All Advertisements must be handed to the Business Manager before Thursday Noon.

ANNOUNCEMENT.

MR. EDITOR—Please announce D. A. PORTER as a Candidate for Sheriff at the next Election and oblige his many friends in the FORK.

THE NEWS HAS THE LARGEST CIRCULATION IN THE COUNTY

Last Thursday evening a dwelling house owned by Mr. D. Louis, and occupied by Mr. John Riley, about two miles from Orangeburg, in the Edisto Fork, was destroyed by fire. The fire, we are informed, was accidental.

A meeting of the Trustees of the South Carolina Agricultural College and Mechanics' Institute will be held at Orangeburg, on the 28th instant. The Trustees of Claflin University will also meet at the same time.

The Express Office will hereafter be in the store of Capt. John A. Hamilton. The locality is far more convenient for our business men than has been the case heretofore. No better appointment could have been made than that of Capt. H., to this responsible Agency.

The winter term of Claflin University closed last Wednesday. The evening of that day was devoted to a public exhibition and examination. We are informed that the proceedings indicated a very creditable degree of proficiency on the part of the pupils.

Our neighbor calls the News a rare, sui generis, avis.

We regret deeply to be obliged to reply that the News is a Kreuzschoksch-bwernothheiligesdonnerwetterbombenundgranadenconstaninopolitanischerdund-lackpfeilgeresell!

The following persons have been appointed trustees of the "State Agricultural College and Mechanics' Institute," located at this place. Judge A. J. Willard, Columbia; J. J. Wright, Beaufort; Hon. John Wilson, Anderson; W. D. Harris, Columbia; Gilbert Pillsbury, Charleston; Benjamin Byas, Orangeburg; R. J. Donaldson, Cheraw; C. W. Wilder, Columbia; H. W. Duncan, Spartanburg.

The Elliotts are vigorously at work on their project for building a Truck house. A building of the character they propose would supply a want which has long been felt in our community, and which is becoming more and more pressing with the rapid growth of the Town. We have no public room here large enough for the purposes of an exhibition, a lecture, or anything of the kind. The Elliotts intend to supply this want, and to meet, also, the equally pressing necessity for a Town Hall. We cordially commend their subscription list to the favorable action of our public spirited citizens.

We have heard the same "rumors in the streets" of a forgery on the County Treasury of which our neighbor spoke last week; and have applied to the Treasurer for information on the subject. He desires us to say that he knows of no facts supporting those rumors, and that his office, books, accounts and vouchers are freely open for public inspection.

He requests us further to say that on the 1st Tuesday of April proximo he will make his annual settlement with the County Auditor for all moneys collected and disbursed by him in State and County accounts during the current year, on which occasion it is his particular desire that all parties interested shall attend.

A WORD ABOUT PROOF READING.

Every column of a newspaper contains from ten to twenty thousand distinct pieces of metal, according to the size of the paper and type. The displacement of a single one makes an error. Is it any wonder that errors occur? In the large offices professional proof readers are kept, whose practiced eyes, passing twice over every line of proof, detect most of the errors; a boy, also kept for that purpose, at the same time reading the copy aloud. Still mistakes are frequently

occurring, after coming from such hands, and probably no newspaper or book ever was yet published without errors that might be detected by the merest novice. In book printing it is estimated that proof-reading costs half as much as composition. In country offices, the editor has generally to be his own foreman, printer, book-keeper and almost everything else, and if the same care had to be exercised that is deemed indispensable on the best city sheets, the country paper could not be published at all, because of the expense—Printing Gazette.

VENETIAN BLINDS.—No invention was ever so important to the people of hot climates as the Venetian blind. Admitting the air and a shaded light, while keeping out the heat and glare, they are absolutely essential to comfort in this country. If the houses of any of our readers are destitute of these valuable contrivances, they should at once, before the hot weather sets in, send their orders to Mr. P. P. TOALE, No. 20 Hayne street, Charleston, S. C., manufacturer and dealer in doors, sashes, blinds, balusters mouldings, &c., &c.

A SAD FALLING OUT.—It is indeed a sad falling out when, after years of the closest intimacy, the hair parts company with the head. Fortunately the lamentable separation may be easily prevented and the twain more closely united than ever by a timely and systematic use of LYON'S KATHAIRON, the most potent invigorant of the hair and promoter of its growth and beauty known to modern pharmacy. It completely obviates the dry and parched condition of the roots of the hair, which is preliminary to its coming out, by supplying the precise degree of moisture requisite to its preservation in a healthy state. It is the only true dissolvent and evaporant of dandruff and other impurities of the scalp whose presence is injurious to the hair. As a beautifier of the head the Kathairon has no equal. It not only increases the quantity of the hair, but improves its quality immediately, imparting a lustrous appearance and silky texture which are exceedingly attractive.

SUICIDE COMMITTED.—As the result of an inactive state of liver and stomach producing headache, obtuse intellect, dullness, despondency, and finally insanity, is no uncommon occurrence. All these disagreeable symptoms and bad feelings are most certainly dispelled by the use of Dr. Pierce's Golden Medical Discovery. It revitalizes and builds up the whole system. A little book on Chronic Diseases sent free. Address R. V. Pierce, M. D., Buffalo, N. Y. Golden Medical Discovery sold by all druggists.

COMMERCIAL.
