WONDERFUL CORN .- The Petersburg (Va.) Index, of the 28th ult., says : 18 Mr. J. B. Marshall has a sample of od corn at his store, known as the Extra Early Field Corn, raised in Botecourt county, which has a most wonderful reputation. It is claimed that 192 bushels of this corn has been grown on an acre. As to this we have only to say that it was a good deal of corn and a w very little ground; but it may be true le le aud is, doubtless, a good variety. I sells for the modest little sum of one "" dollar per quart.

Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellones. Investment of ease, where the sy term seemed saturated vib corruption, have been purified and cured by it. Serofulous affections and disorders, which were aggravated by the serofulous of the sunday cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this suscen and unfelt tenant of the organism undarmises the constitution, and invites the attack of enfeebling or fastal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the shatter, tabercies may be saddenly deposited in the lungs or heart, or tumovs formed in the liver, or it shows its presence by cruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afficted with the following complaints generally find inmediate relief, and, at length, cure, by the use of this SARSABARILLA: St. Anthony's Fire, Rose or Erysipplas, Tetter, Salt Rheum, Seala Head, Ringucorm, Sure Eyes, Sore Ears, and other cruptions or visible forms of Scrofulous disease. Also in the more con cealed forms, as Dyspepsia, Drossy, Heart Disease, Fite, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscula and nervous systems.

Suphilis or Feneral and Mercurial Diseases, are cured by it, though a long time is required for subduing these obstinate maladice by any medicine. But long-continued use of this mediane will cure the complaint. Leucorrhara or Whites, Ulcrine Ulcerations, and Fernale Diseases, are commanly soon relieved and ultimately cured by its purifying and invigorati

RENEWER. Every year increases the popularity of this valuable Hair Preparation, which is due to merit alone. We can assure our old patrons that it is kept fully un to its high standard; and it is the only reliable and perfected prepara-tion for restoring Gray on FADED Ham to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all cruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most conomical Hair-Dressing ever used, as it requires fewer applica-tions, and gives the hair a splendid, glossy appearance. A.A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the Bast Preparation for its intended purposes."
