Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. 75c.

Catarrh for Twenty Years PERUNA

Mrs. M. S. Davis, 1607 10th Ave., N. Nashville, Tenn., writes:

"After having been a constant sufferer from catarrh for more than twenty years and after trying almost every remedy advertised, and having lost all hope, I very reluctantly began the use of Peruna about two years ago. Everybody says I look younger now than I did twenty years ago, and I actually feel younger and better, and weigh more. I am recommending it to my neighbors and all with whom I come in contact."
