Prof. Carlisle's fine pointer slut, "Kate," handed in her checks one night last week. There was no inquest or post mortem examination, but it is supposed to have been a case of poisening.

Friend Waddy has placed an elegant awning over the front door of his store. It will soon become the rendezvous of the loafers club.

Prof. C. is heavy on the "taters." He has a large patch and says he intends to make them whether he succoeds in keeping them through the winter or not.

Dewberries are w ripe, and the blackberry crop is promising. People should make plenty of blackberry wine-nothing is better in cases of diarrhœa.

Twenty-five cents will buy a bottle of Shriner's Indian Vermifuge, the most reliable agent in destroying and expelling worms from children and adults. Try it. Every bottle guaranteed to give satisfaction.

Mr. L. B. Gravley has sent to this office some very fine heads of wheat. and we are informed he has a good deal sown which is equally as good as the heads sent us.

Dogs.-Mad dogs seem to be on the increase in this locality, and for the protection and security of human life, we make the following suggestion, which we hope will be adopted and carried out by every citizen in the County: Let every person who has a favorite dog which he desires to CANNED GOODS & PICKLES, keep, confine him securely in a that he cannot possibly escape from the premises. Then let it be understood by everybody that every dog caught running at large, or outside the premises of its owner, shall be shot down without question or hesitation. Human life is too precious to worthless dog, and we trust this suggestion will be unanimously adopted forward and settle forthwith by our citizens and carried into effect at once. There is no time to lose, for one human life is worth all the dogs in America.

Lumber is getting so scarce that a small club, which a fellow cut the other day, cost him eight dollars and some cents.

There was a "big metin" at Central the other night. The meeting was between a cross-tie and the head of a man, who leaped off of the hind end of a car, while it was in motion. We are inclined to think he didn't get religion at that meeting, but that it West, which has done considerable caused him to use some "cuss" words.

The citizens of our town turned out en masse on Monday and Tuesday, to assist our good friend Mr. Gasaway in erecting a temporary residence, since he was so unfortunate as to have his nice new one burned. The lively manner in which things were moved around, did something towards dispersing the sadness and gloom that rested around a desolate house.

It is a sure preventive against Rinderpest, Hollow Horn, etc. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet.
