THE "WOLF AT THE DOOR" is not merely a figure of speech. This wolf is very real, and he comes snapping and snarling at the doors of many who never anticipated being annoyed by him.

YOU KNOW THAT KIND—the ones who make good money, and spend it. They either think it will be always thus, or else they do not think at all. Then comes sickness, ill luck, hard times or something else that unleashes the snarling wolf.

AN ACCOUNT IN OUR BANK, carefully tended, is the best insurance against the visits of this ravenous wolf.

**THE NEW
STETSONS
ARE HERE.**

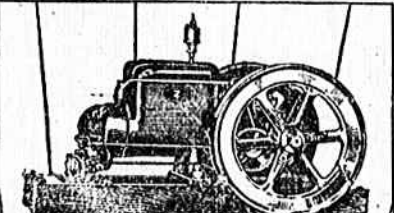

That's all we need to tell you. New Fall Styles with the distinctive mark, and the good, old-rock bottom Stetson Quality.

If you're a regular Stetson customer, of course you'll want one of the new Fall Styles. If not, let us urge you at least to come and try one on.

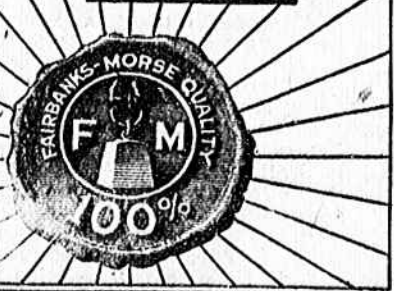

You can judge for yourself what this Stetson "feeling for style" is, that the young men talk about.

**The Stetson Quality Mark on every Stetson Hats.

**What One Gallon of Kerosene
in a "Z" Engine Will Do for You**

- Let us tell you about these many big advantages:**
- 1—Economically uses kerosene as well as gasoline.
 - 2—High tension magneto eliminates batteries and battery troubles—gives hot spark, quick starting.
 - 3—Throttling governor assures steady speed and close speed regulation.
 - 4—Suction fuel feed—no pump—simple and positive.
 - 5—Convenient speed controller gives change of speed while engine is running.
 - 6—Renewable die-cast bearings.
 - 7—Positive lubrication.
 - 8—Automatic in operation, requiring but little attendance—easily started.
 - 9—Fairbanks-Morse quality throughout.

Do you realize how much work the "Z" engine will do at the low cost of one gallon of kerosene?

It will pump 10,000 gallons of water for your stock, for your home, for fire protection.

It will light 10 20-watt, 16-candle power lamps for 15 hours from your light plant.

It will grind 40 bushels of feed to fatten your stock.

It will saw over 5 cords of wood for you.

It will run your churn—cream separator—milk machine.

It will operate your family washing machine—your grindstone, corn sheller, clover huller, shredder, hay baler and other machines about the farm.

Over 300,000 "Z" engines have been bought by farmers everywhere. They saved labor—got more work done. The many big advantages of the "Z" were convincingly demonstrated to these farmers before they bought.

Note these features at the left and then you, too, come in and see the "Z."
