Teach Children to Beware of Flies

Explain to them how flies are hatched in filth. How, after crawling around in outhouses, privies, manure piles and over dead animals and decayed matter, they come into the home and wipe their nasty feet on the family food, leaving a trail of disease germs everywhere.

Flies Cause Infantile Paralysis, Typhoid and Other Fevers

The best doctors in the world will tell you that flies are the cause of a great deal of sickness, especially summer complaint, infantile paralysis, dysentery, typhoid and other fevers. Don't let flies bring sickness into your home.

RED DEVIL LYE KILLS FLIES

Keep a can of RED DEVIL LYE in your outhouse and sprinkle it on the filth freely, once or twice a week. It consumes the filth, destroys the fly eggs and prevents odors and sickness.

An engine that translates gas into a new kind of thrilling power through the "Hot-Spot" and "Ram's-Horn" Manifold—Chalmers devices.

Power to take a hill, and power to pass the other fellow are still claimed by many car makers; but here's a car that puts such expressions into the dark ages of automobiling.

It is the current Chalmers, equipped with the famous "Hot-Spot" and "Ram's-Horn" Manifold, which wrings from gas more power than was ever taken out of gas before.

But not merely brutal power (for that it has), but a newer kind, a softness of power that is as thrilling to bear witness to as the technique of a great musician.

Accomplished how? By those two great devices: a "Hot-Spot", which fairly cooks the gas, then "cracks it up fine as a powder"; and the "Ram's-Horn" Manifold which "sets it down" in the combustion chambers with celerity and without disturbance.

So that when the spark touches it off, it gives nothing but power; soft, harnessed, controlled power that you will never forget once you have had its feel.
