Ayer's Cathartic Pills,

glect of its composition. We have thousands upon thousands of certificates of their remarks ble cures of the following complaints, but such cures are known in every neighborhood, and we need not known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel nor any deleterious drug, they may be taken with sairly by anybody. Their sugar-ceating preserves them ever frosh, and makes them pleasant to take, while being purely vegetable, no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate of the stomach, bowels, liver, and other organs of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspessiz, or Indignation, Listless, Languer and Loss of Appesies, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaints and its various symptoms, Billous Headache, Sick Headache, Jaundice or Green Sick Headache, Jaundice or Green Sickmess, Bilicus Colic and Billious Fevers, they should be fudiciously taken for each dase, to correct the cause it.

For Dyspentery or Biarrheea, but one

cause it.

For Bysentery or Diarrheea, but one mild doze is generally required.

For Rheeumatism, Gout, Gravel, Palepitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the discased action of the system. With such change these complaints disappear.

For Bropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large doze should be taken as it produces the desired effect by sympathy. As a Dinner Pill, take one or two Pills to As a Dinner Fill, take one or two Fills to promote digestion and relieve the stomach.

An occasional does stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates fite system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these Fills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Ayer's Ague Cure,

Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or missmatic

No one renery is louder called for by the necessiles of the American people than a sure and safe euro for Fever and Ague. Such we are now canbied to effect with a perfect certainy, that it will a radionte the disease, and with a series and ague. Such we are now ance, founded on proof, that ne harm can arise from its use in any quantity.

That which protects from or provents this disorder must be of launeness service in the continuation where it prevails. Prevention is better than care, for the patient escapes the risk which he must run in violent attacks of this baleful discemper. This "Cuius" expels the minamatic poison of Fevera and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premodury symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheanest. The large quantity we supply for a dollar brings it within the reach of serveybody; and in billious districts, where Fevera and Ague prevails, everybody should have it, and use it freely, both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents is, that it contains no Quinime or mineral; consequently it produces no quinism or other injurious effects whatever upon the constitution. Those curse had the disease.

Fever and Ague is not alone the consequence of the minamatic poison. Agreat variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindess, Toothache, Earache, Catarrh, Ashma, Felpitation, Fainful Affection of the Spieen, Hysterica, Pain in the Bowels, Colic, Paralysis, and derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cuius" expels the polson from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants

while exposed to the infection, that will be excreted from the system, and cannot accumulate in sumicient quantity to ripen into disease. Hence it is even more valuable for protection than cure; and few will over suffer from Intermittents if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpility of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity, and producing many truly remarkable cures, where other medicines fail.
