FEARFUL LOSS OF LIFE.

ONE HUNDRED AND NINETEEN MIN-ERS KILLED BY AN EXPLOSION.

Springhill, Nova Scotia, Thrown into Mourning-Several of the Bodles Fearfully Mutilated-Fifty-three Widows and 157 Children Left Unprovided for.

SPRINGHILL, MINES, N. S., Feb. 23. the total number of dead is thought to be 117. A largely attended public meeting was held last evening and arrange-ments for a public funeral on Tuesday were completed. Chief Inspector Gilpin arrived yesterday morning, accompanied by Madden and went down into the mine. Mr. Gilpin says so far as the evidence shows the explosion occurred in either No. 7 or 6 balances, and that the force of the explosion in these balances is very great. Most of the timbers were knocked out, allowing the roof to fall, breaking boxes and mutilating men and horses. Tow small fires were smouldering in the debris, but were extinguished searching party.

The explosion, Mr. Gilpin says, did very little damage to property in No. 7 slope, having extended but a short distance beyond the tunnel, and all the deaths in that slope were from suffocation by fire damp. Manager Swift was at the bottom of No. 1 slope about fifteen minutes before the explosion occurred, and intimated to one of the roadsmen that he was going into the place were the explosion occurred. He has not been seen since; probably his body will be recovered when some of the debris is cleared up.

A boy named Boaton heard the explosion and rushed off to the place where succeeded in carrying him out uninjured. His heroism is one of the chief topics of conversation. There were plenty of volunteers to search for all the bodies. Men who came to the pit as spectators divested themselves of their rescue of their fellow workmen. Many ghastly scenes were to be seen, both on the surface and underground. Several brought up to the surface.

The explosion is more disastrous to life than any other in the history of coal mining on this continent, It is a singular coincidence that the loss of life equals that of both the Ford pit and Drummond colliery explosions. The number of lives lost at the Ford pit was fifty-three, and Drummond sixty-four.

The list of dead reaches 119, of whom fifty-four were married, forty single and twenty-five boys. Nmety-seven bodies have been taken out; 161 children were orphaned. A good deal of distress prevails. No explanation of the accident can be given. The mine is being put in order no resume operations Wednesday. The damage to the property appeal has been issued:

'To the Public : A mining disaster, attended with fatal results unparalleled in the history of the Canadian mines, has fallen on the town and people of Springhill, N. S. The loss of life is probably as great as the combined appalling losses at the Drummond and Ford pit explosions. About 119 lives were lost: fifty-four widows have been left behind and 161 children made fatherless.

"The widows and fatherless will need abundant assistance, and that promptly from a public shocked and horrified by this terrible calamity. Seventy thousand dollars will be required to meet the demands and to alleviate the sufferings of the bereaved and distressed during the most pressing period of their dire misfortune. The residents of Springhill in meeting assembled have appointed a committee, consisting of the Mayor, Town Council and all residence clergy, to solicit and acknowledge subscription to the Springhill relief fund, and they confidently and earnestly ask for an immediate response from persons of all denominations, societies, trades, guilds and nationalities. Willam Hall, Mayor, A. McLeod, Secretary."

Horrors of The Mines.

HAZELTON, Pa., Feb. 23.—Five of the miners entombed in slope No. 1 at Jeanesville were taken out alive to-night after being eighteen days shut in the bowels of the earth. These with the galls' successor. thirteen bodies already found make eighteen men, the exact number given in these dispatches on the day of the accident. How they survived is a miracle. Nothing like it has been known or heard of in the anthracite coal fields and Frye. of Pennsylvannia. All are Hungarians. The men were all found together barely alive, and all but one too weak to be moyed. None of them could talk except John Tomashusky and he could only say "John much sick." Physicians were brought into the mine and the four men were cared for where they lay. The fifth man was wrapped in blankets and carried out. It is doubtful if the lives of the four can be saved, and a Priest went into the mine to administer spiritual consolation. No story can as yet be obtained from Tomaskusky.

Frightened to Death.

CLINTON, Mo., Feb. 19.-Mrs. M. Trollinger of Leesville died yesterday from watching her son cut down a tree. The strike of 1886. tree fell towards the wagon, and the boy called to his mother to get out of the way. She seemed unable to move. The tree crashed down just behind the wagon without touching Mrs. Trollinger, but she fell over dead. Physicians examined the body and say they found no sign of the woman having been hit. bark sant almost immediately off Buoy They assign the cause to paralysis of

Killed with a Club,

SAVANNAH, Feb. 20 .- Two negroes entered a store kept by a man named Jordan at Frazier's crossing on the East Tennessee, Virginia and Georgia Railroad to-day, bent on robbery. As Jordan resisted they killed him with a club. The murderers were captured and on confessed. He also admits being implicated in a series of robberies at Brunswick a few nights ago.

FATAL COLLISION OF TRAINS.

Six Killed and Several Injured-The Ingalls Now Know Were to Lay the Wreck Takes Fire.

NEW YORK, Feb. 20.-There was a collison at 7 o'clock this morning between two trains in the Fourth avenue tunued at Eighty-sixth street. What is cars, was being drawn to the Mott Hav--An explosion occurred in the mines of en yard, when, for some reason as yet this place yesterday. At midnight nine- unexplained, it came to a stop in the ty-four bodies have been recovered, and tunnel at Eighty-lifth street. Train No. 10, the New Haven local, which left the Grand Central Depot at 7 o'clock this morning in charge of Engineer Fowler, Fireman Goodale and Conductor George Hutchinson, ran into the rear of the standing "shop train."

General Manager Toucey, of the Hudson River and New York Central Road, said he had heard that three men were killed and a number injured. He said that after the collision a New York Central engine running light [this is without | cars attached] ran into the rear of the New Haven train. Flames broke out a few moments after the seconnd collision, at once without any difficulty by the but they were soon gotton under control. and the work of rescue began at 10:30 o'clock. Five dead and seven injured have been removed. The injured were taken to the Presbyterian Hospital, None of the passengers are known to be among the killed or injured. They are all believed to be employees of the road. The passengers in the New Haven train were badly shaken up, but beyond some light cuts and bruises none of them are badly hurt. The passengers were taken from the train buck to the Grand Central Depot in the Harlem train that was just passing at the time in the East tun-

The total number of lives lost is six. Five were taken out dead and one has he knew his brother was at work and since died-all railroad employees. Several employees were injured, but the exact number is not yet known, as a number of them were carried home as soon as taken out of the wreck. The fire department soon extinguished the flames, but both tracks of the tunnel coats and unhesitatingly went to the were blocked with the wreckage. The rear car of the "shop" train was crushed like an egg shell from the hind end to the middle, and here is where the deaths of the bodies were so fearfully mutilated, occurred. Nobody on the New Haven that they were placed in bags and passenger train was injured, even by the engine which ran into its rear. The latter was derailed and burst both cylinder heads.

The Centre of Population.

WASHINGTON, Feb. 20 .- The Supmovement of the centre during each lecade since 1790. The exact latitude of the centre of the present census year is given as 39 degrees 11 minutes and 56 seconds, longitude 85 degrees 32 minutes and 53 seconds, at a point in Southern Indiana a little West of South of Greensburg, the County seat of Decatur County, and twenty miles East of Columbus. The bulletin says: "The centre parallel of 39 degrees of latitude. The start in 1790; the most Southern point was in 1830-the preceding decade having witnessed a rapid development of population in the Southwest-Alabama, Arkansas, Mississippi and Louisiana having been admitted as States and Florida annexed and organized as a Territory. The extreme variation in latitude has been less than 19 minutes, while a hundred years of record have accomplished a movement of longitude of nearly 95.10 degrees. The sudden acceleration of movement between 1850 and 1860 was due to the transfer of a considerable body of population from the Atlantic to the Pacific coast-twelve individuals in San Francisco exerting as much pressure at the pivotal point, viz., the crossing of the 83d meridian and 39th parallel, as forty individuals at Boston.

Ingalls Successor.

WASHINGTON, Feb. 18,-The subect of the selection of a successor to Senator Ingalls, who retires from the Senate March 4, as President Pro Tempore is being privately discussed among Republican Senators.

It will be necessary to arrange this matter before March I in order to guard the past the tags have been taken of against a vacancy in the presiding officers chair after that date, so a caucus of ed to the shippers for reuse. All of this

It does not appear that much effort is making on the part of the Senators to secure the place, and but three names have been put forward prominently, which are those of Senators Platt, Hoar

Eighteen Engines destroyed

KANSAS CITY Mo., Feb. 19 .- At 0:30 last night a careless wiper in the Missouri Pacific Railway, in Kansas City, Kansas set fire to a bunch of oily waste. The fire spread rapidly, and consumed the house. There was eighilso destroyed. Among them were the engines used in the regular passenger service, and the officials were obliged to telegraph to Sedalia for seven engines to take out this morning's trains. The total loss is estimated at \$175,000. The Cypress round house became historic as fright. She was sitting in a wagon a place of siege during the Southwestern

Running Down A Bark.

NEW YORK, Feb 18 .- The North Bremen Lloyd atcamer Havel, while on her way down the bay this afternoon, collided with the Italian bark Mascotta, inbound from San Domingo city. The 20, near Bay Ridge, and three of her crew were drowned. The steamer proeeeded on her was to Bremen.

Six Lives Lost.

NEW YORK, Feb. 21.- A five story louble "flat" house, a better sort of tenement house, at 129 and 131 Sands street, Brooklyn, burned to night and six of the inmates were burned to death. Thirty-its banner, and the only one. Gov. Hill two families occupied the house, about cannot carry New York, and not only contry, made a speech in favor houses and churches, convent, restau-

Blame.

DEFEATED BY WOMEN.

WASHINGTON, Feb. 24.—The general subject of temperance occupied the attention of the Woman's National Council today. Mrs. J. Eilen Foster, president of the Non-Partisan National known as a "shop," consisting of empty Woman's Christian Temperance Union, and Mrs. Mary T. Lathrop, representing as a delegate the National Woman's Christian Temperance Union, were the

principal speakers. Mrs. Mary E. Lease, of Kansas, also spoke. In begining, she addressed herself to "Madame President, friends and fellow-citizens." She said she used the term with pardonable pride, when she remembered that the Alliance league has given to women of her sunflower, humanity-loving, temperance-loving State of Kansas the right of political suffrage. She spoke of the condition of affairs in Kansas, and referred to Ingalls as the

man that we women of Kansas had the great pleasure of defeating." The subject assigned to Mrs. Lease was "Women in the Farmers' Alliance." She said, however, that the subject could not be intelligently discussed nor fully understood until the necessity for the

formation of the Farmers' Alliance is

first shown. Cotinuing she said: "It must be evident to every intelligent man and woman today that there is something radically wrong in the affairs of this nation. It must be evident to every thinking man and woman that we have reached a crisis in the affairs of the nation which is of more importance, more fraught with mighty consequence for the weal or woe of the American people than was even that crisis that engaged the attention of the people in the dark and bleeding days of civil strife. My friends, the lash of the slave driver's whip is no longer heard in this country, but the lash of necessity is driving thousands to unrequited toil. The conscienceless capitalist is robbing manhood of its prime, mothers of their motherhood and sorrowful children of sunshine and of joy. We have a land where the bounteous hand of nature has given wounderful heritage to each and every one, and yet in this land of pienty and unlimited resources the cry of humanity is going up from every corner of the nation, the plaint of motherhood, the moans of

starving children. Capital buys and sells today the very heart beats of humanity. For one hundred years the speculators, landrobbers, pirates and gamblers of this nation have knocked unceasingly at the door of Congress and Congress has in every instance erintendent of the Census has prepared acceded to their demands. They have bulletin giving the centre of population gotten money out of the treasury of the United States together with the amounting to tens of millions of dollars. They were permitted to tap the veins of trade and commerce and withdreaw from the body politic the circulating medium which is the life-blood af the nation, and our lawmakers term these acts constitu-

In conclusion the speaker said: "The Farmers' Alliance numbers of population has clung closely to the it with thanks to Almighty God, that in former Congresses it had been done our Alliance representatives are the most Northern point reached was at the only men in the councils of the nation today, who have not been elected on the

> The Offending Fertilizer Companies. COLUMBIA, S. C., Feb. 21.—The ollowing are the names of the companies without the State who have been coarged with violating the law of this State in relation to tagging fertilizers:

liquor platform.

The Atlantic and Virginia Fertilizer ompany of Virginia; G. Ober & Sons, Baltimore, Md.; Durham Fertilizer Company of Richmond, Va.

The vigorous prosecution of all those who are violating the laws in this respect s having a wholesome effect, as is shown by the fact that \$1,500 for tags has been received since the recent arrests were made.

A gentleman from Fairfield, who is largely engaged in planting, stated in conversation a day or two ago that he had never seen any tags on any fertilizers purchased by him, except on one lot, and then the circumstance of their being there was so unusual that the negroes thought that it must have been an inferior lot. From this it may be fairly inferred that in many instances in yeas 130, nays 114. before reaching the consignee and return-Register.

A Fatal Newspaper War.

Osborne, one of his reporters, on High street, shortly after noon today, and a fusilade of shooting began-Osborne was killed, P. J. Elliott hit ound house of the Cypress yards of the in the head and arm, and W. J. Elliott Trouble arose from articles appearing despite the efforts of the fire department in the papers named, and the shooting was done in the midst of a crowd gathteen engines in the house and they were cred to see the Washington birthday parade.

His Life Valued at \$14,500. BIRMINGHAM, Ala., Feb. 20,-In

the case of R. E. Sanders against the Kansas City, Memphis and Birmingham Railroad, on trial in the Circuit Court at Jasper, in Walker County, the jury today gave a verdict for the plaintiff of \$44,500. It was the largest verdict for damages ever given in the State. Sanders was killed in a collision last Octo- of farmers. The gentleman was activeber on the outskirts of Birmingham, er County.

Hill Can't Carry New York.

s on a visit here, said to-day: political issue is the tariff, and Grover the courage to make that issue, is the of his convictions. [Applause,]

FUN IN THE HOUSE.

A LIVELY TILT BETWEEN FUNSION AND BUTTERWORTH.

McMillin Gl es Four Reasons Why the Rules of the House Were Changed -The Immigration Bill Passed-Discreditable Scenes in the House.

WASHINGTON, Feb. 25 .- In the House this morning McKinley, from the Committee on Rules, reported a resolution providing that to-morrow the House shall meet at 10 o'clock and shall immediately proceed to the consideration of the shipping bill, the general debate to close at 6 o'clock. Friday the House shall meet at 10 o'clock and proceed to the consideration of the bill by paragraphs, the previous question to be considered as ordered at 5 o'clock.

Blount protested against this method of doing business, but said that as a member the Committee on Rules he had agreed to the resolution with the view of getting as much debate as possible. It was the best the minority members could make out of the situa

McMillin took the same position. He then inveighed against the code of rules, and asserted that the prophecy he had made in the beginning of Congress had been verified. He had said that the rules had been adopted for four reasons: To pass an election bill which subjected the ballot box to the bayonet. That had been done. To pass a tariff bill that should rob the people. That had been done. To pass a direct tax bill. That had been done. To pass a bill placing further taxes upon the depressed and burdened interior for the benefit of the shipping interests. That was about to be done.

Mills protested against the resoluion, which he said was in a line with the policy of the majority. Let the gentlemen on the other side go on with the laws of the State. their measures. Let them pass Acts of Congress by proclamation instead of Let them make their special orders, and let the Democrats avail themselves of every moment of discussion to expose to the American people the wrongs which had been perpetrated on them.

Cannon said that the House could il spare two days, but he had yielded to the general desire that the shipping bill should be considered and he had acquiesced in the resolution. He gave notice, however, that if the order was made he would ask the House to sit to-night and to-morrow night for the consideration of appropriation bills What the gentlemen from Texas and Tennessee had said about the rules was chestnuty, and chestnuts had worms in them.

Rogers-"The people took some worms out of your chestnuts last fall." Cannon—"That is the 999th time you nave said that.'

Richardson of Tennessee-"Why not take the days for the appropriation bills and let the steal go on at right."

Cannon—"Oh! that is so cheap."

McKinley denied that the practice of making special orders had originated in half a million, who are loyal white-rib- this Congress. It had been practiced in in violation of the rule, and now it was done against the direct authority of the rules. The majority were responsible for public legislation, and it should be permitted to put its purposes into public law to be tried only before the great tribunal of the American people.

[Republican applause.]
"You have been tried;" "you have been weighed in the balance and found wanting," were some of the remarks that came in a chorus from the Democratic side.

McKinley-"I do not believe that there is a gentleman who has studied the causes that led to the verdict in November who can conscientiously declare that it was based on the work of this Congress.

"What was it?" queried the Demo McKinley-"The majority on this loor having only a few days more (derisive laughter on the Democratic side) -and all of us leave here with our seats well filled-we propose to go on and complete the work of the Fiftyfirst Congress, no matter what obstruc tion may be put in our way by the gentlemen on that side of the chamber.'

[Republican applause.] The resolution was then adopted

The House then went into committee of the whole on the agricultural appro-

priation bill. In the course of the general debate : controversy arose between Funston of Kansas, in charge of the bill, and Butterworth. The latter having made a remark which irritated Funston, he made an attack upon Butterwork, in which he alluded to the odice which Butterworth holds in the World's Fair Commission, and said that if that gen tleman, whose name was associated with the anti-option bill, had taken as much time to forwarding that measure as he had to drawing his salary as Secretary of the World's Fair, the measure would now have been passed a injured. A by stander named Hughes measure which would bring great reand a newsboy named Suchly were killed. Hef to the agriculturists. The members on both sides surrounded the two gentlemen and thoroughly enjoyed the controversy.

Funston was emphatic and vociferous in his utterances, but the merriment was so great that his words could He declined to yield to Butterworth, which led Rogers to warn him that he must either get out of the ring or let the gentleman from Ohio get over the ropes, while Spinola's contri-bution was "Break tway."

Butterworth in his reply paid his respects to Function, charging him, as hairman of the Committee on Agriculture, with neglecting the interests ly concerned about the anti-option bill. when a large number of others were A half-million farmers had asked the killed and wounded. He lived in Walk- gentleman over and ever again, as chairman of the committee, to get up and move the consideration of the bill Had he done it? [Cries of "No!"] Not SAN ANTONIO, Texas, Feb. 19.—Ex-Mayor W. R. Grace of New York, who rection, but had stood trembling like "The an aspen leaf under the frewn of the Cleveland, who was and is the greatest applause on the Democratic side. to the memory of the deceased, adjourned to meet at 8 o'clock this evening.

An Exciting Scone.

St. Louis, Feb. 23.- A special from Little Rock, Ark., says that a tremendous uproar occurred in the lower branch of the Legislature to-day during the discussion of the resolution ordering the arrest of ex-Treasurer Woodruff, White of Nevada offered a resolution on the subject "requesting the Governor to cause the apprehension, not only of Woodruff, but all other persons connected with him in the use of the State funds.

Otey of Lee County, chairman of the Judiciary committee made a strong argument in favor of the adoption of the resolution, in which he referred to the position taken by certain members in delaying measures intended to vindicate

Hon, Daniel A Jones of Pulaski, took offense at Otey's statement, saying they were aimed at him, but he exclaimed, pointing at Otey: 'II' the gentledirect that in this matter, or any other, proper motives I would not hesitate to say to him as Douglass said to Angus, J. S. C. BLACKBURN. Lord Augus thou hast lied."

Otey—"And I would say to the man who would make a charge of that kind igainst me that he is a coward."

"Then I say to you, sir, that you are a liar," yelled Jones. "Ar coward," exclaimed Otey. Several members sprang to their feet and in their attempt to gain the floor, the greatest confusion prevailed for several minutes which the Speaker had

great difficulty in suppressing. Another breeze was occasioned later on in the debate when Wimberly, a mutual friend, attempted to smooth the matter over by saying Otey had apologized. The latter sprung to his feet and vehemently denied that he had apologized. Jones had not placed him in a position where an apology could be expectedand he wanted the House to understand that he had made no apol-

Murdered For Money.

Cheraw, Feb. 20, News reached here last night of a most horrible murder committed near Society Hill last Monday. A Mr. Goodson, a prominent citizen of that community, owed a Mr. Griggs, who lived only a few miles distant, 8500. Mr. Goodson counted the money in the presence of a negro named Green, who had been in his employ for several years, and Mr. Goodson's daugh-ter started to carry the money to Mr Griggs. Before going far Miss Goodon was overtaken by the same negro Green, who cut her throat, took the five hundred dollars and threw her dead body in Black Creek, a stream dividing Darlington and Chesterfield counties. When Miss Goodson failed to return home at the proper time search was instituted, and yesterday her body was found in Black Creek. Suspicion was at once placed upothe negro Green. He was captured in Florence and brought here iast night. Green acknowledged killing Miss Goodson and surrendered \$160 of the money when captured. He is now

in Chesterfield jail. Polk Against Cleveland.

WASHINGTON, D. C., Feb. 19.-Col. L. L. Polk, president of the National Farmers' Alliance, who has just re-turned from a trip through the south and southwest, was asked his opinion as to Cleveland's chances in 1892. He considered that Cleveland's comage letter, whether so intended or not, came as a timely ally to monopolists in their berculean efforts to defeat the silver bill. Cleveland may, through correct manipulation of money and pot cal intrigue, be forced upon his party, but, on that point the alliance people are little concerned, for, if he be the nominee of any party, he will utterly fail in securing the votes of the 'industriat" organizations of the coun-No man will get ther votes for president of the United States unless he is in accord with them on the measares they seek to promote. To use a popular phrase, Mr. Cleveland has succeeded in placing himself on the top shelf of back numbers.

The Coosaw Opened to All. COLUMBIA, Feb. 18. The phosphate commission met to-day and ordered that the Coosaw river be opened to the general rights of mining. Heretofore this territory has been mined exclusivey by the Coosaw company, which obtained control of the river under a lease from another company whose charter expired in 1891. Subsequently the Coosaw company obtained legislative action recognizing them directly, and the ambiguous wording of the act may be the basis for the company to claim a more extended lease. board also passed a resolution ordering the royally to be increased above \$1 per ton, eginning six months from

ticulars have been received. The Southand three hundred people are homeless. Hatch of Missouri, after deploring Much distress prevails for the want of condition of the farmers of the food, clothing and shelter. The school

BLACKBURN ON CLEVELAND.

He thinks Cleveland's Letter Against Free Silver Has Ruined His Chances.

LOUISVILLE, KY., Feb. 23. In a re-

eah, Ky., Senator Blackbura says: "In the light of the publication of Cieveland's recent letter antagonizing his party on the silver question, I do not nomination for the Presidency, or who Cleveland in the world, but I am not and never will be in favor of the nomination of any man who is not in accord with our party upon the great is-sue upon which it is to be endorsed or reject-a I do not believe that any man can be elected President in 1892 who is opposed to free silver comage. The people have been tritled with long enough on this subject. The trath is York has never furnished a Democratic leader who has not been in thorough accord with Wall street and at variance with the masses of the people. This was as true of Tilden as it is true of Cleveland. I have longed to see the day when the Democrats might elect a President of this country without paying the tribute that New York at ways levied. I think that the time is at hand. I have no favorite candidate, but only insist that he shall be a fair and honest representative of Demoeratic sentiment. In my judgment in the light of the discussion existing among the New York Democrats it would be unwise to select any New York man. However we cannot tell what two months may produce. I am a party man, as you know, an I party candidate will be my candidate, but I both believe and trust that no nomination will be made in '92 of a man who upon vital issues antagonizes the sentiment of the overwindming pointing at Otey: 'If the gentle majority of the party. What I am and man from Lee will make the statement I always have been a pronounced silmy actions have been controlled by im-broner metives I would not begit to to

HOW DID IT GET THERE?

THE REPORTED DISCOVERY OF A KING'S TOMB OUT WEST.

cent letter to Colonel Nobles at Padu- To What People Did He Belong and When Did They Live- A Very Import-

CRITTENDEN, ARIZ., Feb. 25,believe there is a Democratic member While removing earth for the foundation of the Senate who would favor his of the new hotel to be erected by Harbelieves that it would be possible to elect him in 1892 if nominated No or- what seems to be the tomb of a king No or- what seems to be the tomb of a king, ganization is effected or attempted though of what people it would doubtout one opinion as to his lack of abili- less puzzle an antiquarian to say. The ty. I have no personal objection to workmen had penetrated at some eight feet below the surface of the ground what they took to be stone of a soft, iriable nature, which was evidently masonry of a very superior workmanship when they reached the tomb itself. This was composed of large square blocks of stone, which was identified as red or rose granite, and cemented together with such skill as to at first cause that for twenty-five years past New the whole, measure 12 by 15 feet, to appear as a solid mass. The opening of this, while very difficult, as the use of powder was problitted by Mr. Henricksen, who, as a learned archeologist, was placed in charge of the exhumation by the authorities, was accomplished by night, when the interest and curiosity of the party was so great that the work

was continued by iamplight till dawn. The tomb, when opened, was found to centain a gigantic image of a man lying at full length and made of clay mixed with a sort of preparation which gives a bright blue color and a slight elasticity, the whole appearing to have been subjected to great heat. The image represents the naked figure, except for a very tight girdle about the waist, a pair of close-titting sandals and a crown on the head shaped very much like a beshop's mitre, but topped with the head

of a lawk or eagle. The features are roughly moulded, of an imperious cast, and of a man in middle age, with a prominent nose and a very wide mouth, but with check bones so low as to preclude all idea that the original could have been an Indian. The hands, which are as small as a woman's, and bear on the backs the head of the bird, as on the crown, are crossed on the breast and hold an image about three inches long of a squatting figure, probably that of a god. The feet are State treasury, \$37,272,74 has been received by State Treasurer Bates. The peculiarity of possessing a sixth toe, which the sandal is cut to bring into year, from November 1, 1889 to October prominence, as if the owner had prided himself on it. The bair of the image is missioner Butler, was \$42,169,85. So dressed in thick curls on both sides of that it is seen that the collections for the head, reaching to the shoulders, and

Careful examination of this clay figure revealed that it was merely the elaborate codin of the real body and could be opened from the back. This was done with care so as not to disturb the remains fort now adopted for the detection and within, but a few handfuls of dust, dark punishment of the parties who have brown and almost impalpable powder, is been seeking to evade the payment of all that was left of the body. The crown, however, together with the girdle, the image of the god, and a large battle axe with a blade of sharp glass or obsidian, and a handle of petrified

wood were found in the coffin. The crown is of thick red gold, carved marches and other pictures, the meaning of which is somewhat misty, but in all the principal figure is that of a man terpiece worthy of Cellini. It holds in

The girdle found is composed of plates of gold arranged like scales and very thin, so as to give with every movement of the wearer's body. On each of these plates, which is in shape a half eclipse, conveying, however, no hint of their meaning in their form. The image of proprietor of the marble works, lost his what is presumably a god is made of clay combined with the preparation spoken of before, and also burnt till thoroughly hardened. It represents a male being scated on a pedestal in a squatting posture, its eyes squatting and granning in hideous mirth, while both hands are over the ears as if to shut out sound.

A peculiar thing about this image is that its hair is represented as hanging down its back in one long plat like a Chinaman's. The figure is bollow, but contained only a balf dozen small black pebbles slightly polished and a somewhat larger stone of a dull gray hue. The cottin and these relics are now on exhibition at the court house and are to but it is probable that it was one antedating the Aztlan and even the mound

knowledge of masoury, sculpture and the working of metal. To rible Mine Explosion. An explosion took place in the West ide of East St. Lope this afternoon.

side of Already live dead bodies have been taken out. The rescuing party is now working hard for the purpose of restoring the ventilation in the mine. It is teared that a great many miners have been killed, but thus far it has been impossible to reach more than the bodies of five. It is thought that fully thirty men and boys are still in the mine Among the missing is Manager Swift, who has not been seen since the explosion. The loss of life caused by the explosion is appalling. It is now feared that men and boys are dead.

Horrible, if True.

MARSEILLES, Feb. 25.—The captain of a steamship which arrived here from Madagascar reports that as a result of a revolt upon the part of the natives, the governor of Nossibee, an island and
