

BOLL WEEVIL POISONING, 1922.

Prof. Conrad, of Clemson, Gives Out Plan that Will Benefit All.

(Clemson Bulletin.)
Poisoning cotton with calcium arsenate may be expected to pay—
1. When used on high yielding land.
2. When the weevil infestation is heavy.
3. When the poison is properly applied, according to a correct schedule.
4. When weather conditions are reasonably favorable for poisoning.

Farmers planning to poison this season should secure a copy of Circular 167, U. S. Department of Agriculture, "Poisoning the Cotton Boll Weevil," which may be obtained from the Extension Service, Clemson College; the Delta Laboratory, Tallulah, La., or the U. S. Department of Agriculture, Washington, D. C. advises Prof. A. F. Conrad, entomologist. The circular contains less than three pages of print, but the information is to the point, and no farmer should undertake poisoning before studying it and making sure that he understands thoroughly every step in the operation. Farmers are cautioned that poisoning is a serious and complicated operation, and that no one should undertake it unless he has determined to do it correctly. Many failures result from improper application, due to the lack of effort on the part of the farmer to inform himself.

No one should be disappointed at failure the first year, because poisoning must be learned just as we have had to learn other processes in farming. Those having had no experience are cautioned to go easy and not undertake too much the first season. Poisoning, like most farm operations, is not fool-proof. While it has been demonstrated that the weevil can be poisoned profitably with proper methods and machines and under favorable weather conditions for poisoning, the farmer is also cautioned that unfavorable conditions and improper methods will undoubtedly cause complete failure.

Regardless of how much poisoning the farmer intends to do, soil building should be kept up vigorously. Any successful poisoning program is dependent on high yielding land. It is no more expensive to poison an acre of high-yielding land than to poison an acre of poor land.

Any one intending to poison should begin right now and get information and study it hard and seriously, and should take up the matter with the county agent so as to enable the extension service to keep in touch and assist in every way possible.

CALOMEL SALIVATES EVEN WHEN CAREFUL.

The Treacherous Drug Cannot Be Trusted, and Next Dose May Start Trouble.

Calomel is dangerous. It may salivate you and make you suffer fearfully from soreness of gums, tenderness of jaws and teeth, swollen tongue, and excessive saliva dribbling from the mouth. Don't trust calomel. It is mercury; quicksilver.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful, and if it doesn't start your liver and straighten you up better and quicker than nasty calomel, and without making you sick, you just go back and get your money.

If you take calomel to-day you'll be sick and nauseated to-morrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great. No salts necessary. Give it to the children because it is perfectly harmless and cannot salivate.—adv.

Finds Weevils Living in Rag Weeds.

Editor Keowee Courier:

I found yesterday on the farm of my father, J. R. Black, near Westminster, forty-three boll weevils and three grubs inside of one rag weed. They seem to be wintering inside of all rag weeds.

Will we make any cotton this year 1922?
Yours truly,
Jay Black.

Westminster, R. P. D., Jan. 23.

Anti-Lynching Bill Passes House.

Washington, Jan. 26.—By a vote of 230 to 119 the House to-day passed the Dyer anti-lynching bill. The measure will now go to the Senate.

Aside from perfecting amendments offered by the Judiciary Committee, which did not materially change the provisions, the bill was voted on practically in the same form in which it was reported by the committee. Amendments offered by individual members were rejected without exception.

Democratic leaders made no effort to alter the bill's provisions, contending that it was impossible to change the principle of the measure by amendment.

FORMER ERSKINE PRESIDENT

Passes Away—Dr. Moffatt Died in Columbia Last Week.

Columbia, Jan. 24.—Following an illness of almost two months, Rev. James Strong Moffatt, D. D., aged 69, one of the leading ministers and educators in the South, died at his home here yesterday morning at 5 o'clock. Dr. Moffatt had been ill since last December.

Dr. Moffatt was for fourteen years president of Erskine College at Due West, being elected to that office in 1907. In 1921 he resigned and came to Columbia as pastor of the Associate Reformed Presbyterian church of this city.

Dr. Moffatt was one of the outstanding ministers of his denomination, being known far and wide as a speaker of great rhetorical power and ability. Born at Wheeling, Ark., in 1860, he attended Erskine and Muskingham College, at New Concord, Ohio, graduating from the latter institution. He received his ministerial training at Allegheny. In 1887 Dr. Moffatt was called to Chester, S. C., as pastor of the Associate Reformed Presbyterian church. During his twenty years pastorate at Chester he built up a strong and influential congregation.

Dr. Moffatt is survived by his widow, who before her marriage was Miss Jennie Grier, of Due West, and three sons, Dr. J. S. Moffatt, Jr., a member of the faculty of Washington and Lee University; Gaston Moffatt, who is a member of the faculty of a Brazilian college, and Grier Moffatt, of Duluth, Minn. Six daughters also survive.

IF STOMACH IS BAD, LET DIAPEPSIN END GAS, INDIGESTION.

"Pape's Diapepsin" has proven itself the surest relief for indigestion, gases, flatulence, heartburn, sourness, fermentation or stomach distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case costs only few cents at drug store. Millions helped annually.—adv.

STATE TEACHERS' ASSOCIATION.

Meeting Will be Held in Columbia from March 16th to 18th.

The program for the State Teachers' Association has been practically completed. The slogan for the meeting is, "Fifteen Hundred for Columbia, March 16th to 18th." Judging from the interest being taken in the meeting of the association all over the State this will be one of the biggest and best meetings ever held. Among the speakers for the general sessions will be Dr. E. C. Brooks, Superintendent of Education of North Carolina; Dr. Hugh S. Magill, field secretary of the National Educational Association; Dr. Thomas Alexander, Peabody College for Teachers, and Dr. Henry D. Phillips, pastor of Trinity church in Columbia. Besides these there will be some speakers from the State.

The departmental meetings promise to be up to their usual high standard. These departmental meetings have been arranged so that teachers may get information and inspiration for their work from the kindergarten teacher to the college professor. The departmental meetings will be held on Thursday afternoon, March 16, Friday morning, March 17th, and on Friday afternoon.

Special rates will be granted by the railroads over all parts of South Carolina. Announcement of the exact rate will be made a little later.

The Columbia Chamber of Commerce is lending its hearty support in making the meeting a great success. Since the camp has been moved from Columbia there should be no trouble in providing ample entertainment for all of the teachers.

It is the desire of the officials of the association to have as many to enroll in advance of the meeting as possible. To enroll it is only necessary to send a membership fee, together with the name and address, to W. E. Black, Estill, S. C. Mr. Black is treasurer and will send a receipt. The dues are 50 cents for ladies and \$1 for men.

R. C. Burts, Secretary.

Preserved Greens Prove Fatal.

Boise, Idaho, Jan. 26.—The death toll stood at five to-day in the family of Charles W. Tuttle, Cambridge, Idaho, as a result of botulinus poisoning from eating preserved greens at a birthday dinner Sunday for Harriet Tuttle, youngest member of the family. Two daughters and three sons are dead, and the father is not expected to live. Miss Bessie Claire, 15 years old, a guest, and Russell Tuttle, another son, who also partook of the poisonous vegetables, have not yet shown symptoms of the poisoning. Tuttle's daughters preserved the greens.

WARRANT FOR SENATOR MASON

Issued at Seneca.—Unlawful Connection with Liquor Charged.

(Farm and Factory, Jan. 26.)
Chief of Police J. P. Williams has in his possession a warrant, in which Oscar Ellenburg, assistant to the police chief, alleges that Senator W. P. Mason, on a recent trip to Seneca, was in some way unlawfully connected with contraband liquor. The paper was issued at the request of Mr. Ellenburg by J. N. Hopkins, clerk of council. Hugh P. Holleman, W. M. Kay and Wallace Kay are named as witnesses.

Senator Mason, who is now in Columbia in connection with his duties in the Legislature, denies intentional infraction of the laws, and, according to information which Farm and Factory has received through a third party, is desirous that his friends form no opinion until they have heard his side of the incident leading up to the issuance of the papers.

Mr. Mason was in town Friday and returned to Columbia Tuesday. His position makes him immune from detention until ten days after the sine die adjournment of the General Assembly, and Chief Williams will hold the warrant, he says, until after that time.

The case in which this prominent citizen is involved has caused much talk in Seneca and in other parts of the county, for the news that the warrant is in possession of the officer has become generally known.

THE PRESBYTERIANS GROWING.

Church Added 85,000 Communicants During the Year 1921.

Des Moines, Iowa, Jan. 26.—An increase of more than 85,000 communicants of the Presbyterian church of the United States of America during 1921 was announced here by Dr. Lewis Seymour Mudge, of Philadelphia, Pa., stated clerk of the church. Dr. Mudge was in Des Moines making arrangements for the annual General Assembly of the denomination, to be held here beginning May 18 and continuing for ten days.

Dr. Mudge announced that the number of communicants of the church now exceeds 1,700,000. This, he announced, is a gain of more than 85,000 over last year. The church also has more than 1,400,000 Sunday school members.

Contributions during last year, Dr. Mudge said, exceeded \$47,000,000, of which more than \$4,200,000 was spent for foreign missions, \$3,791,000 for home missions and more than \$1,000,000 for education.

The Presbyterian church has 9,979 ministers of the Gospel.

The General Assembly is the national legislative body of the church, composed of both ministers and laymen, administering affairs of the denomination through 46 synods, corresponding approximately to States, and 702 presbyteries, corresponding to congressional districts.

In an official statement concerning the church by Dr. Mudge in the recently issued Presbyterian Handbook it is recorded: "The Presbyterian church stands, as it has stood during its entire history, for the unconditional sovereignty of God, for the Bible as the only infallible rule of faith and life, for simplicity of worship, representative government, a high standard of Christian living, liberty of conscience, popular education and missionary activity, and true Christian catholicity."

Farmer's Body Found Near Still.

Henderson, N. C., Jan. 26.—The body of C. C. Pulley, farmer, age 35 years, was found on the banks of Tab's creek, near his home in Watkins township, this county, late yesterday. A moonshine liquor still and 200 gallons of mash were found near the body. There were a few bruised places on Pulley's head and indications of a struggle.

Million Packets of Flower Seeds Free

We believe in flowers around the homes of the South. Flowers brighten up the home surroundings and give pleasure and satisfaction to those who have them.

We have filled more than a million packets of seeds, of beautiful yet easily grown flowers to be given to our customers this spring.

Wouldn't you like to have five packets of beautiful flowers free? YOU CAN GET THEM! Hastings 1922 catalog is a 100-page handsomely illustrated seed book full from cover to cover of truthful descriptions and illustrations of vegetables, flowers and farm crops. It is full of helpful garden, flower and farm information that is needed in every Southern home, and, too, the catalog tells you how to get these flower seeds absolutely free.

Write for our 1922 catalog now. It is the finest, most valuable and beautiful seed book ever published, and you will be mighty glad you've got it. There is no obligation to buy anything. Just ask for the catalog, and it will come by return mail.

ATLANTA, GA.

Help in Time of Need
By REV. J. R. SCHAFFER
Director of Evening Classes, Moody Bible Institute, Chicago.

TEXT.—Let us therefore come boldly unto the throne of grace, that we may obtain mercy, and find grace to help in time of need.—Heb. 4:16.

Suppose our newspapers tomorrow printed a full page ad with these words in bold headline, **HELP IN TIME OF NEED**; then went on to explain that this great government had created a bureau of help. Offices were to be opened in the centers of population, large and small, to which every needy individual could

bring his problems. Help of every description would be offered; old age pensioned; heads of families with insufficient income given a grant for the maintenance and education of the children; widowed mothers paid a stated income; orphaned children would have equal chance with those in well salaried homes; the weak would be protected; the crushing load of the oppressed lifted; every effort made to lighten the burden of the toiling, struggling masses. What do you suppose would be the experience of such a bureau? Would it do any business? I other words, do men and women in this great land need help? Have they any problems? If ever there was a time when such a bureau would be rushed, it is now.

This is the very offer that God announced long ago, in the text. He has offered help in time of need. I wonder how many of the readers of this sermon have ever availed themselves of God's offer and have secured real, practical, timely help in some hour of need. The Apostle Paul, who wrote these words, had tested them fully. We learn this from the catalog of his experiences in II Corinthians 11:23-28 and again in the sixth chapter of the same epistle, verses 4-10. He wrote to the Philippians in a similar strain: "I know both how . . . to abound and to suffer need." We could have no doubt that he received help in this variety of experiences, for in Acts 20:22 he declares, "Having therefore obtained help of God, I continue unto this day," and again in Phil. 4:19 he asserts that God will supply all our needs, according to His riches in glory by Christ Jesus. The Apostle Paul found a source of help to which he invites every needy soul for a share in the good things so freely and fully supplied. What welcome news to struggling, perplexed mortals is announced in this text!

First, there is a PLACE that offers help. This suggests the practical—not simply advice given based on beautiful theories, but tangible help for life's perplexities. Just as real as the need, is the help offered.

Second, that place is a THRONE. A throne is symbolical of wisdom and power. Furthermore, a throne is the most carefully guarded place in the world of men. It is the seat of authority of the king, whose presence is august and fearful; to enter which, unbidden, is death. Yet we are invited to come boldly to the throne of the text, to find help in time of need.

Third, it is a THRONE OF GRACE. Ah, that matchless word, "grace," makes all the difference. Why is it a throne of grace? Because upon it is not only the King, but a High Priest, who has made propitiation for sinners, reconciling them, as enemies, unto God and making it possible for them to be admitted to the secret place of the Most High. It is the presence on the throne of the One who offered a sufficient and satisfactory sacrifice of Himself for sin, that turns it from a habitation of justice and judgment into a household of grace. Here we may come, no longer as suppliant citizens of the realm, but as rightful children of the Father's heart.

Last of all: How do we come? There is only one entrance to the throne room; it is by the way of petition. So there is only one way to the throne of grace, that is by the beautiful gate of prayer. Has prayer any value? "For he that cometh to God must believe that He is, and that He is the rewarder of them that diligently seek Him." Is prayer practical? Ask those who frequent the throne. His God not said, "If ye then being evil know how to give good gifts unto your children, how much more shall your Father, which is in heaven, give good things to them that ask Him." Prayer may fail. God can never fail. He will answer every prayer. "Let us come boldly."

The Christian Ministry.

The Christian ministry was set up in those ancient days when the New Testament was being written. With all the changes of time and circumstance, with all its own infinite variety of functions, that ministry is still essentially what it was then, meant for a great missionary institution. The reason why it exists is to spread light to strengthen and build up goodness, to carry on the never-ending war against wrong and evil and degeneracy. That astonishing work which we read of in the Acts, which we see going on in the Epistles of St. Paul, that in the work which must go on now, which must go on in every age, if the world is to be sought and gained for Christ.—R. W. Church.

Put it to any Power Task

While the Fordson Tractor has power in plenty to drag plows and harrows through the heaviest soil, it is light enough, small enough and so easily controlled that it can handily be put to many tasks about the farm, that will save you time, money and work.

In fact the Fordson will do every power job, both draw-bar and belt, more quickly and at less cost than it can be done with any other form of power. So every month the whole year 'round the always dependable Fordson will prove itself a paying investment, because of its capabilities, its economy and efficiency.

We will gladly explain and demonstrate to you the many Fordson money-making, time-saving features. Call, write or phone.

SKELTONS FOUND IN A CAVE

In Tennessee Number Approximately 800—Probably Indians.

Bristol, Va.-Tenn., Jan. 25.—Discovery of approximately 800 human skeletons in a cave in the mountains, about 15 miles from Bristol, was made to-day by Prof. Henry Woodman, of Bristol, who made an inspection of the cave at the invitation of the mountaineers.

An opening which runs 40 feet straight down in the earth was found several days ago by people living in that section. Upon making investigation they found several human skulls. The skulls were brought to Bristol and newspaper men and college professors were asked to enter and inspect the interior of the opening.

Upon descending the tunnel by means of a rope Prof. Woodman found a heap of human bones 30 feet high and about 80 feet wide. Indian hatchets and beads were also found. The cave has several tunnels reaching off on the side and is in the shape of a huge crevice in the earth. The bones were partly covered over by earth, which is thought to have fallen in from the opening above. The peak of the heap is directly under the entrance, and this leads to the belief that the Indians threw their dead into the cavity.

The heap is cone-shaped and contains an assortment of every bone in the human body. Prof. Woodman declares that experiments show that some of the bones have been in the cave for about a thousand years. A number of experts and archaeologists are planning to spend a night in the cave to continue the investigation. The cave is located in a spot in the mountains almost inaccessible.

Ford Signs Big Contract.

Detroit, Jan. 25.—The contract covering the proposed lease and purchase of the government nitrate and water power projects at Muscle Shoals, Ala., was signed by Henry Ford and returned to the War Department by one of the Ford engineers to-night, a few hours after it had been received. It was announced at the office of the Detroit manufacturer.

Seals find their way home after swimming 2,000 or 3,000 miles.

COLORED ORCHESTRA 'SHIPPED'

From Miami, Fla., to Homes in Columbus, Ohio.

Miami, Fla., Jan. 25.—Guarded by an escort of motorcycle policemen, six members of a negro orchestra engaged by one of the large tourist hotels in this city, early this morning were taken to a suburb and then placed on a train bound for Columbus, Ohio, their home. The musicians shortly after midnight were lured to the outskirts and beaten by a gang of men which, they said, numbered seventy-five. They were warned to leave Miami within 24 hours. Some of their instruments were destroyed.

Police are without information as to the identity of any member of the party warning the negroes. Several complaints had been made to the police of the actions of the negroes, but it was not believed that there would be any trouble. It was reported that the negroes had not conducted themselves in accordance with Southern customs, had sought to mingle with white people in the public parks and at public entertainments, and that the leader of the orchestra had on one occasion left his place with the orchestra and stepped on the floor to direct a new dance.

This was the only band of negro musicians employed in the white section of the city.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC taken regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general strength-giving Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Wettest City Stands Pat.

Peoria, Ill., Jan. 25.—The city council last night refused to adopt the resolution sponsored by the Chicago city council, which called for modification of the prohibition laws to permit the manufacture of beer and light wines. Much interest has been shown in the action of the Peoria council, as this city was commonly termed the "wettest" city in the United States before prohibition came.

Colds Cause Grip and Influenza

LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on the box. 30c.
