ORANGEBURG, October 3, 1868.

MR. EDITOR : This has been a glorious day for the Democracy of this District. Early morn came and with it the drizzling rain yeomanry of the District, accompanied by their wives, daughters, sisters and loves. The harder it rained the more determined did they appear to waive triumphantly the beautiful banners of Democracy.

During the first two hours of the speaking two white villians, and probably the hyena Randolph, called about three hundred negroes in the streets an' attempted to deafen the audience by their hideous shricks. But as they would not be noticed the leaders shouted themselves hoarse and the poor deluded negroes slunked away in disgust. What a pity R. K. D. WYATT AIKEN.

The New York Journal of Commerce a highly temperate and able paper, holds the following opinions on the subject of negro suffrage:

"No law in creation can fix negro suffrage into a permanency. It is but an experiment. If it works well, contrary to the experience of mankind up to this date, it will remain incorporated in the constitutions of the Southern States. If it proves to be a lamentable failure, degrading in its effect upon whites and blacks alike, the sturdy good sense of the Saxon race will throw it off, like any other fetter which hinders its progress. No law of Congress, no Constitution of any State, no amendment to the Constitution of the United States, is unrepeal ble. Congress has already shown to mankind with what facility the most sacred charters, the most solemn compacts, may be rent to pieces, when party interests require it. At some time not far distant, perhaps, the Conservatives may have the supreme power, as the Radicals now have it. It will be their duty to revise and correct errors of Radical legislation. One of the first questions that will come before them will be that of the repeal of all negro suffrage enactments and provisos. Unqualified negro suffrage will then have been tried upon its merits, on the large scale. If, on the whole, it is a good thing, it will not be molested. But if it is a clearly apparent evil and nuisance, nothing

Mr. President, Ladies and Gentlemen: My friends and fellow-citizens, it requires many mames to convey the feelings which throb my breast, and to express the sentiments which place where my childhood was moulded.
