

Why the \$10.90 USCO is better than just a \$10.00 tire

On November 10, 1921, the 30 x 3 1/2 "Usco" was marked to sell for \$10.90.

This odd and closely figured price was the lowest quotation ever made on any tire of known standards.

A genuine pioneering step by the makers of U. S. Tires.

Now comes a lot of different \$10.90 tires being rushed into the market. "Special" tires. "New" treads.

Unfamiliar to look at—with perhaps an atmosphere of having been made to meet the price.

But the "Usco" still occupies a place by itself. A good old

standby on millions of cars for years. Better than it ever was.

Still putting the emphasis on honest quality, even if it does sell for only ten dollars and ninety cents.

The \$10.90 tire with the record of a proven product.

The tire that people still buy for the dignity of its quality regardless of the low amount they pay.

PURMAN UNIVERSITY WINS SUIT.

Estate of C. A. C. Waller Must Pay Pledge to Baptist Drive.

Greenwood, April 13.—The Court of Common Pleas, now in session in Greenwood, Judge J. S. Wilson presiding, was engaged all day Wednesday in trying the case of Purman University, of Greenville, against Hunter A. Gibbs, of Columbia, and Dr. Coleman Waller, of Spartanburg, executors of the estate of the late C. A. C. Waller for the collection of a ten thousand dollar pledge made during the \$75,000,000 campaign of the Baptist denomination, and specified by Mr. Waller, the donor, to go to Purman University, of which he was an honored alumnus.

The executors resisted payment on the ground that in case of death subscribers were not to have their estates held responsible, but Mr. Waller in making his subscription waived this exception. After the testimony a motion was made by the representatives of the Waller estate for Judge Wilson to direct a verdict for the estate on the ground that there was no consideration in return for the donation. Judge Wilson, after hearing arguments by counsel for and against this motion, and on motion of the representatives of the University, directed the jury to find a verdict in favor of the University, which was done.

The case was a very interesting one, and was fought hard. It is not known whether an appeal will be taken to the Supreme Court or not.

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets, you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for colds, headache, neuralgia, rheumatism, earache, toothache, lumbago and for pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoacetic-acid-ester of Salicylic acid.—adv.

IN MEMORIAM.

Mrs. Alice Brucke.

Dearest mother, thou art gone, but not forgotten,
Dearest mother of our home;
We shall meet beyond the river—we nevermore shall part.

Weep not that your tolls are over,
That your life's race by you is run.
God grant that we may rest as calmly
When our life's work is done.

So farewell, mother!
Sweet thy rest shall ever be—
When we pass beyond the river
And your happy face shall see.

A precious one from us has gone,
A voice we loved is stilled;
A vacant place is in our home
That never can be filled.

W. F. H. Brucke and Children,
West Union, S. C. (adv.)

FOUR-YEAR-OLD DRINKS GAS.

Child Thought It was Olive Juice—A Narrow Escape.

Florence, S. C., April 12.—Four-year-old Eugenia, daughter of Mr. and Mrs. J. C. Kendall, had a very narrow escape from death last evening when she drank part of a bottle of gasoline. Within a few seconds after she had swallowed the stuff her mother found her deathly sick in the bathroom. The child was just able to tell her mother that something she had drunk out of "that bottle" had made her very ill. Medical aid was called immediately, and her life was saved only by two hours of heroic effort. The little girl appears nearly recovered to-day and no further ill effects are apprehended.

Now that everything is all right there is a little humor connected with the accident. Little Eugenia's father, like many others, is very fond of the pickling liquid in bottles of olives. The child had observed him drink off the "olive juice" after her mother had removed the olives. Yesterday afternoon some one at the house had had some gasoline in an olive bottle. When the youngster found the familiar-looking olive bottle she immediately tried, as she thought, some of the "olive juice," with very nearly fatal results.

Card of Thanks.

Editor Keowee Courier:
I wish to extend my sincere thanks to the many friends who showed so much kindness and sympathy during the illness of my wife and children, and at the death of my dear wife. That God will bless each and every one of them is my prayer.
C. W. Roach,
Wainalla, R. F. D.—(adv.)*

TWELVE-MILE SUNDAY SCHOOL.

Convention to be Held with the Fall Creek Church, April 20th.

Following is the program of the Twelve-Mile River Baptist Association, to be held with Fall Creek Baptist church on April 29th, beginning at 10 o'clock a. m., for a two days session:

First Day—Morning Session.
10 o'clock—Devotional. W. M. Nicholson.

10.30—Illustration of opening exercises of Sunday school. By R. P. Prince.

7.50—Roll-call of churches, enrollment of delegates and reports.

11.15—Address, "The Two Hemispheres of the Sunday School." J. W. Holliday.

11.45—"Why Some Superintendents Fail and Others Succeed." S. P. Marshbank.

12.15—Discussion, "Solving the Teachers' Problems." D. E. Garrett.

1.00 o'clock—Dinner.

Afternoon Session.
2.00 o'clock—Season of devotion. W. M. Fendley.

2.15—Discussion, "How to Have a 100 Per Cent Teachers' Meeting." C. R. Abercrombie.

2.45—"Let the Children Grow." Mrs. M. Watson.

3.15—Discussion, "The Neglected Teen Age." C. R. Broadwell.

3.45—"Sunday School Workers' Library." W. P. Wright, R. A. Hudson.

4.15—Adjournment.

Second Day—Morning Session.
10.00 o'clock—Praise service, led by E. M. Bolding.

10.30—"The Teacher Before the Class." Mrs. J. W. Breedlove.

11.00—"The Standard of Excellence." C. J. Murphy.

11.30—"Avenues of Approach to the Child's Mind." Miss Florida Prince.

12.00 o'clock—"The Adult Department the Keystone of the Sunday School." J. H. Lawrence, J. J. Hunt.

12.30—Open conference; Superintendents' Problems.

1.00 o'clock—Dinner.

Afternoon Session.
2.00 o'clock—Devotional service, led by E. Littleton.

2.15—"Successful Home Department in the Rural Sunday School." Mrs. W. E. Curtis.

2.45—"Soul-saving the Supreme Test of the Sunday School." W. H. Nicholson.

3.15—Reports of Associational workers; election of officers; announcements; final adjournment.

R. P. Prince, President.
E. R. Broadwell, Clerk.

In parts of Switzerland a maid becomes engaged to a man if he accepts from him a bouquet of Edelweiss.

During the last 300 years there have been more changes in hat fashions than in any other part of man's attire.

NEW COURSES FOR CLEMSON.

Board of Trustees Endorsed Program Proposed by Faculty.

At the recent meeting of the board of trustees of Clemson College, all the members were present except A. F. Lever, M. L. Donaldson and J. J. Evans. R. M. Cooper, the new member of the board, who took the place of B. H. Rawl, was present for his first meeting with the board. Several matters of interest in connection with academic matters, and in connection with the business and public services of the college, were given attention.

Two-Year Courses.

The board endorsed two two-year courses proposed by the faculty, one in agriculture and one in mechanical arts. These courses will meet a considerable demand from prospective students who, for various reasons, cannot take full four-year degree courses. The board also authorized the change from the present three terms per year to two terms per year, and made provision for some extension of elective courses.

Plans were adopted for putting in an up-to-date testing laboratory for the civil engineering division of the mechanical department. The college already has good equipment in civil engineering, but the present equipment for this work is to be considerably enlarged and improved and better located for effective work.

Boll Weevil Experiments.

An appropriation was made for the purpose of conducting boll weevil poisoning experiments in various parts of the State, and plans for this work will be perfected and carried out under direction of W. W. Long, director of the extension service, and Prof. A. F. Conradi, entomologist. These experiments will be for the purpose of giving South Carolina farmers near at home data regarding the effectiveness of poisoning for boll weevil control.

On account of the fact that the present power plant, which was installed fifteen years ago, is now and has been for some time, rather overloaded, provision was made for an additional 150-horse-power boiler and a 250-horse-power steam turbine. These will relieve the strain on the power plant as it now stands.

The board also considered suggestions made by President Riggs looking towards the reduction of collegiate expenses for students, beginning with the next session, and it is the policy of the board in the present stringent times to reduce living expenses to the lowest possible figures.

To Put in Radio.

An appropriation for the establishment of a wireless station at the college was provided, and Prof. W. E. Godfrey, head of the physics division, will make arrangements as soon as possible for the installation of a receiving and broadcasting apparatus, so that radiophone messages may be received at Clemson and relayed to various parts of the State. In this way citizens of the State may have the advantage of long distance information at small individual expense for short distance receiving apparatus.

STRENGTH— VITALITY— HAPPINESS!

A MESSAGE TO PEOPLE IN POOR HEALTH WHO WANT TO BE WELL.

If you are in poor health merely from a general run-down condition, get some Gude's Pepto-Mangan of your druggist and take it with your meals for a few weeks, or until you feel right again. Pepto-Mangan is a wonderful tonic and blood-builder, and is very pleasant to take. It does not act like a miracle. Its effects are gradual, but real and sure. It contains iron in a form easily digested and absorbed by the system. For thirty years Gude's Pepto-Mangan has been used by physicians as a tonic for run-down people. Don't continue to be weak, nervous and headachy—take Gude's Pepto-Mangan and restore your good health. Thousands have been helped back to health by it—you can be benefited if you will accept truth and act now. Sold in both liquid and tablet form.—Adv.

Receiving their Last Pay.

Hazleton, Pa., April 13.—The one hundred and fifty-five thousand idle mine workers of the anthracite coal fields to-day began receiving the last pay they will get until the collieries resume operation. The men expressed faith in the ability of their committee to reach a satisfactory agreement on a new wage scale with the operators.

Everywhere idle men either went to the traveling pay cars of the company or the offices near the mines to receive their money, which is for the final two weeks of March, during which there was a heavy demand for fuel, and consequently steady time.

No Worms in a Healthy Child

All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a general Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Can't Bar Use of Cosmetics.

Corning, Ark., April 13.—Miss Pearl Pugsley was ready to resume her studies in the Knobel school today, following rendering of a verdict in her favor by Judge W. W. Bandy, in the "lip stick case," here last night. Judge Bandy said he would issue a writ of mandamus to-day to have the school board set aside its regulations barring students who use cosmetics. Miss Pugsley was suspended last September because she violated the rule.

In his decision Judge Bandy held that face powder did not interfere with the health of the pupils, and they could use it if they wished.

John Gary Evans May Be in Race.

Greenwood, April 13.—What is believed by those in close touch with the political situation in this State, to be an authentic report reached Greenwood to-day that former Governor John Gary Evans, of Spartanburg, will be a candidate for Governor in the approaching campaign. It is reported that friends of Mr. Evans definitely launched his campaign at a private meeting in Columbia last night and that Joe Sparks, a veteran newspaper man, would have charge of his campaign.

Card of Thanks.

Editor Keowee Courier:
I wish through the columns of your paper to extend my sincere thanks to the many friends and relatives for showing so much sympathy, love and kindness during the sickness and at the death of my dear wife, Julia Barnes. May God's richest blessings rest upon each and every one is my prayer.
Quince Barnes,
West Union, S. C., April 11.—(adv)

Meeting Presbyterial Auxiliary.

Piedmont Presbyterial Auxiliary will meet in Piedmont on April 27th at 11 o'clock a. m. A most interesting program has been planned. The speakers for this meeting are of the very best. Send names of delegates to Mrs. Sallie Duncan, Piedmont, S. C.
Mrs. E. W. Brown,
Secretary-Treasurer.

Japan is said to have had no written language until Chinese characters were introduced about 285 A. D.

Very Next Dose of Treacherous Drug May Start Terrible Salvation.

The next dose of calomel you take may salivate you. It may shock your liver or start bone necrosis. Calomel is dangerous. It is mercury, quicksilver. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system. If you feel bilious, headachy, constipated, and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful, and if it doesn't start your liver and straighten you up better and quicker than nasty calomel, and without making you sick, you just go back and get your money.
Don't take calomel! It cannot be trusted any more than a leopard or a wild-cat. Take Dodson's Liver Tonic which straightens you right up and makes you feel fine. No salts necessary. Give it to the children because it is perfectly harmless and cannot salivate.—ad.

OH! MY BACK!

The Expression of Many a Kidney Sufferer in Wainalla.

A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Ask your neighbor! Here's Wainalla proof:

Mrs. C. H. White, Broad St., says: "I had backache and other symptoms of kidney trouble. I had sharp pains shoot through my kidneys and I was in pretty bad shape. I was feeling quite miserable when I was told to try Doan's Kidney Pills and used them. Doan's entirely cured me. I advise anyone suffering from kidney complaint to give Doan's a trial."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. White had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Awaiting Execution, Escapes Jail.

Fayetteville, Ga., April 13.—Genus Coffield, the negro who preferred to be hanged rather than serve five years for burglary, has changed his mind and has escaped from the jail here, where he was awaiting execution.

When Coffield was convicted of burglary two weeks ago and sentenced to a five-year term in the penitentiary he exclaimed that he preferred the death penalty and stabbed his nephew, who had turned State's evidence. The nephew died and Coffield was indicted, tried and convicted and sentenced to death within 48 hours.

Hatchery Salmon Not Fighters.

Ottawa, Canada, April 12.—Government fish hatcheries have ruined the "morale" of the salmon of British Columbia, according to the story told to the house of commons by A. W. Neill, independent. It seems that when the wee salmon come into the world at the fish hatchery they are guarded against all enemies, and lose their protective instinct. So when the salmon has come of age and is sent out into the cold world he is "as tame as a cat," to use Mr. Neill's expression, and when he meets an enemy he "stands with his mouth open and accepts murder as if such a thing was fore-ordained."

In the Cambria coal field of Wyoming small quantities of gold and silver are said to be present in the coal veins.
