Cotton fabrics have long been known to the Peruvians. There is evidence that it was successfully cultivated by them as early as 1532, or in the time of the Incas.

The West India or Sea Island cotton has the longest, silkiest staple, and it is of this the producing countries, formerly ranked high size large. The man who can smile at fate when it swoops down upon him in the shape of an ill-fitting collar-band is nearly ready for canonization.—N. Y. Weekly.

FINLEY & BRICE. ATTORNEYS AT LAW, DO YOU WANT A WATCH?

If You are a Subscriber to THE ENQUIRER. We Offer You a Bargain that You Cannot Duplicate in America-Plain, Straightforward Business. No Quibbling. WE congratulate our readers and ourselves on an arrangement we have just completed with one of the most reliable wholesale jewelry establishments in the United States by which we are enabled to furnish subscribers to which we are enabled to furnish subscribers to THE ENQUIRER with reliable Watches, manufactured by the leading American companies, at prices never before heard of in this section. Now, before going any further, we desire to impress upon the subscribers of THE ENQUIRER the fact that these watches are not "bankrupt" goods, are not sold to close out or anything of that style, but as we remarked above they are strictly first class and just as represented. We wish it distinctly understood that these watches are not offered as premiums, nor will they be sold to any one who is not a yearly subscriber to THE ENQUIRER.

THE ENQUIRER.
This is purely and simply a plan on our part to give a good thing to our subscribers if they The American standard watches, the best time keepers in the world, are graded as seven, eleven, thirteen and fifteen jeweled, full jeweled and adjusted. Very few men—not one in five hundred—carry either an adjusted or even a full-jeweled watch. There is no reason why any subscriber to THE ENQUIRER should not have a watch eartfully adjusted to heat cold and postwatch carefully adjusted to heat, cold and posi-tion, nor why any subscriber should not have a trustworthy time-keeper.

THE ENQUIRER proposes to make "leaders" of the five styles described below.

No. 693.—Is a nickel silver bassine open face case, which will wear equal to coin silver, fitted with a 7 jewel American full nickle plate movement. This Watch is the equal for wear and time of a watch many times its cost. The regular retail price of the watch is \$8.50, but we propose to furnish it to our subscribers for \$5.35. If a re-liable time-keeper is all you want this watch will neet your requirements. No. 695.—Is an 18 Size, open face 10 karat gold

meet your requirements.

No. 695.—Is an 18 Size, open face 10 karat gold filled Montauk case, guaranteed to wear for 15 years and it will wear a great deal longer. It is fitted with the same movement as No. 693. The regular retail price of this watch is \$19.00. We propose to furnish it to our subscribers for \$12.25. No. 892.—This a No. 18 size with open face. It has a silver filled case with screw back and screw bezel, which makes them dust proof. These cases are made by Joseph Fahys and are as durable in every particular as a solid silver case, the outside or exposed parts being made of solid coin silver. This case is fitted with a 15 jewel glit Elgin or Waltham movement, as the purchaser may prefer. The regular retail price of the watch is \$2.200. Our price is \$41.75. This watch is the equal as a time keeper of any watch on the market, and is intended especially for those who have heavy work to do. You can't make a mistake in buying this watch.

No. 658.—This is a lady's watch. It is a No. 6 size, 13 jewel nickel Elgin movement, fitted to a genuine "Boss 14 Karat" gold filled case guaranteed to wear 20 years, and will wear mutch longer. If a Waltham movement is preferred to the Elgin, we can furnish a 1 size Waltham 13 jewel nickel movement fitted to a "Crescent" the Karat gold filled case, guaranteed to wear 20 years, and will wear mutch longer. If a Waltham movement is that it won't fit the "Boss," case is equal in every particular to the "Boss," and the reason for furnishing the "Crescent" case with the Waltham movement is that it won't fit the "Boss," case.

The regular retail price of either of these watches is \$40.00. Our price is \$24.50. These watches are, is \$40.00. Our price is \$24.50. These watches are, is \$40.00. Our price is \$24.50. The regular retail price of either of these watches is \$40.00. Our price is \$24.50. These watches are, indeed, beauties, and any lady may be proud to carry either of them. The cases are what is called a "double" or hunting. Alled a "double" or hunting. No. 524.—Is a No. 18 size, Boss hunting, 14 karat gold filled case guaranteed for 20 years. The case is handsomely engraved—it is a beauty.
This case is fitted with a 15 jewel nickel Walthan or gilt Elgin adjusted movement, with patent regulator. This watch is undoubtedly one of best made in the United States, and the man who buys one will have a watch which he can leave to his son when he no longer needs a watch.

The regular retail price of the watch is \$50.00.

Our price is \$29.75.

For the information of those not familiar with gold filled cases, we will say that a 14 karat filled case of either the Boss, Fahys or Crescent patent, case of either the Boss, Fahys or Crescent patent, is equal in appearance and wearing qualities to a 14 karat solid gold case. There are probably tive gold filled cases sold to one solid gold case, which proves very conclusively that a large majority of those persons who buy watches do not care to pay a big price for the doubtful satisfaction of owning a solid gold case.

All the above described watches are stem windows and stap softens and true in every way. winders and stem setters, and are in every way just as represented. Their appearance, in beauty of design and finish, is far better than we can describe. Remember, too, that they are sold to you at these low figures because you are a sub-scriber to THE ENQUIRER; and unless your name is on our books, or a year's subscription

comes with your order, in addition to the price of the watch, we cannot and will not sell you a watch.

Another point. These offers must be accepted exactly as we make them. As our profits are very small, almost nothing compared to profits made by dealers, we cannot be bothered with correspondence further than the filling of orders. correspondence further than the filling of orders.
Select the style of watch you desire, send as the money by bank draft, money order or registered letter, and the watch will be promptly sent you.

In ordering the watches order by the numbers given in THE ENQUIRER. Then we will know

The Loose Balance Wheel is actuated by a solid bolt passing through a collar securely pinned to the shaft outside of the balance wheel, which bolt is firmly held to position by a strong spiral spring. When a bobbin is to be wound, the bolt is pulled out far enough to release the balance wheel, and turned slightly to the right or left, where it is held by a stop-pin until the bobbin is filled. Where the Machine is liable to be meddled with by children, the bolt can be left out of the wheel when not in use, so that the Machine cannot be operated by the treadle. The thread eyelet and the needle clamp are made SELF-THREADING, which is a very great convenience.

Screw Driver 1 Foot Rumer 1 Foot Hemmer, Gauge, 1 Tucker, Package of Needles, 1 Thread Cutter, The driving wheel of this Machine is admitted to be the simplest, easiest running and most convenient of any. The Machine is self-threading, has the very best tension and thread liberator, is made of the best material, with the wearing parts hardened, and is finished in a superior style. It has veneered cover, drop-leaf table, 4 end drawers and a center swing drawer. The manufacturers warrant every Machine for five years.
