APRIL 4 .- The House merely met at 11 o'clock, and the question of admission to the galleries was considered. The abolition of the ticket system meets with opposition. Mr. Conness said rebellion was as rife as ever in Washington, and free admission was dangerous The question was postponed.

The Senate went into executive session to remove secrecy from executive documents which the impeachment managers wanted.

Impeachment was resumed. Reporters were examined relative to the President's 18t. Louis speech, and a copy admitted as evidence. Mr. Chew, chief clerk of the State Department, was examined relative to the President's having conformed to the Tenure-of-office act.

A letter from the President to the Secretary of the Treasury, advising him of Stanton's removal, in conformity with the Tenure-of-office act, was admitted.

The correspondence between President Adams and Mr. Pickering, and Adams' mes sage to the Senate announcing Pickering's suspension, in 1800, were admitted.

The Negro Constitution.

We copy the following on this subject from Charleston Mercury:

They call this thing, begotten in illegitimacy a constitution, and have the impudence to ask white men to vote for it. A like combination the pages of time.

of folly, fraud and licentiousness was never before submitted to the judgment of a civilized people. They propose to inaugurate a govern-ment on a triangular foundation of ignorance, repudiation and miscogenation. The political power of the Stat is to be thrown into the hands of the unedscated and depraved. Bona fide sales are to be repudiated, debts denied, and property stolen is to be property lost. White children, boys and girls, are to be huddled together in the school room with young negroes, and there is to be no law against the intermarriage of whites and blacks. The consequences of the adoption and enforcement of such a constitution are inevitable. All the negroes having the power to vote, while many will buy, when their betters are sold out for of the white men are disfranchised, the negroes can put whom they please in office, and there can be no doubt that their choice will fall on those of their own race. It is true that the convention. to avoid offending the prejudices of white Radicals at the North, has nominated only white men to Congress and to the principal State offices, but when it comes to the local offices it will be quite another affair. It is not to be supposed that the white Radicals can humbug the negroes into giving all of them offices, and even it they did, their number is so small that every white Radical in the State might have an office, and yet there be many places left to be filled by negroes. There will be negro legislators, negro sheriffs, negro constables: negro tax collectors, negro ordinaries, negro judges, negro mayors, negro aldermen, negro police. In short every petty office in the State will be filled by negroes. And it last great effort for the maintainance of our is just in those offices, that they will come most in collision with the white people. A negro Congressman, a negro Governor, a negro legislator may be only a good subject as ridicule, but a negro judge to decree away life or property, a negro policeman with a club in his hand; and a negro mayor, with the power of fine and imprisonment, are much more serious affairs. We mistake the character and temper of our white population, if they will long submit with patience to the annoyances, insults, and oppressions to which these things will give rise. In regard to education, most white people will keep their children from the public schools, but white people too poor to have their children educated otherwise are to be compelled to send them to the public schools. Will the poor white men of this State submit to such compulsion? No indeed. The adoption of this constitution and the attempt to enforce it, will produce evil, and may end in anarchy.

THE ORANGEBURG NEWS.

SATURDAY, APRIL 11, 1868.

While we reserve to ourselves the right of defining our own political position by means of our editorial columns, we will be pleased to publish contributions from our fellow-citizens upon the grave questions which now agitate the public mind, whether their opinions coincide with ours or not. A district newspaper, we consider, should be an index of the various shades of popular sentiment in the section of country in which it circulates. Our columns are open, therefore, for any communications properly written, accompanied by a responsible name, not personal in their character, nor absolutely injurious in their

The Policy of the Hour.

has its own policy. In our last issue, we advised inaction as the best course: but we did not anticipate at that time, such an uprising of many good men of the State, to make a desperate effort against the iniquitous burden attempted to be now thrust upon us. We believe, that when the hour of conflict comes, none ought to be neutral; and if a part of the true citizens of our State will go to the polls, let us all go together, for weal or wo! Our interests are indentical: let us be united, as one

And if we go into the struggle, let us go with all our might. Let the planter leave his plough in the furrow, and ballot against tyranny. Let private interests disappear for the time, when this great danger threatens our State. We give you in this issue the ticket nominated by the Democratic Convention of last week in Columbia: on Monday, a mass meeting of all Conservative citizens will be held during the recess of Court, to add a District Ticket, and let us not only vote it ourselves, but urge upon the freedmen the necessity of joining us, in opposing the inauguration of a system of government that will ruin both white and black. The time has come. when the farce coases to be comic. It has come to this, that every freedman who votes ness under it, announces himself the open onemy of the white men of the country, Call it what you will, disguise it as you will, this is the naked truth. Let every white man who falters, he remembered: let every one who votes with the enemics of his race, be condemned to social ostrapism, Let every negro friends at home, or by designing scoundrels from abroad. Should be choose the former, gur country may resume a position of prosperity under a form of government salutary for both races; should be elect the latter alternative, the history of the red man, his nobler

the villainous devices of this Negro Constitution. But we have not: yet in one particular, we cannot forbear. We refer to the clause neerning a homestead. This is a bid for popularity : but it is a sham, a deceitful political trick. We say to you unhesitatingly, ye men of heavy debts and broken fortunes, no foot of land will that homestead clause ever secure to you or you families. It will not apply to any debt now existing. Its meaning is this. The new legislature will impose heavy taxes on land, and those who are now landless, such taxes. When these have obtained lands and settled on them all over the country, then this homestead law will root them to the soil, so that nothing can move them. That is the whole substance of this much talked of home stead clause: and we trust no man with three grains of sense, will allow himself to be humbugged by it. Its result will be the most odious instance of "squatter sovereignty" ever heard of, if it is successfully carried out-

If we have, therefore, any sparks of patriot ism in our breasts, let us show it now. If we hope, let us encourage others: if we despair let desperation itself inspire us to "die hard." Let every man, young and old, go to the ballot box with one spirit, resolved to make a dearest rights. Let the employer gather his employees about him, as the Highland chieftain in days of old, marshalled his clansmet for the fray; and placing in their hands the ballot, let him lead them to the polls to nut down this vile, this odious piece of tyranny TO THE POLLS! TO THE POLLS!

If your employee thinks you are trying to deceive him, when you tell him what is his duty, it is better for you that the contract terminate. If he will not trust you, can he expect you to assist him?

Randolph's Scrape!

THE REVEREND IN THE BURNT DISTRICT.

From the Charleston Mercury of the 3rd. A REVEREND RINGED-STREAKED, 18 AR-RESTED FOR IMPROPER CONDUCT, RESISTS THE POLICE AND OFFERS ONE HUNDRED DOLLARS TO BE LET OFF .- Last night, about 10 o'clock, Rev. (?) B. F. Randolph, the saddle coloured delegate, to the great ringed-streaked district, being taken in conduct contra bonos mores. He at first resisted the police, but offered a bribe of one hundred dollars, to be let off, without being carried to the guardhouse forfeit that small amount,

From the Charleston Mercury of the 4th.

THE REPRESENTATIVE FROM THE BURNT DISTRICT,-Quite a crowd of negroes collected around the guardhouse, yesterday morning, anxious to witness the examination of the case of B. F. Randolph, by the Mayor. They waited some time, but Colonel Cogswell held no court. While the crowd was waiting, the following conversation occurred:

Inquiring Negro.—But hi, aint he de nigger what run for de Senate, from Orangeburg Dis-

Witty Negro.-Mebbe'e is, but 'e wunt re present Orangebuag District no more now. He represent de burnt district.

From the Charleston News, 6th.

MAYOR'S COURT .- There was a protracted ession of this court on Saturday, in consequence of the two days' docket. A number of es were tried, but they were of no special significance, if we except that of the Rev. B. F. Randolph, (colored), who was found wandering from the path of rectitude in the burnt district. His name was called, but no response being heard, the \$30 deposited as his security was declared forfeited.

From the Mercury of the 7th.

THE REPRESENTATIVE FROM THE BURNT DISTRICT AGAIN .- The following extract from a letter addressed to us by a gentleman of undoubted responsibility, speaks for itself, and shows that the coloured reverend alluded to in the caption of this article has broken two successive provisions of the decalogue,

"The Rev. Randolph purchased Sires place, which is near that of Dr. Emanuel Witsell, not far from Parker's Ferry, on gradit, some eighteen months or two years ago. Randolph wanting some corn, and Dr. Witsell having a grist mill, he went over to purchase, but without money. The doctor refused to sell on those terms, but gave Randolph a bushel of corn, which the reverend gentleman accepted, and hog. After gathering sufficient evidence to - Murfreesborg' Monitor,

We wish we had time and space to show off convict him, Dr. Witsell went after Randolph' but he had decamped, leaving his new purchase unpaid for Bires re-possessed himself of his property, and nothing more was heard of Randolph until he turned up as a law-maker."

> From the Charleston Mercury of the 8th THE REPRESENTATIVE FROM THE BURNT DISTRICT.-We have recived private information from Orangeburg that Rev. B. F. Randolph, coloured, is now in that district making speeches to the negroes in which he asserts that he is not the person who behaved so scandalously in this city last week, but that it was another negro of the same name. He says that the reports in this paper are only an effort of the rebels to injure his chance for the legislature. We sincerely hope that the Orange burg News will not allow the negroes of its district to be swindled in that way, but will keep the identity of Randolph and the story of his crimes promptly before their eyes.

The Ku Klux Klan.

Associations bearing the above name have been established in Tennessee, and have extended themselves rapidly throughout that State, and also into Virginia. It is a secret association, organized by intelligent and lawabiding citizens, whose object is thus stated by the Memphis Gazette: "Those who in many instances have suffered from depredations at the hands of active members of loyal Leagues have, as we are advised, organized an antagonistic society solely for the purpose of protecting persons and property. Such is the design of these clubs as represented by gentlemen from Nashville. All this vague alarm manifested by certain carpet-bag adventurers and officeholders, who came hither simply to plunder and impoverish people, will hardly suffer at the hands of the "Kuklux." - General Thomas. if the association is properly represented, em ploys detectives in vain. There will be no violation of law by the Kukluz, and others who attempt wrongful acts may find a power interposing its authority which is only terrible to Columbia Convention, was, on motion, invited thieves and wrongdoers. 'It is said, with what degree of truthfulness others must determine. that the "Kuklux" constitute already a powerful organization iu this country."

The following, says the Richmond Dispatch, is a copy of one the numerous orders sent on Friday to the adherents of the Ku Klux

Organization of a Democratic Club.

On Monday last, at the close of the Sheriffs and Commissioner's sales, a large and enthusiastic meeting of the citizens of both Orange and St. Matthews' Parishes, was held, at the Masonic Hall for the purpose of organizing a District Democratic Club.

On motion Colonel A. D. Frederick was called to the Chair, and Mr Virgil C. Dibble was requested to act as Secretary.

Mr. Keith Legare, having been called upon to do so, in an impressive address explained the object of the meeting, and urged the no cessity of unity of action on the part of the whites, which could only be obtained by organization.-He stated that on the success of the Democratic Party rested the only hope of the South, and contended that we should encourage and strengthen them by our spen and active co-operation with them in their battle with the Monster Radicalism. He animad. verted on the "masterly inactivity" policy popular with many, and said that our hitherto passive demeanor had been misconstrued by the regroes into our evidence of submission to heir political elevation. He pictured graphically the evils which would grow out of continued inaction in the part of the whites, and the benefit which would result from organization and determined and co-operative, action. The Address of which the above is an imperfect and meager synopsis was listened to with interested attention, and carried conviction to the minds of all present.

At its clere, Captain F. M. Wannamaker, who had been present as a delegate at the to report to the reeting the proceedings of that body. He did so, and before concluding stated that though he had been opposed to the policy adopted, he yet now endorsed it from motives of expediency, as he thought that unity of action was, in the present crisis, of paramount importance.

At the close of Captain Wannamaker's address it was on motion of Captain W. W. Legare unanimously-

The Committee on Nominations having re turned suggested the following gentlemen permanent officers of the Club; viz:

After some discussion the following resolution was unanimously carried:
