The city, just now, is getting into the rush of the fall business. Broadway is a perfect jam from 8 o'clock in the morning until 10 o'clock at night. I had to wait fully ten minutes yesterday to cross a street running into that great thoroughfare-hacks, street-cars, drays, cabs, wagons, carriages and buggies, and men with hand-carts, all tangled, apparently in inextricable confusion, blockaded and at a stand still. After a while the living stream finds vent, and moves on again in its rushing torrent. There goes up from these mortal horin a kind of ghastly unison, one dolorous litany of warning and appeal to the people of the whole country against a universal peril and a national shame. EL VINO CATALINA.

The announcement that has been so generally heralded throughout the country that an American company has again commenced importing this celebrated Wine Tonia is a matter of no small importance, and will be hailed with joy by all those seeking a pure and invigorating tonic; also, those who need a pure, pleasant and refreshing stimulant will find in the El Vino Catalina, or Brown's Catalina Wine Tonic, what they want. It will be remembered that importations were made in 1868 of this noted brand, but in consequence of the high duty then demanded by this government, the enterprise ceased, to the regret of thousands who had learned its value. It is the oldest tonic in the world, and doubtless the most invig rating, the purest and best, and if importation continues at the rates now started, it will take its place in every family in this as well as in the old countries. Its merits will make it a household article, and we hope that every one who has ever used any Bitters or common patent tonic, will at least try one bottle of the Catelina, and then decide for them salves whether they will use this tonic, prepared from the pure juice of the Catalina grape, with Calisaya and the spices of Ceylon, or a bitters made of common whiskey and bitter field herbs. This is an invaluable preparation for weakness and debility; it relieves morning languor and gives freshness and appetite, not followed by an unpleasant reaction.

It cures Dyspepsia, Indigestion, Costiveness, Bilious Derangements, Cramp Colic, Flatulence, Diarrhoa, Dysentery Nausea, Vomiting, Morn ing Sickness, Chills and Fevers, Headache, Nervous Irritability, Anmuia, Heart Disease, Diseases of the Kidneys and Bladder, Diseases of the Skin, and all Eruptions, ei ther caused by other diseases or impurity of the Blood. As a Tonic in Consumption, it has no superlor of which thousands believe themselves to have been cured by its use. We do not claim that it will cure Consumption, but we are sure that it will prevent it if taken in time.
