DR. TALMAGE PORTRAYS THE AD VANTAGES OF THE CHRISTIAN.

Our Pleasures Less-God Will Withhold the great oratorio of the ages! No Good Thing from Those Who Love Him-The Infinite Father.

LONDON, July 17.-Dr. Talmage's preaching tour in England has been a continued series of unprecedented successes. The English people have assembled by thousands to hear the American preacher wherever he has preached. In Manchester the great Free Trade hall was engaged for him. It holds 7,000 persons, but it would not contain a third of the people who tried to get m. The streets leading to the hall where jammed with a dense surging mass of humanity. After the service Dr. Talmage preached in the street to the crowd, which numberedfully 15,000. The sermon selected for this week is entitled "Our Possessions," from I Counthians iii, 22, "All are yours."

The Impression is abroad that religion puts a man on short allowance; that when the ship sailing heavenward comes to the shining whart it will be found out that all the passengers had the hardest kind of sea fare; that the soldiers in Christ's army march most of the time with an empty baversack. In a word, that only those people have a good time in this world who take upon themselves no religious obligation.

I want today to find out whether this is so, and I am going to take account of stock; I am going to show what are the Christian's liabilities, and what is his income, and what are his warrantee deeds, and what are his bonds and move. gages, and I shall find out before I finish just how much he is worth, and I shall spread before you the balance sheet in time to warn you all against the religion of Jesus Chist it indeed it be a failure, and in time for you all to accept it it mdeed it be a success. I turn first to the assets, and I find there what seems to be a roll of government: securities -- the the pessessor. The three small words Who

of pack and mansion is in the right of sharp curves in life. the Christian-the flowers, the dia-

search titles, and the chent who thinks thing right for three or four or five years sion of the property; so he finds out that the man who supposed he ownedit owns not an acre of the ground, while some body else has the full right to the entire estate. Now, I examine the title to all earthly possessions. I go back a little way, and I find that men of the world bad men, seltish men, wicked men think they have a right to all these possessions; but I go farther back, and I trace the title from year to year, and from century to century, until I find the whole right vested in God. Now to whom did he give it? To his own children! "All are yours."

The simple fact is that in the dast days of the world all the architecture. all the cities, all the villages will be in the possession of the church of Clair "The meek shall inherit the earth, Ships of Tarshish shall bring present-"The earth is the Lord's and the fullness thereof." "All are yours." But. you say, "what satisfaction is there in | that when I haven't possession of them:" These things will come before the Sa- lee with thee," preme Judge of the Universe, and he these squatters upon the property that does not belong to them, and it shall be found that "All are yours,"

So again. the refinements of life are as good apparel, as beautiful adorn- her ments, to as commodants a residence as | There is a vessel that goes along the world they have privileges, they have ! glittering spheres, they have belitting apparel that are denied the Christian. There is no one who has so much a right to laugh, none so much a right to everything that is beautiful and grand and sublime in life as the Christian. "All are yours." Can it be possible that one whole universe, are denied?

So I remark that all the sweet sounds | holes. of the world are in the Christian's right. There are people who have an idea that | having an easy time. It seems to them instruments of music are inappropriate instruments of music are inappropriate smooth sailing all the way. When for the Christian's parlor. When did the house of sm or bacchanai get the right to music? They have no right to music? They have no right to there. But those Christians who have it. God, in my text, makes over to Christian people all the pianos, all the pianos, all the barps, all the drums, all the cornets, all storm to the left of them, storm all the the flutes, all the organs. People of way—when they come up the harbor of the world may borrow them, but they heaven all the redeemed will turn out dustry has sustained a heavy loss, and primary of the party, even though the or title to them. So all artistic and literary advantages are in the Christian's right. I do not care on whose wall the picture hangs or on whose pedestal the sculpture stands, t belongs to Christians. The Bierstadts and the churches are all working for us. "All are yours." The Luxembourgs, the Louvre, all the galleries of Naples and Rome and Venice-they are all to come into the possession of the church of Jesus Christ. We may not now have them on our walls, but the time will come when the writ of ejectment will be served and the church will possess everything. All parks, all fishponds, all colors, all harvests-all, "all are yours."

Secondly, I remark that the right to full temporal support is in the Christian's name. It is a great affair to feed the world. Just think of the fact that this morning sixteen hundred millions of our race breakfasted at God's table. The commissary department of a bundred thousand men in an army will engage scores of people; but just think of a commissary department of a world! Think of the gathering up from the rice swamps, and the tea fields and the orchards, and the fisheries? No one but God could tell how many bushels it would take to feed five continents.

Then to clothe all these people -- how many furs must be captured, and how much tlax broken, and how much cotton picked. Bust think of the infinite wardrobe where sixteen hundred millions of projde get their clothes! God spreads table first of all for his children. Of use that would be a very selfish man the would not allow other people to me and sit at his table sometimes, but st of all the right is given to-Christian sple, and therefore it is extreme folly them ever to fret about tood or cai-

The rioters threatened to take full possession of the city and not been for the opportune arrival of troops which had been summoned. You are no dubt aware that these clauses are constructed differently in different counties, and this is a sufficient reason for a more explicit declaration from the State

committee. You also state that the "question of appointing more than three managers to conduct the primary election" will also be considered at the meeting of the State Democratic Committee, and I have no doubt that it will be considered in that fair and impartial spirit, which be longs appropriately to the body, which is the executive organ of the entire Democracy of the State, and not of any

You consider that only Democrate who are aggrieved, or who represent a grievence, should have audience of the State Democratic Committee. You also assert that the State Democratic Committee is competent to exercise its delicate and impartant functions "without interference or sugges-tion from any one;" and add, "We are not disposed to convert the State Demcratic Executive Committee into a debating society for questions of imaginary grievances.' This pretenson of exclusiveness and

infallibillity would ordinarily be remarkable as the utterance of a De nocrat; but this is a "record-breaking" time. I call your attention to the fact that the matters in question arise from some of your personal utterances in the capacity of Chairman, and I can hardly imagine that you assert for yourself the right to commit the State Democratic Committee to the position you have indicated, or that you mean to declare that you are the master and not the servant of the Democracy of the State. We would free you from the embarrassments of such a position by declaring that in acknowledging your legitimate authority as State Chairman and the jurisdiction of the State Democratic Committee, we claim it as our right to address yourself as Chairman, or the State Democratic Committee at any time, upon party matters which concern us as Democrats, and to present our views upon such questions; and we teel assured that while howling down" may suppress free speech from the stump, such a course will not be imitated by the State Democratic Committee when considering mat-State Chairman desire such suppression

The letter of the 4th inst. was sent by me as chairman of the executive committee of the Conservative Democracy of South Carolina, and as such I accept your notice of the meeting of the State Democratic committee on the 26th inst., and will inform my colleagues.

Washington, July 14 .- The census office today issued a bulletin on the subject of the colored population of the United States in 1890. The bulletin shows that the total colored population, as returned under the census of 1890, is 7,638,360. Of this number 7,470,040 are have. persons of African descent, 107,475 are Chinese, 2,039 are Japanese and 58,806 are civilized Indians. Considering perons of African descent, it is seen that

13.51 per cent. as against an increas during the decade from 1870 to 1880 of 1,700,784, or 34.85 per cent. The bulle tin says: The abnormal increase of the colored population of the south during the decade ending in 1880, led to the popular belief that the negroes were increasing at a much greater rate than the white population. The strikers are convinced that by night fall men will be put to work in the mill under protection of the military. They are watching all Pittsburg, Braddock and Homestead stations closely. About ten men got off at the Baltimore and Ohio Station across the river this morning and announced that they were going to apply for work. They were persuaded to go back to Pittsburg. The men are more subdued than during the early part of the week, and do not threaten to enter the works and drive off the nonumonists notwithstanding military, as they did before. It is now thought they will wait until the militia leave. The strikers have received a resolution of sympathy from the Polishers Lodge at

Immense streams of lava are pouring down the mountain side and it appears certain that several village and a number of dwellings in the paths of the lava seem destined to be destroyed. All the craters are active. One is ejecting a continuous stream of lava several yards deep and very wide. This stream presents the appearance of a river of fire and is very beautiful to look at, though it is bound to ruin much property. Another of the craters is hurling large incandescent rocks to an immense height, while the edges of a third crater are threatening to crumble. The statement made a few days ago that the last eruption of Mount Etna occurred in 1868 erroneous. There was an eruption in that year, but there have been five erup tions since—in 1869, 1874, 1879, 1883 and
