

Where Extra Service is Demanded Firestone Cords Predominate

WHEREVER the exactions and tests of tires are most severe—there you will find Firestone Cords in universal use.

The hard jobs seek Firestone. And so well has Firestone responded under difficult conditions—so consistently has mileage mounted to totals impossible to obtain from ordinary tires that today Most Miles per Dollar is the buying slogan of thinking motorists everywhere.

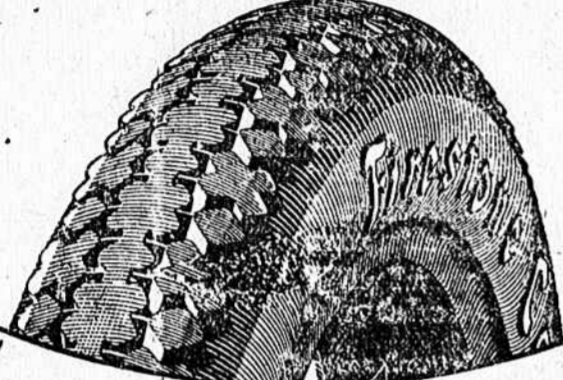

The blending and tempering of rubber, gum-dipped cord construction, air-bag cure—all these mileage methods have

been developed by men whose life work is the production of constantly increasing tire values for the public.

Users in this vicinity verify Firestone reputation, and report almost daily, some new Firestone record of extra distance travelled.

Don't be satisfied to buy tires—buy values—the longest mileage at the lowest price consistent with such reliable performance.

Make Most Miles per Dollar your principle of tire economy—choose your next tire on that basis.

+++++ COUNTY AGENT'S NOTES. +++++
BOOST THE COUNTY FAIR.

Another Trip to Cornelia.

Farmers interested in apple growing will do well to take the trip to Cornelia, Ga., planned for next Tuesday, Oct. 10th. Those taking the trip will see modern methods now used in picking, grading and packing as practiced by the Consolidated Fruit Growers' Exchange of Cornelia. The wonderful, productive apple orchards of leading growers will be visited.

Cornelia is about 35 miles from Westminster and is reached by following the good road leading on through Toccoa. Plan to meet at the building occupied by the Consolidated Exchange, in Cornelia, by 10 a. m. The party will return in the afternoon.

What Farmers Are Doing.

Jas. H. Moore, of Long Creek, has a fine field of Mammoth Yellow soy beans which were four feet high and lapping the rows two weeks ago. Mr. Moore states that he has been growing them for six years. His two-acre field shows that he knows something about growing them. The dreaded Mexican bean beetle was beginning to work on them, but had already damaged the peas nearby to a greater extent, showing his preference for peas ahead of soy beans. The finest sort of cabbages and Lookout Mountain Irish potatoes thrived on this place. Mr. Moore and others of this section of the county could make a splendid showing at the County Fair.

Rev. L. H. Raines, of Long Creek Academy, has a field of Peach Blow Irish potatoes, two acres in extent, which will rival the best in the county. More land is being cleared and a first-class orchard will be established by Mr. Raines and by the school at an early date.

And speaking of Irish potatoes, many a traveler along the main highway between Walhalla and Seneca has paused in the mad rush of speed to look upon the four acres of Peach Blow and Lookout Mountain Irish potatoes on Jas. H. Darby's farm, operated by W. N. Lindsay. Eight hundred pounds of 8-4-4 fertilizer per acre was used. Were it not for the continued dry weather this field would probably have been one of the record fields of the county. Soy beans and Mung beans also thrive on this place.

John Cannon, of Ebenezer School District grows nearly everything on his place, having a model home orchard of about 200 trees, large potato fields, etc., and sells his surplus to advantage. Mr. Cannon believes it is profitable to "live at home and board at the same place."

Pioneer Alfalfa Grower.

S. W. Foster, of Newry, manager of the Mill's farming interest, gives some very interesting facts and figures on the blue ribbon field of alfalfa which grows so luxuriantly on

a high knoll near the Ramsay residence near Newry.

Mr. Foster states that three years before he sowed this field in alfalfa it was nothing but a piece of raw and rugged land—a typical red hillside of Oconee. But with two or three years of "sowing down" with peas in summer and rye and vetch in winter, the good old soil came back. Manure was also used liberally in building up this run-down soil.

"I sowed one and three-quarters acres, seeding it about Sept. 20th," says Mr. Foster. "I began preparing the land in January by taking out stumps and scattering manure the preceding year. Then sowed peas and then rye for the land. Turned the land in March with tractor and disc plow, and then harrowed it. In May I sowed three bushels of peas. In August these vines were cut under with a disc harrow.

"Five tons of ground limestone per acre was applied just preceding the sowing of the peas, and 1,000 pounds of acid phosphate per acre also.

"Then the peas were cut with disc harrow and turned under with tractor and disc. The field was harrowed several times before seeding, thus allowing the soil to become settled and make the seed bed fine on top. The alfalfa was seeded Sept. 20.

"The cost was about as follows:
Taking out the stumps and rock \$ 50.00
Thirty loads manure (cost of hauling) 30.00
Plowing, harrowing, seeding 20.00
75 pounds seed at 27c. 20.25
Ten tons lime at \$2.50 25.00
Two tons acid phosphate at \$20.00 40.00
Three bushels peas sown, at \$3.00 per bushel 9.00

Total cost \$204.25
(Note.—This was done when labor was 25c. an hour.)

Receipts—
First year (1921)—Six cuttings of one ton each at \$30.00 per ton \$180.00
Second year (1922)—Four cuttings of one ton each at \$30.00 120.00

Total \$300.00
Third and fourth years will probably do equally as well. (Dry weather cut yield this year considerably.)

Modern Potato House for County.

G. W. Gignilliat, of Seneca, has recently completed the erection of a standard sweet potato house on his farm two miles below Seneca, on the Shiloh road. This house has a capacity of 1,000 bushels, thus making it the largest house in the county. The building is built entirely on government plans, with one slight exception—the style of ceiling—but the ceiling is double-walled and should serve the purpose equally as well in controlling the temperature of the room.

The potatoes will be stored in standard sweet potato bushel crates, and one thousand of these crates have already been purchased by Mr. Gignilliat. An exhibition of one of these crates, containing the market grade of potatoes, will probably

constitute a valuable exhibit at the County Fair.

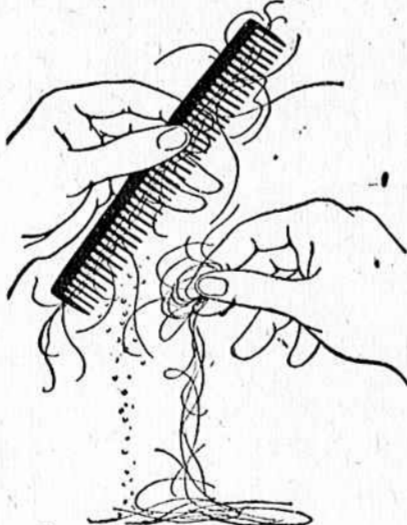

Paradichlorobenzene for Borers.

The use of this new chemical for ridding peach trees of borers is rapidly spreading, following its successful use last season by large orchardists. It should be applied between Oct. 1st and 10th in this section on all peach trees five years old or older. One ounce to the tree is sufficient. Seed houses at Greenwood, Rock Hill and Spartanburg, and probably at Anderson, handle the new chemical.

Write the county agent for further information.
Geo. R. Briggs, County Agent.

A SIN TO LET HAIR FALL OUT

35c "Danderine" Saves Your
Hair—Ends Dandruff!
Delightful Tonic

Hurry! It's your duty! Each day you see a little more hair falling out and you are making no effort to avoid baldness. What a pity. Falling hair means your hair is weak, sick—possibly dandruff is strangling it, or the hair root pores in the scalp are not firm and tight, thus wasting the hair-growing oils.

Danderine almost instantly stops falling hair of men or women and cleans every particle of dandruff away, then the hair takes on new life, vigor and strength to grow strong, thick and long.

Danderine is delightful—not sticky or greasy. Go to any drug store now and get a bottle. Use it. Have healthy, heavy, beautiful hair and lots of it.—adv.

Providence School to Open.

The patrons of Providence School District No. 3 will please take notice that school will open Monday, Oct. 30, and that compulsory attendance will begin Nov. 3d.
(Signed) P. S. Cleveland, W. J. Richardson, O. B. Graham, Trustees.

Stagnant sea water becomes foul just as quickly as does fresh water.

CONERROSS EXCHANGE ENTERED

And Robbed—Thought to Have Been Work of Boys—Personals.

Conerross, Oct. 2.—Special: A welcome recitation and a pantomime has been added to the program to be rendered at Blue Ridge school building on next Friday evening, Oct. 6, beginning at 8 o'clock. W. T. Alexander, one of the patrons of the school, will also give a talk along the line of the school improvement association work. We again extend an invitation to everybody to be present and enjoy both the program and the ice cream supper and the amusements that will accompany them during the evening.

Miss Sue Annie Todd, of West Union, and Miss Jessie Bowers, of Isaquena, spent some time Saturday with the Misses Abbott, of this section.

The Y.W.A. met last Thursday afternoon and held a very interesting meeting and also arranged the State missions program, which they will carry out later in connection with the other societies, the W.M.S., the G.A.'s, R.A.'s and Sunbeams. The Y.W.A. members are urged to meet at the church to-morrow week, Oct. 10, where they have planned to take a mission study examination, using the book, "All the World in All the World." So please come early and bring a lunch and your book and let us spend the entire day studying the Bible as it is laid down in the mission study book.

The members of the auxiliary are also reminded of the regular meeting, which will be held on Thursday, Oct. 5, at 4 p. m. Come.

Miss Nina Beardon, of Oak Grove, spent last week with her sister, Mrs. Walter Sheriff, of this place.

Mrs. Charlie DuBose and family, of Seneca, spent a few days last week with Mrs. Clara DuBose near this place.

Misses Nina and Lena Abbott attended the circus at Greenville last Tuesday.

I have been asked to announce that the compulsory attendance law will be enforced in the Blue Ridge school beginning on Oct. 30. Parents will please take notice and see that all children of school age attend.

William, the infant son of Henry and Mrs. Logins, died at their home here on Sept. 19th and was buried at the Neville burying ground.

Roy Arve left yesterday for Long Creek, where he will enter school at the academy. His friends here wish him much success in his school work.

Mrs. Cornelius Davis and daughter, Miss Willie Mae, of Westminster, spent some time last week at the home of their mother and grandmother, Mrs. Nettie Hesse, here. They were accompanied by their friend, Miss Dorothea Gilreath, of the same place.

Will Haynes and family, of Conerross, and W. M. Murphy, of Wolf Stake, and children, were recent guests of Mrs. Mary Murphy, of near Oakway.

A few from here enjoyed the singing convention at Madison yesterday.

On last Thursday night the Conerross Exchange was broken into and quite a number of articles were stolen. It is thought to have been several boys, as the articles taken were such as would appeal to boys, such as tobacco, cigarettes, cigars, jewelry, overalls, men's shoes, half hose, chewing gum, candies, pipes; also quite a lot of salmon, potted meats, loaf bread, etc. They succeeded in opening the cash drawer and took such small change as was left in overnight, but were unsuccessful in entering the Victory safe, on which they exerted much time and considerable effort, judging from the appearance of things around it, there being so many matches lying around that had been struck. The same was true of the entire store, showing that they spent some time in going from place to place selecting what they wanted and could make way with. The building was entered from one of the front doors, the lock not yet having been found. Officers made a search, but no arrest has been made. On the night preceding the breaking into of the store, the chicken house belonging to the exchange was visited and a number of chickens stolen, but it is not thought to have been the same rogues.

H. W. Arve and family attended the funeral of the former's sister-in-law, Mrs. Rachael Arve, which took place at Holly Springs cemetery on Saturday afternoon. Mrs. Arve died at her home in the Long Creek section on Friday before.

J. C. Barker had the misfortune to lose a nice hog one day last week.

Mrs. Keith Alexander spent last week with her father, Claude Gambrell, and family, near Richland.

Mrs. Jang Montgomery, of Walhalla, was the spend-the-day guest of her sister, Mrs. J. V. Dilworth, of Conerross, last Friday.

We are glad to report that Judge Abbott is out again and able to go almost anywhere he pleases. He has been in Walhalla and Westminster recently. He has suffered for the past two months with typhoid fever. We were glad to see him at the B.Y. P.U. meeting last night.

Mr. and Mrs. Walters, of Greenville, were welcome guests yesterday at the home of Mrs. Maggie Kell, near here.

Compulsory Attendance—Norton.

The Norton school will open on Monday, Oct. 23d. The compulsory attendance law will be enforced on Nov. 6th. Parents will please take note of this date and have all children of school age enroll on Oct. 23.
J. H. M. Whitmire, for Trustees.
