Barnwell, South Carolina

This cozy home may be **Your Home.**

An attractive, snug, convenient, roomy little bungalow;

Graceful lines, embodying the most modern of architectural ideas; securely, substantially built to make it lasting and comfortable in the most severe weather. Built with a view to convenient arrangement. While small in appearance, its rooms are in reality of ample size for every comfort.

**QUICKBILT BUNGALOW NO. 44**

while beautiful, convenient, roomy and thoroughly substantial, is built at a tremendously reduced cost, due to the immense savings in quantity production. From the flooring to the roof, from the siding to the interior finish, it is already prepared for erection and partially built. In buying a QUICKBILT Bungalow you

**SAVE**

**WASTE.** All the material is already prepared and the bare waste piles of scrap lumber are thus eliminated. Every foot of lumber is used. You buy no surplus material.

**TIME.** Every piece of material has its own place. Everything is numbered and systematized. The instructions to the carpenter are complete and the order of erection simple. No time is lost in looking for material. The time ordinarily required in preliminary cutting and trimming is saved. Furthermore, as a large portion of the house is already built in panels, just that much time and cost is eliminated in construction.

**LABOR.** With the entire process of erection systematized and instructions complete and the great building "bugaboo"—preliminary preparation—eliminated, the labor in the erection of a QUICKBILT Bungalow is reduced to a minimum, and therefore, of minor consideration. A carpenter of average speed and experience with two laborers can erect the house in 3 days. The ordinary crew will take almost as many weeks.

**MONEY.** A saving in waste of material, time and labor, and a saving in erection is cut in half, but that is not all. You need not pay a cent for the architect's fee. The erection is so simple and systematic that any carpenter of average skill can erect it with ease. Many owners returned from the builder and pay no architect's fee. The complete plans with all specifications and instructions are furnished FREE. And yet, the plans are made and ready by the best and most experienced of architects, with a view to eliminating waste and getting the greatest possible convenience, economy and strength. The cost of the material is further reduced by the fact that it is bought from the mill manufacturer and forest in one. Our complete plans cover the entire process from the sawing of the lumber to the completed house. You pay no middle man's price. You buy direct from the supplier of material. An owner's separate plans in which houses are built simultaneously, every part cut to perfection, is used and waste is avoided. As the houses are made in great quantities, you gain the advantage of the low cost of quantity production.

**PRICE \$952 less 10 per cent, for cash, Net price \$856**

P. O. B. Charleston. The price includes all necessary material, except the brick work and plumbing. Size over 20' 2 1/2" x 24' 6". There are two large front porches, one 20' x 12 1/2', the other 12' 1/2' x 12 1/2'. One spacious living room, 12' 1/2' x 18' 1/2', kitchen 9' 1/2' x 12' 1/2', a bath room 9' 1/2' x 6' 1/2', and an attractive front porch 12' 1/2' x 8' 1/2'. The house is well lighted, spacious, well ventilated and convenient. The construction is typical of North Carolina style. The Wood Finishes are specially selected for durability and setting. Walls built in panels of siding, lined with heavy builders' paper to insure warmth. Durable, fire-resisting, standard asphalt strip-siding with slate-green red finish. Artistic paneled inside finish. Excellent doors and sash. All necessary nails and hardware furnished. House comes with exterior walls stained an attractive number of standard colors or painted one heavy coat of trimmings paint. Exterior trim work—mouldings, etc.—painted with white trimmings paint.
