chart it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends; and all know that it cures their neighbors and friends; and all know that what it does once it does always—that it never fails through any full or negget of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are Inown in every neighborhood, and we need not publish them. Adapted to allages and conditions in altellmates; couttaining neither calomei nor any deleterious drug, they may be taken with safety by any body. Their sugar coating preserves them ever fresh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and sthulate it into healthy action—remove the obstructions of the isomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, whorever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrap-per on the box, for the following complaints, which these Pills rapidly cure:—
