FRIENDS AND VOTERS.

#### THE NEWS HAS THE LARGEST CIRCULATION IN THE COUNTY.

Dr. J. A. Keller will accept our thanks for a jar of fresh strawberries. They were simply, absolutely delicious.

THANKS.—We are indebted to the Hon. H. B. Elliott, member of Congress from the 3d Congressional District, for a copy of the United States Census Report, 1870.

We beg leave to call the attention of our readers to the advertisement of Mr. W. T. Lightfoot in another column. Mr. L. is a live business man and is prepared to furnish housekeepers with a choice lot of fresh family articles. Give him a call.

**THE SOUTHERN CULTIVATOR.**—The May number of this magazine puts in a pleasant, readable appearance this week. It is full to the brim with food for the Farmer, the gardener, the housewife, and the fire-side. Send \$2 to W. & W. L. Jones, Athens, Ga., and you will have a good return money to some good end.

The latest Carolinian for May, is prompt, to the last and on our table, filled as usual with matters of interest and profit to the Farmer and planter. This is without doubt, a valuable and interesting agricultural journal, and all those who do not take it should do so at once. Published by Walker, Evans & Co., of Charleston, S. C., at \$2 per annum.

**HARVEY.**—John Robinson has opened a barber shop over Briggman's store. We are glad to know it. If there is one thing on earth that we like better than anything else—except some few other things—it is to have our head rubbed by deft, soothing, insinuating fingers—to dream and doze away in a barber's chair for an hour or two of a summer's afternoon. O most delightful thought! Dream on—and, John, rub on!

**THE CHARLESTON REPUBLICAN.**—The Charleston Republican recently made the following announcement:

"From this date, for a period of about six weeks, we propose, for purely economical reasons, to suspend the publication of *The Daily Republican*, and to issue instead a semi-weekly paper. This will appear on Wednesday and Saturday afternoons of every week, until the time when we shall resume the publication of the daily paper. Meanwhile we will be supporting a reputable newspaper in this State, necessarily falls on a few, on account of political hostility, we are, therefore, unwilling to imperil the interest of those who are true enough to the party to bear the brunt of such an enterprise, by doing too much in advance of the campaign, which is now close at hand."

**COURT IRREGULARITY.**—Court was short this time, very short, having been adjourned Thursday morning at 10 o'clock. But it was a lively court, very. In fact, rather too lively for this time of year. Judge Graham presided with his usual dignity and ability, and the new Solicitor Cooke bore his new honors very grace fully. The Solicitor Seabrook was sent to jail for twenty-four hours and was released from justice in the Circuit and Probate Courts, notwithstanding the fact that he had committed until paid, for his con-

duct, toward the Grand Jury, as alleged in their Proclamation which appears in another column. Messrs. T. K. Sullivans and John L. Humbert, were admitted to practice as attorneys and counselors, after the examination wherein they both evinced a very creditable degree of proficiency. No civil cases were tried.

We don't see any use in holding Court at this time of year save for the purpose of jail delivery—that is, for the trial of criminal cases. The lawyers have a great deal of important business to attend to at home at this time of year and ought to be interfered with as little as possible.

**COURT.**—The Court of General Sessions convened on Monday 10 o'clock. The following cases were disposed of:

State vs. George Green Washington and George Brown, larceny, struck off.

State vs. Henry Cheesecrough, burglary and larceny, continued.

State vs. Wesley Washington and Jeb Mitchel, burglary, struck off.

State vs. Capers Green, grand larceny, continued.

State vs. Frances King and Wm. Paulling, King, guilty, Paulling, not guilty.

Toney Strunk, assault and battery, guilty of assault.

State vs. Edmund Staley, burglary and larceny, continued.

State vs. Isaac Jackson, forgery, continued.

State vs. Dan'l Jeffcoat, malicious trespass, guilty.

State vs. Alex. Pou, bastardy, 3 cases, not guilty in one case and the other two not proved.

The following sentences were pronounced by Judge Graham on Thursday morning last:

Margaret Glover, petit larceny, county jail, 1 month.

Frances King, arson, 10 years in the penitentiary.

Dan'l Jeffcoat, malicious trespass and grand larceny, 2 months in county jail.

Wm. M. Mount, to pay off the bill at the special solicitor in the cases against the County Commissioners, and all his share of the costs, and be imprisoned one hour in the county jail, and failing to pay the fee and costs in ten days, to be imprisoned in the county jail 12 months.

Henry Dickson, same sentence as that of Wm. N. Mount.

Toney Strunk, assault, 100 dollars fine and costs, or 1 month in county jail.

Legend Smith, assault and battery, county jail 1 month.

Taff North, petit larceny, penitentiary six months.

The journals which had been abusing the administration because the "indirect claims" were pressed for consideration on the Board of Arbitration, thought they had new cause to slander Grant in the report that those claims had been withdrawn. They at once began to accuse him of abandoning the only point in the treaty of any value to the country, and the only question in which a great principle was involved. For this reason, they exasperated him more mercilessly than ever, when it transpires that the report was without foundation, and the "indirect claims" are not yielded. Surely this does leave the pugilistic editors in a predicament. They may take either horn of the dilemma they choose, they must eat their own words. They all fight Grant on principle. That is plain.—Columbus Citizen.

**PERSONAL.**—We were pleased to receive a call during the past week from Dr. Ayer's traveller M. H. O. Clark, who was in our town devoting his time and attention to the preparations of the great medicine man. This call has become a pleasant annual to us from the able and reliable business character of the accomplished gentleman whom this firm send out to transact their business. No house is better known or valued by the press for its promptness in settlement than the well established and popular J. C. Ayer & Co., Lowell, Mass., whose medicines have become household necessities, and won the confidence and praise of all. Our own acquaintance with them has extended over a series of years, and we have invariably found them, their travellers and their medicines worthy of the commendations they everywhere receive.

There is an irritation or inflammation of the tracheal tubes, which carries the air we breathe into the lungs. It arises from a cold settled in the throat, from catarrh extending to these parts, from serous affection, and from severe use

of the voice. The irritation from this latter cause commences in the larynx and pharynx, which are the organs of the voice, and extending downwards, produces hoarseness, coughing and spitting mucous matter, sometimes mixed with blood. It is often dangerous from its tendency to spread into the lungs and terminate in consumption. It is in the cure of severe and obstinate cases of this disease that Dr. Pickle's Golden Medical Discovery has achieved unparalleled success, and won the loudest praise from all who have used it. It is sold by all respectable druggists.

**THE HARVEST OF THE HEAD.**—When the comb acts as a rake, bringing away a roll of parted hairs every time it passes through the hair, baldness would soon be inevitable. But even in this case, bold as it may seem, the mischief can be arrested; the loss repaired. Lyon's Karakoum, aided by a brisk application of the brush to promote the absorption of the fluid by the scalp will stop the thinning out process in forty-eight hours. The root from which the dead flaments were shed will soon be endowed with vitality, and a new growth will speedily spring up on the denuded place. This work of reproduction will go on until the damage is completely repaired, and the luxuriant crop of hair thus produced will never wither or fall out as long as the vitalizing application is regularly continued.

**VENETIAN BLINDS.**—No invention was ever so important to the people of hot climates as the Venetian blind. Admitting the air and a shaded light, while keeping out the heat and glare, they are absolutely essential to comfort in this country. If the houses of any of our readers are destitute of these valuable contrivances, they should at once, before the hot weather sets in, send their orders to Mr. F. P. Toale, No. 20 Hayne street, Charleston, S. C., manufacturer and dealer in doors, sashes, blinds, busters, shutters, &c. &c.
