- Unique in the annals of war loan history is the case of A. F. Moon, Jr. castler of the Cartersville, Bank, Carer file, Va. He has already secured iptions for the entire allotment of his bank. This is the first bank in the Fifth Federal Reserve District which has made such a record, so far

SPECULATORS TRY TO OBTAIN BONDS

Rer rts are wide-spread that some owners of Liberty Bonds have sold them at prices lower than their market value. Investigations show that shrewd speculators are active in trying to induce people to part with their government securities. Many of them ire offering to take Liberty bonds in exchange for other so called "securiwhich promises a higher rate of

ferest than Liberty Bonds. It is pointed out by treasury offilals that Liberty Bonds, are worth wery doilar paid for them. One evidence of their value is the eagerness of the speculator to get possession of them - He knows - what they are

worth. The Liberty Bond owner does not know the value of the "stock" or "bond" he is offered in exchange for his government security:

Offers Far Better Opportunities Than Those Enjoyed by Thrifty People in France Who Claim Leadership.

France has been called the thriftiest nation in the world. It claims to be. If we do not watch out she will prove it conclusively. America is the richest country on earth. Our per capita savings increased approximately 45 per cent in the last four years-the period of the war. Last year, for intance, the per capita savings in the South alone was \$26.73. That sounds he we have the money, and we certainly have the will to make more

Uncle Sam is out to show you how. Tie wants to be your savings banker. He offers you not only 4 per cent, interest, compounded quarterly, but the government as security. There could hot be a better incentive for thrift than that. The French people have far less, yet they save more. They have no way to put their savings into small government securities, the poputar denomination being that of five. hundred francs, or \$100.
