

GEORGE BOLIVER, FINANCIAL AND BUSINESS MANAGER.

Official Paper of the State and of Orangeburg County.

SATURDAY, SEPT. 7, 1872.

For President: OUBURN S. Grant.

Vice President: Henry Wilson, of MASSACHUSETTS.

We wonder if Plutus does not go down with ex-Gov. Orr's aspirations of Reform?

In the Sumter News against the Orr Reform party or not? It was a caricature to the Carpenter and Butler one of 1870.

Did Gen. Grant send the gallant Maj. Merrill down here for the purpose of arresting the Ku Klux or to drown, with his band, the voice of free speech?

Judge T. J. Mackey is doing gallant service in the up-country. Wherever his voice is heard, the miserable whining crew who are said to be backed by the Federal appointees, hang their heads in shame.

Egotistical.

The Charleston Republican, that queer journalistic phenomenon, which wanders forth on occasions from the corner of Meeting and Market streets has nominated its editor for the Legislature, declaring that, by his election, the lions and the lambs of Charleston would be made to clasp hands across the bloody chasm.

His ex-Gov. Orr, our modern Solomon—with the wisdom of the ancient one left out—the promise of an appointment from Grant, provided he succeeded in carrying the white vote of South Carolina. Until he votes the contrary, the people will not attach much importance to his advice.

His ex-Gov. Orr, our modern Solomon—with the wisdom of the ancient one left out—the promise of an appointment from Grant, provided he succeeded in carrying the white vote of South Carolina.

The County Convention.

In a few weeks the County Convention will transpire. Perhaps never before in the history of this County, certainly never in that of the Republican party, have we had presented to us such strong and urgent reasons why proper men should be placed in nomination.

leading Republican to put forth his best endeavor to bring about the desired result. If by our neglect of right a defeat should befall us, the penalty that will follow must be borne without murmuring on our side.

A Charleston contemporary has the following in relation to the Circuit Solicitorship:

"There has been considerable talk about the Solicitorship of Charleston County, and there are now two gentlemen claiming to be the regular candidates of the Republican party.

We argue that it is a well known principle that every Convention is limited to the purposes of its call, and the nomination of a Solicitor was not among the purposes of the call of the Columbia Convention.

8. Your petitioners further sheweth that the periods at which the waters of the South Edisto River are most likely to be shallowest, are during the late Summer months, when malarial fevers are most apt to be contracted by exposure and your petitioners in rendering service in the miasmatic bogs of the South Edisto River Swamp at such times would be placing their lives in jeopardy for no benefit to themselves.

9. Your humble petitioners further sheweth that it is the object of all law to do the greatest good to the greatest number. The operation of the laws relative to this proposed road militates to the best interests, and is contrary to the expressed will of your petitioners.

10. We have strong grounds for expressing the conviction, that upon the presentation to the Legislature of the original petition, praying for the charter for the above-mentioned road, false representations were made, and that the member who introduced the bill in relation to said road, was not aware of the injustice of framing such a law at the time he introduced the bill.

A New Road Proposed for the Fork.

At the last session of the Legislature an Act was passed to establish a public road in the Counties of Barnwell and Orangeburg, leading by the most direct route from Bamberg to Fogle's mill. The Act confers upon certain persons there in named, the authority to order out all persons liable to highway duty, who reside within five miles of the line of said road, to perform three days labor, in each month on said highway until its completion.

The petition to the last General Assembly to have it opened, was not signed but by a handful of the people in the Fork, a petition has been drawn up, directed to his Honor, Judge R. F. Graham, praying that an injunction be granted, to stay work on said highway until the Legislature shall assemble when an effort will be made to have the law repealed.

1. That many of the names accompanying the general petition, which was presented to the Legislature, praying for the passage of the above mentioned act, were obtained without the knowledge or consent of the persons which they represent, and were therefore forged; and the fact can be established by the affidavits of the parties to whom the injunction was done.

2. That a large number of your petitioners living within five miles of the line of said road as now located, knew nothing whatever of the existence of any petition to the General Assembly, praying for the construction of said road, and was not even cognizant to the passage of the act in relation to it, until assessed to perform duty on said highway.

3. That the usual notice of ninety days was not advertised in the County paper.

4. The petition praying the General Assembly for a charter for said highway was clandestinely circulated in Orangeburg and Barnwell Counties, and was generally presented to those who were known to favor the opening of said highway, or to those not liable to highway duty.

5. The merchants and other citizens of Bamberg who nearly make up the sum total of the citizens of Barnwell County, in favor of the opening of said highway, and whom it is intended to benefit more than any others are, strange to say, exempt by this special act from working on this particular highway.

6. The Orangeburg side of the South Edisto River Swamp, through which said highway will lead as designated by the Commissioners, is a low flat, deep, marshy area of land, subject to overflow to the depth of several feet, extending in width from the river bank to the

distance of six hundred yards. The distance in width is crossed by numerous lakes and lagoons, which will require over one hundred yards in width of bridges to span them, independent of the enormous earthen dam or causeway, which it will be necessary to build to render the swamp passable for loaded vehicles. The entire width of the swamp on the Orangeburg side of the river, at this point, is at least seventeen hundred and sixty yards. To complete this dam, and build the necessary number of hollow bridges will require an incalculable outlay of labor, which the merits of the matter in question do not now, and never will hereafter half justify.

7. To calculate what it would cost, and the length of time it would probably require to complete this dam and these bridges is beyond the power of any man to solve or to approximate, as nearly everything depends on the state of the weather. Except when the river is extremely low which is not generally the case, more than once or twice during the twelve months, it would be next to impossible to complete the dam at all, as the water would wash away the dirt as soon as deposited.

8. Your petitioners further sheweth that the periods at which the waters of the South Edisto River are most likely to be shallowest, are during the late Summer months, when malarial fevers are most apt to be contracted by exposure and your petitioners in rendering service in the miasmatic bogs of the South Edisto River Swamp at such times would be placing their lives in jeopardy for no benefit to themselves.

9. Your humble petitioners further sheweth that it is the object of all law to do the greatest good to the greatest number. The operation of the laws relative to this proposed road militates to the best interests, and is contrary to the expressed will of your petitioners.

10. We have strong grounds for expressing the conviction, that upon the presentation to the Legislature of the original petition, praying for the charter for the above-mentioned road, false representations were made, and that the member who introduced the bill in relation to said road, was not aware of the injustice of framing such a law at the time he introduced the bill.

11. In conclusion your petitioners pray and ever will pray your Honor to grant an injunction to be served on J. D. Cleckley, J. S. Bamberg, F. E. Salinas and Daniel Quattlebaum, the Commissioners created by this special Act, and cause them to stay work on the aforesaid road till the meeting of the General Assembly when your petitioners hope to have said Act repealed.

That the proposed road will do the County of Orangeburg no good whatever is evidenced in the fact that the bill to establish it was gotten up on the Barnwell side of the river. It passed the Senate through the influence of C. P. Leslie, and was galloped through the House in such a hurry that scarcely one of our members knew of its passage. It is manifestly in the mercantile interest of Bamberg, and if completed will deteriorate from that of our town. Again, the road will require an annual outlay of five or six hundred dollars after it is built to keep it in repair for travel. Our citizens will have to be taxed to raise this money. It will be expended, not for the purpose of enhancing the interests of our County, but for the building up of the trade of a town that is a rival to theirs. The above petition will be circulated among our citizens for signatures. We have no doubt of his Honor, Judge Graham, hesitating for a moment to grant an injunction, upon the ground set forth therein.

The road will certainly injure the trade of Orangeburg to a considerable extent, and we call upon our merchants to lend their aid and assistance to the effort to restrain the Commissioners from proceeding any further until the Legislature meets.

THE ART OF MAKING MONEY.—One great cause of the poverty of the present day is the failure of many people to appreciate small things. They say if they cannot save large sums, they will not save anything. They do not realize how a daily addition, be it ever so small, will make a large pile. If the young men and women of to-day will only begin, and begin now, to save a little from their earnings, and invest it in some savings bank and weekly or monthly add to their mite, they will wear a happy smile of content and independence when they reach middle life. Not only the pile itself will increase, but the ability and desire it increases it will soon grow. Let the clerk and tradesman, laborer and artisan, make now and at once a beginning. Store up some of your force and vigor for future contingency. Let parents teach their children to begin early to save. Begin at the foundation

head to control the stream of extravagance and then the work will be easy to choose between poverty and riches. Let our youth go on in the way of extravagance for fifty years to come, as they have for fifty years past, and we shall have a nation of beggars with a moneyed aristocracy. Let a generation of such as save in small sums be reared, and we shall be free from want. Do not be ambitious for extravagant fortunes, but seek that which it is the duty of every man to obtain— independence and a comfortable home. Wealth in sufficient abundance is within the reach of all. It can be had by only one process— saving.— New Jersey Mechanic.

WHY WE SHOULD WEAR BEARDS.—There are more inducements for wearing the beard than the mere improvement of a man's personal, and the cultivation of such an aid to the every day diplomacy of life. The hair of the moustache not only absorbs the moisture and mists of the fog, but it strains the air from dust and soot of our great, smoky cities. It acts also in the most scientific manner by taking heat from the warm breath as it leaves the chest, and supplying it to the cold air taken in. It is not only a respirator but with a beard entire we are supplied with a comforter as well, and these are never left at home like the umbrella and all such appliances when they are wanted. Toftatt and Livingston, the explorers and many other travelers, say that at night no wrapper can equal the beard. A remarkable fact is too that the beard like the hair of the head, protects against the heat of the sun; it acts as the thatch does to the ice house; but, more than this, it becomes moist with perspiration, and then by evaporation, cools the skin. A man who accepts this protection of nature may face the rudest storm and the hardest winter. He may go from the hottest room into the coldest air without dread, and we verily believe he might sleep in a morass with impunity, at least his chance of escaping the terrible fever would be better than his beard less companions.

WHERE THE "CONFOUNDED MOTHER" WAS.—A gentleman who came up the Edisto on the St. John yesterday, tells this story: "I noticed," he said, "a serious looking man, who looked as if he might have been a clerk or a bookkeeper. The man seemed to be caring for a crying baby, and was doing everything he could to still its sobs. As the child became restless in the berth, the gentleman took it in his arms and carried it to and fro in the cabin. The sobs of the child irritated a rich man who was trying to read until he blurted out loud enough for the father to hear— 'What does he want to disturb the whole cabin with that damned baby for?'"

The man only needed the baby more quietly in his arms without saying a word. Then the baby slobbered again. "Where is the confounded mother, that she don't stop its noise?" continued the profane grumbler. At this, the father came up to the man and said: "I am sorry we disturb you, sir; but my dear baby's mother is in her coffin down in the baggage room; I'm taking her back to Albany, where we used to live."

"The hard hearted man," said my friend, "buried his face in shame, but in a moment wiled by the terrible rebuke, he was by the side of the grief-stricken father. They were both tending the baby.— N. Y. Com. Advertiser.
