Teach The Child

IT IS JUST AS EASY to teach a child the habit of saving as it is to permit it to acquire the habit of spending.

THE TOY BANK may be used to teach a child the value of saving and the safety of banking. But parents permit the child to use the toy bank as a toy when very young, and then just at the time when they should follow up the toy bank stage with a real bank account they give the matter no further attention.

IT IS UNJUST TO THE CHILD: There would be more savers and fewer spenders if parents did their duty.
