

ed Amanda Monk, were fatally wounded during the fray and both victims afterward died. Green ran away but subsequently gave himself up. The case of the State was based on the dying statement of Alphonso Moore, corroborated in part by several eye-witnesses. Moore claimed in his statement that he did not fire at Green for the reason that he had no cartridges in his revolver; but other witnesses testified to the fact that he fired several shots. The testimony also showed that it was evidently the deliberate intention of Green to kill Moore. The defense did not offer to put any witnesses, and allowed the case to go to the jury on the showing made by the State. Solicitor Henry demanded a verdict of guilty of murder. Mr. Finley asked for an acquittal on the ground of self defense, or at the worst a verdict of guilty of manslaughter. The jury took the case at about 1 o'clock yesterday and in a short time returned with a verdict of guilty of manslaughter. His honor sentenced Green to the State penitentiary at hard labor for the period of seven years.

The case against Paul Turner, Arthur Turner and Hugh Armstrong for assault and battery with intent to kill was not proceeed, as was so that against W. Hart Westmoreland and charged with burglary and larceny.

The grand jury has considered a large number of bills of indictment, and returned true bills in the following cases, in addition to those already mentioned; Walter Morris, breaking into a car; Major Hanna, murderer John Jenkins and Oney Legg, housebreaking and larceny; John Hill, housebreaking and larceny; Sutton Knox, burglary and larceny; Harry Wilson and James Parish Jr., housebreaking and larceny; James Crawford, burglary and larceny; James Jones, handling contraband liquor in the night; Wm. White, disposing of property under lien; E. A. Trescott and P. A. Cowhorn, adultery and fornication; Robert Edwards, receiving and keeping contraband liquors; Kirk H. Edwards, keeping and dealing in contraband liquors.

There are quite a number of other liquor cases still to be given out by the solicitor; but as he had no more bills ready at 3 o'clock yesterday, the grand jury was discharged until this morning at 9 o'clock. The grand jury still has a great amount of work to do and when it will be discharged cannot be definitely stated.

SOUTH CAROLINA NEWS.

Profitable Industry. A Newberry Negro is engaged in the business of shipping rat skins to New York where he sells them at from three to five cents apiece.

Dispensary Profits. The profits of the Greenville dispensary from November 1st, 1894, to March 15th, 1895, have been divided between the city, county and State. The State gets \$8,490, the city and county \$1,730 each. The amounts probably represent a larger ratio than will be realized by any subsequent or different period of the year as the term embraces the Federal court.

A Well-known Negro Dead. Samuel J. Lee, colored, who in 1872, succeeded the notorious Franklin J. Moses as speaker of the house of representatives died at his home in Charleston last Monday. Lee was a native of Abbeville county and was a slave of the late General Samuel McGowan. He managed to secure a fair good education and when the reconstruction period came he was admitted to the bar. He was prominent as a politician, and was one of the few officials of the old regime who escaped indictment in 1876. Since 1876 he has been engaged in the practice of law in Charleston.

War on the Distillers. Governor Evans has announced that all distillers doing business in this State must either comply with the law or shut up shop. The law provides that before a distiller can do business he must take out a license, from the State, and must agree to submit to the confiscation of all liquors on hand in case he is convicted of violating the law. Where the distiller has not paid the government tax, the State foots the bill and takes the liquor. As yet no distiller in the State has taken out the required license, and the governor thinks that all the distillers are violating the law, and that is why he has declared war. A number of distillers have already been arrested.

MERE MENTION. The old town of St. Augustine Fla., was visited by a destructive fire last Thursday night. The total loss runs up to something like \$200,000. Most of the city is in ashes. A large colony of ex-Federal soldiers have made up their minds to locate in Georgia, with their families. Citizens of Chicago have arranged to entertain President Cleveland as a guest of the city at an early date, providing the president is willing to come.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. KUYKENDAL'S QUID PRO QUOS.

The Immortal Holmes Said that next to the interest we take in all that relates to our immortal souls, is that we feel for our mortal bodies. An individual who is constantly racked with the torture of mind and body due to dyspepsia is not in a condition to appreciate the daily blessings that he is the recipient of. Take Anti-Ferment and be cured of indigestion, dyspepsia and all their roving symptoms. A healthy body is a fit temple for a healthy soul. Anti-Ferment is a therapeutic angel, so to speak, that guards every household in which it is kept and flies to the rescue on all occasions when it is needed. Removal. Dr. Walker's Hair Tonic does absolutely, peremptorily, indubitably, without quibbling, condition, limitation, relative dependence on anything, remove dandruff in but a few applications. We can prove this assertion. Besides, it promotes a new growth of hair and does not destroy the original color of the hair. Jowl and Turnip Greens. We often experience in the spring time a stretchy, yawny languid feeling, or a disposition to sit in one place all the time, a lack of energy, and jump and spring, with loss of appetite, notwithstanding the dinner table is graced every day with jowl and turnip greens. In cases of this kind Dr. Jackson's Black Liver Pills reads the riot act. Get a box and see the directions on it. If you are a farmer your voice will be first heard afield calling woa, haow, come around there Ben; gee. We Favor a Dispensary. That is our ticket and has been; and we have here recorded it in black and white. We are in favor of a dispensing with the cheap baking powder, that fills the shelves of the stores. If it is used constantly, and three times a day, it is as poisonous as the "blind tiger," which the good people are going to exterminate. Ladies, please try our Perfect Baking Powder. You can buy it in bulk in any quantity, or in handsome boxes. Let us break up the dispensing of the cheap poisonous compound called baking powder. Let it go with the "blind tiger." Melon Seed. We have the following varieties of water melon seed in bulk: Iceing White Rind, Iceing Dark Rind, Georgia Rattlesnake, Long Dixie, Myddleton Pure Seed, Great Jones—warranted to come up. A Great Satisfaction. It is a great satisfaction to scratch; but we haven't time just now. Use MONTHLY (One cent) scratch no more. Price 50 cents; by mail 60 cents. JOHN C. KUYKENDAL.

REPAIR WORK. Let us repair your buggy, wagon or surrey. We will do it right and do it in a hurry; Our work is good—of the very best kind; And at lower prices, you can't find. If your horse is in want of a new shoe, Why not let us put it on for you? We do repair work in iron or wood. We do it honestly—as all men should. We can sharpen your old dull plough; We do it right because we know how. Give us a chance to prove what we say. Come right now and don't delay. Our prices are the same to rich and poor. Bring repair work to CICERO MOORE. B. N. MOORE. W. B. MOORE. W. B. MOORE & CO.

DO YOU KEEP A COW? If so, Cotton Seed Meal and Hulls, Hay and Wheat Bran can be had at lowest prices by calling on us.

DO YOU EAT ANYTHING? If so our stock of Canned Goods is complete. By all means you should examine our half gallon glass jars of peaches for 30 cents and fourth gallons at 20 cents, which you will find something of a bargain, for aside from the quality of the peaches, the jar is worth the money. One case of 3-pound Standard Tomatoes, and one case of 3-pound Standard Sweet Corn for \$3.50, being four dozen at 87 1/2 cents. In Crabb's, we give two boxes of nice shells with each box free. Lobsters, three grades of Salmon, Salmon Steak is delicious. Fry it. Flour, Meat and Meal in large quantities.

BRING IN THOSE PICTURES—Diplomas, Commissions, etc., and select a piece of moulding out of which to make a frame, and secure a fit. Mr. Snider will insure a satisfactory job.

BUCKETS! BUCKETS! We buy these goods in car lots and can just sell you as low as the lowest, either wholesale or retail. W. B. MOORE & CO. For tobacco and snuff at wholesale, you can't afford to ignore us. LEWIS G. GRIST. SAM M. GRIST. GRIST COUSINS.

SEED SWEET POTATOES. WE expect to receive this afternoon a limited supply of Seed Sweet Potatoes of the SOUTHERN QUEEN variety, and also some as fine as you ever saw for eating purposes. If you want some of either kind you had better come and get them without delay.

ALWAYS FRESH. A most excellent and particular house-keeper called on us a few days after we commenced business for fresh produce, and remarked that she wanted ours because it was fresh. We desire to say right here that we never have any other kind. We only order one barrel at a time and sell it out so quickly—rarely more than a week—that it never has time to get musty. We sell 35 pounds for \$1; 17 for 50 cents; 3 for 25 cents. We handle the best grade on the market. LEMONS at 20 Cents a Dozen. We are selling choice Lemons at 20 cents a dozen. Did you ever buy them at that price before we commenced business? Banning and I are the only ones in Yorkville who are selling lemons. We are so sure of our prices that we VOLUNTARILY reduce the price.

HAMS at 12 1/2 CENTS. We have as fine, juicy Hams as were ever offered on this market at 12 1/2 cents a pound. They weigh from 8 1/2 to 10 pounds. Bologna Sausage at 10 cents. GRIST COUSINS.

A CRUCIAL TEST. THE STANDARD OF SUPERIORITY AS ESTABLISHED BY THE CHICAGO CYCLE EXHIBIT. BEGINNING on or about January 27th, of this year, what was probably the largest bicycle exhibit ever held in the United States took place in Chicago. The bicycle is now recognized as being a necessity to the business man of the large city, and in view of this fact the editor of The Real Estate and Building Journal, of Chicago, which represents a class of business men who use the bike perhaps more than any other one calling, decided, unknown to anybody, and without hope of reward, to find out, if possible, what is the best wheel on the market. Following is an extract from his report: "However, The Real Estate and Building Journal is in a position to make a selection upon merit and has done so in a way which cannot but afford satisfaction to its readers who must look in vain in bicycle publications for unprejudiced advice in making selection of wheel. Under the patronage of the exhibit, this paper assigned a trusted member of its editorial staff to act with a mechanical expert who has no interest in any particular wheel, and who, by the way, was formerly connected with the largest cycle manufacturing concern in the East. These two men, with the aid of the present expert, made a thorough examination of every line of wheels exhibited, carefully and judiciously weighed every claim made by the various manufacturers and noted all expressions of those most competent in making intelligent opinions. This exhaustive and painstaking search was conducted during the entire six days of the exhibit, and at its close the two representatives of this paper met to compare notes. Upon coming to a point of making a decision both were gratified—but not surprised—to find that each was awarded the honor of presenting superiority to the same wheel, viz, the Monarch. Both conceded that such a preponderance of points existed in favor of the Monarch, whether viewed from the vantage ground of the experienced mechanic or from the standpoint of the editorial writer who has had as much, if not equally long experience with the wheel, that no other decision could be given. The reader should remember this decision was arrived at after the most thorough investigation with no friend to reward, no enemy to punish and no interest save those of our readers to serve. In view of such facts those who have neither time nor facilities to make such investigation, may rely upon the justness of the verdict. Taken as a whole, the Monarch ranks above any and all other wheels, and is emphatically and unqualifiedly the best. For this reason we commend it above all the rest whatever claims may be made. This decision is based upon a fact which is above question or argument, and should be of benefit to every reader who contemplates that selection and purchase of a wheel for the coming season." GRIST COUSINS are agents for Monarch wheels. EXAMINATION OF TEACHERS. Office of School Commissioner of York County, YORKVILLE, S. C., March 27, 1895. LOUIS ROTH. MEALS FOR SALES DAY AND COURT WEEK. IT is useless to call the attention of those who have been to my RESTAURANT to the fact that during COURT WEEK they can get a delightful square meal at my place. They all know it. Their appetites and palates keep me in their minds. It is those who have never "taken dinner with me" that I am especially after, and once they get a taste of my viands, I will not have to send for them again; but can turn my attention to others who "thirst and hunger." Tooth picks and Cigars! LOUIS ROTH.

J. H. RIDDLE. OUR UNUSUALLY LARGE SALES OF FERTILIZERS FOR the past thirty days is conclusive evidence that we have succeeded in what we proposed sometime since, viz: To save our customers money when they would see us before buying. We have succeeded in our efforts to handle the

CHICORA HIGH GRADE FERTILIZERS AND ACID PHOSPHATE WITH POTASH—a goods of the highest merit and of startling results wherever used. We think it incumbent upon every farmer to think well before he makes his purchase of fertilizers, as upon the merits of the guano used largely depends the success of every farmer.

OUR STOCK OF STAPLE AND FANCY GROCERIES, PLANTATION SUPPLIES, HARDWARE, LIME, HAY AND SHINGLES is large and at prices that fully sustain our assertion that we do not make our money off of the men to whom we sell goods, but off those FROM WHOM WE BUY.

DON'T BUY GOODS IN OUR LINE FROM OTHERS AND THEN COMPLAIN TO US THAT YOU HAD TO PAY TOO MUCH FOR THEM. J. H. RIDDLE.

CAROLINA BUGGY CO. THEY ARE ALL GONE. SEVERAL weeks ago we advertised that we had a lot of BRAN NEW two-horse wagons for sale at \$40 each. We have none now because the price was so low and the wagons of such superior material and workmanship that the people came and took them away in a short time. We expect to get some more by and by and will let you know about them.

IN THE MEANTIME We will take this opportunity of saying that we are still manufacturing the FINEST and most stylish line of CARRIAGES, PHAETONS, STUBBEYS and BUGGIES ever offered in this section and would like to talk to you if you contemplate buying anything of this kind. We also have a lot of cheap buggies and can fix you up at almost any price you want to pay. CAROLINA BUGGY CO.

FRESH Mackerel for Breakfast. They are Extra Fine. Twenty in a Kit for only Seventy cents. They're fat. We have D. M. Ferry's Garden Seeds. They're Fresh. Try our Prepared Flour for battercakes. It's nice. FERGUSON BROS.
