangeline Barker, of Walhalla.

Mr. and Mrs. S. M. Hunicutt were recent visitors to Furber Hubbard and family, of New Hope.

Mrs. Dave Archer and two children, of Anderson, were recent visitors to the former's sister, Mrs. T. L. Alexander, of this place. They also visited at the homes of Mrs. W. T. Alexander here and Mrs. E. M. Gambrell, of Walhalla, while in this section. They were accompanied to their home by Misses Marguerite and Ruth Alexander, who will spend some time visiting there.

Miss McGuire and Miss Lizzie Barker, of the Stamp Creek section, who have been attending the summer school at Walhalla, visited Misses Nina and Lena Abbott last week.

The people of Coneross were very regular attendants on the revival at the Baptist church in Walhalla last week, and the services were greatly enjoyed.

Misses Sarah and Ha Nicholson, of the Walhalla summer school, but whose home is at Flat Shoals, were guests of Miss Ora Arve Saturday and Sunday.
