More than three Hundred Confessions in York-Brutality of the soldiers at Union.

The Yorkville Enguirer of the 10th in the last issue of the Spartan: has the following:

The Ku-klux Prisoners. It is now three weeks since the United States authorities commenced mafourth Monday of this month. This delay is mainly attributable to the fact. as we learn, that the time of the offitary confessions of members of the ku-klux organization, for whose arrest no orders have been issued. The headorders have been issued The headmore than three hundred have made alluded to last week.

Of the names heretofore published. J. C. Chambers, J. N. McDill, and D. M. Stewart, have been released from confinement in prison. The total number of arrests made since the 19th ultimo is 145, of whom 107 are now in prison; 97 white men and 1 negro being confined to the jail, and ten negroes in the guard house.

The jail building is, of course, very much crowded with this number of men closely confined within its rooms; but we believe every possible means is adopted to ensure the sanatory condition rades in arms was experienced at Col. won the race in fifty-three seconds, t of the prisoners, and to render their situation as comfortable as circumstances will permit. Cuptain Ogden, of the Eighteenth infantry, who has charge of the prison, is assiduous in his efforts to attain this object; and he and the constantly applying for permission to visit those in confinement.

From the Chester Reporter of the 10th, we take the following in regard to the outrages of Grant's soldiers in Union county:

Outrage in Union County. Several days ago a series of outrages were perpetrated, upon some of the most | Walker. respectable citizens of Union, by the

troops stationed at that point. A number of the business men were placed it "durance vile" on the charge of being members of the Ku Klux .-After locking them up, and threatening them with death on the morrow, their captors then proceeded to the homes of their prisoners and under the plea of searching for the identical men that were already incarcerated, they then entered the most private apartments of the ladies making sad baroc among fine dresses and toilet articles .-Of course theft was committed, insults and indecent language prevailed. After volunteering to the ladies the infor mation, that, "in the morning their relatives would suffer death," they departed One of the ladies lost a fine gold watch and chain. This has not yet

been recovered. On the morning following the night of their arrest, the commandant of the post dismissed the prisoners, as there was no charge brought against them then. While these arrests were being made, the troops (a United States Marshal was in the company) made threats pediency of certain action in regard to frequently, that it resistance were made the so-called Ku Kluz Klaus, respectthey would lay the town in ashes.

Now comes the strange part of the transaction. After the release of the jects of this ussociation, which are all prisoners, the authorities stated that it was "only a dranken spree." A notice vation in our printed constitutions, the was sent to the publisher of the Union- committee deem any action of this body ville Times, to the effect, that if he dared publish anything in regard to the But, inasmuch as it has been charged affir, they would fire the town and upon us that we have participated in or

We understand that the town counsel have since taken the affair in hand -An investigation has been zone into, and the evidence, (duly sworn to.) printed in pamphlet form. We also learn that copies of this pamphlet have been for warded to Attorney General Akerman

and District Attorney D. T. Corbin. We conceive it to be the duty of the press to keep the public well informed dall passing events. We be ieve this to be a horrible truth, as the source from which we obtained our information is reliable, and when speaking of it knew nothing of our connection with the press It has been corroborated by another gentleman who was in Union at the

time of the action. Will the Attorney General exercise the same vigilance in bringing these truly "night riders" to justice, that he has exhibited in crushing Ku Kinx ism? Or will be and his assistant Dis trict Attorney Curbin, lightly pass it over
