"I herewith append a recipe which h's been used to my knowledge in hundreds of cases. It will prevent or cure the When Jenner discovered cow pox in England, the world of science hurled an avalanche of fame upon his head; but when the most scientific school of medicine in the world- that of Paris-published this receipt as a panacea for small pox, it is passed nuhecded. It is harmless when taken by a well person. It will also cure scarlet fever. Here is the recipe as I have used it, and our d my children of the scarlet fever ; here it ias I used it to cure small pox. When learned physicians said the patient must die, it eured; Sulphate zine, one grain; foxglove; (digitalis), one grain, half a tenspoonful of sugar, mix with two table spoonfuls of water t. When thoroughly mixed, add four ounces of water. Take a spoonful every hour. Either disease twill disappear in twelve hours. For a child, smaller doses' according to age-If counties would compel their physiclaus to use this, there would be no -need of pest houses. If you value a lvice and experience, use this for that ter. ible

The Chelsea (Mass,) Public says four or live cases of the disease have been cured by the above remedy in that town, to the editor's personal knowledge.

Eight Locks to the Boll.

THE ORIGIN AND CHARACT. R OF THE PRODICY COTTON.

The unparalleled productiveness of Cannon's prodigy cotton bids fair to inaugurate a new era in cotton planting, and, as there is evidently a disposition en the part of enterprising planters to give this cotton a trial, a comprehensive description of its origin and character

will be of interest. The prodigy cotton is a new and diswinct species of short cotton, bearing eight locks to the boll -twice the num ber born by ordinay cotton. It is pro greasive, the tendency being to increase. as several bolls have been gathered from the eight lock stalks which bere twelve The double fruitage of the eight lock cotton is in itself a great consideration as it will by increasing the fyield diminish both the quantity of land to be planted and the expense of labor. In Hea record, having yielded the past year, with a limited application of fertilizers, and imperfect cultivation, at the rate of ust Cannon in 1871 started with one boll of eight lock cotton : he has now seed enough to plant three quarters of an acre, from which he expects to gather at the rate of seven thousand pounds of seed cotton to the acre. The genuine eight lock seed can be obtained from John Thompson & Co., seedsmen and

the same ratio as the genuine eight lock .- Charleston News.

"HOR florists No. 288 King street, at one dol

lar a seed, and some of the seed growing on the same stalks from which the eight

locks was gathered, but pearing for and

five locks to the boll, will be sold for

eventy-five cents a seed. These last will prod e eight look bolls, but not in

Curing Hams.

20 a 10 ne following is a good recipe for

Two and a half pounds saltpetre, dried and finely powdered half bushel best Liverpool salt, three pounds brown sugar and a half gallon molasses. Mix all in a yeasel, rub the meat well with same, and pack with skin down.

The above is the exact amount required for 1,000 lbs. of pork. After being in salt three or four weeks, take out, wash clean the pieces, dry and hang it up for smoking. Three weeks is sufficient to smoke them thoroughly by fire made of hickory wood.

When smoked, take down and bag or pack away in dry chaff or cut straw Examine them occasionally, and if found to be at all damp, renew the packing with dry material.

The heaviest corn crop ever grown in the United States was that of last year, which the Agricultural Report states at the buge total of 1,100,000,000 bushels. Not only is this the largest crop, but it, is said to be coru of better quality and of greater intriusic value than usual. Iowa was the banner corn growing State. her average being nearly forty one bushels an acre. Unfortunately for some of those who would like to have the lowa corn, it takes the price of four bushels of said corn to get one bushel to the Atlantic markets. This is one of

the reasons why some people are demand-

West and the East.

Ayer's

## Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing wind is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color, with the gloss and freshness of youth Thin hair is thick-

ened, falling bair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations described. make some preparations dangerous, and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

#### HAIR DRESSING.

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich, glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co., PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whoeping

Cough, Bronchitis, Asthma,

such as Coughs, Colds, Whoeping
Cough, Bronchitis, Asthma,
and Consumption.

Probably never before in the whole history of
medicine, has any thing won so widely and so
deeply upon the confidence of mankind, as this
excellent remedy for pulmonary complaints.
Through a long series of years, and among most
of the races of men it has risen higher and higher
in their estimation, as it has become better known.
Its uniform character and nower to cure the various affections of the lungs and throat, have
made it known as a reliable protector against
them. While adapted to milder forms of discarand to young children, it is at the same time the
most effectual remedy that can be given for incipient consumption, and the dangerous affections
of the throat and lungs. As a provision against
sudden attacks of Civary, it should be kept on
hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be
provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the
disease seemed settled, have been completely
cured, and the patient restored to sound health
by the Cherry Pectoral. So complete is its
mastery over the disorders of the Lungs and
Throat, that the most obstinate of them yield to it.
Whon nothing else could reach them, under the
Cherry Pectoral they subside and disappear.

Singers and Public Speakers lind great
protection from it.

Asthma is always relieved and often wholly
cured by it.

Bronchies is generally cured by taking the
Cherry Pectoral me small and frequent doses.

So generally are its virtues known, that we
need not publish the certificates of them here, or
of more than assure the public that its qualitioe
are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, march, or miasmatio

As its name implies, it does Cure, and does not fall. Containing neither Arsenic, Quinine, Bismuth, Zine, nor any other mineral or pole-onous substance whatever, it in nowise Injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Computaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Billous Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.
