ROCK HILL HAPPENINGS.

Mr. Hutchison is Mayor-A Box of Monkeys-An Incendiary Fire-The Tobacco Factory—Dedication of the New Church.

Correspondence of the Yorkville Enquirer. ROCK HILL, April 15 .- The result of the municipal election last Thursday was a surprise to many; not that the chances of the successful candidate, Mr. W. C. Hutchison, had been considered anything else than good from the time he entered the race; but few had any idea that he the race; but few had any idea that he would be elected by such a handsome majority. The vote stood as follows: W. C. Hutchison, 228; A. D. Holler, 60; A. H. White, 53; J. J. Hugins, 32. The total vote lacked 156 of coming up to the full registration. Mr. Hutchison is young, energetic and capable, and will prove himself, we feel sure, well worthy of the high trust reposed in him by the people of Rock Hill.

Good Friday was a holiday for the teachers and pupils of the graded school, and quite a number of the boys spent the day at the river.

"A Box of Monkeys" is the title of the play which will be presented in Roddey's hall next Tuesday night by local talent. Some of our most popular young people are in the cast of characters, and the entertainment is given under the auspices of the King's Daughters.

About 10 o'clock on Saturday night, Mr. B. M. Fewell discovered fire in a room

of the King's Daughters.

About 10 o'clock on Saturday night, Mr. B. M. Fewell discovered fire in a room over the store of Fewell & Co., in which cotton samples were kept. He called assistance and succeeded in putting out quickly what might have proved a very disastrous conflagration. There is a strong suspicion resting upon a colored man of having been the incendiary.

Ground has been broken and work begun on the buildings of the tobacco factory. Contractor Adams is in charge of the job, and the work will be pushed forward rapidly and steadily to completion.

The weather yesterday morning was all that could have been desired, and joy and gladness seemed to fill the hearts of all the Easter throng that attended the different places of worship. Both the Methodist and Episcopal churches were tastefully decorated, and services specially appropriate to the occasion were held in each. There were no services at the Baptist church, the pastor and people joining in the vast crowd of worshippers that attended the dedication services at the First Presbyterian church. Some time before the hour appointed for beginning the services, the main body of the church—pews, aisles, and galleries—had been filled, and the Sundayschool annex was also filled in a short time after it was thrown open. On the rostrum, the front of which was beautifully ornamented with calla lilies and other potted plants, were seated Revs. J. G. Richards, J. H. Thornwell, W. B. Jennings, W. M. Anderson and Alexander Sprunt. The programme announced in my last letter was carried out, and the closest attention of the large audience seemed to be enlisted from the opening anthem by the splendid choir, to the the closest attention of the large audience seemed to be enlisted from the opening anthem by the splendid choir, to the benediction which closed the morning service. The sermon by Rev. Mr. Jennings and the addresses by Revs. J. G. Richards and J. H. Thornwell, were thoroughly enjoyed. Mr. Jennings's theme was "Christian Enthusiasm," and his sermon was one of great beauty and power.

his sermon was one of great beauty and power.

In the afternoon, addresses were made at the First Church Sunday-school by Rev. W. M. Anderson and Dr. W. S. Currell, of Davidson college, and Rev. W. B. Jennings gave a talk at the White Memorial Sunday-school.

The church, including the Sunday-school room, was filled again last night when Rev. W. M. Anderson preached a splendid sermon on the "Value of Man," from Psalm viii, 4-5, and the pastor, Mr. Sprunt, read a very interesting historical sketch of the founding and progress of the church now under his charge.

DEPEW ON SOUTH CAROLINA.—Chauncey M. Depew seems to be very much concerned about the political situation in this State. In an interview a few days ago upon the general subject of Southern elections, he said:

"With Wade Hampton and M. C. Butler and the aristografic element that they

ler and the aristocratic element that they represent deposed; with the Negro disfranchised and with Tillman securely seated in power, what nethod will be taken to secure justice? There is only one place and that is the national convention. What is more natural than that the tion. What is more natural than that the better element should appeal to the place that promises relief? What is more likely than that Wade Hampton, M. C. Butler and other leaders of this class in South Carolina, should come knocking at the door of the next Republican national convention. I predict it. The only way to secure relief is through the Republican party. The solid South is being broken up and Mr. Tillman will be disposed of upon this line of reconstruction."

Tillman to Speak in Florida.

Senator Tillman has accepted an invita-tion to deliver an address at Micanopy, Fla., on May 8th, the occasion being the laying of a corner stone to the public school building. There are a number of South Carolinians who have settled in that part of Florida, and they were, no doubt prime propers in getting the senadoubt, prime movers in getting the sena-tor down there. The people of that little town are expecting fully 5,000 people to be present on the occasion.

\$100 Reward, \$100. The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and nucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. KUYKENDAL'S QUID PRO QUOS.

Hand This to Your Neighbor.

A chill in its two stages represents the frigid and torrid zones In the first stage, you feel as if you were on "Greenland's Icy Mountains." After shaking hard enough to stop the clock on the mantel, the Icy Mountains." After shaking hard enough to stop the clock on the mantel, the transition stage occurs and you feel as if you were 45 degrees south of where Afric's sunny fountains roll down there auriferous pyrites, with a dislocated spine, a fractured skull and a thirst that all the water of Pharpar could not quench. And in addition to all this, you experience a prolonged sensation that exceeds that of the oft referred to dog. This is a faint description of a "Black Jack" chill. It would not be natural for one to harbor or nurture the chills. You want to get rid of them, and the way to do it, is to take a box of our Chill Pills. Every box warranted to cure any case of chills if taken according to directions, or the price refunded. They not only cure the chills, but are a splendid tonic; acting on the liver, purifying the blood, giving appetite, restoring color and strengthening the system. Price 65 by mail, postage free. Sold only by John C. Kuykendal.

The Ideal Wife. The Ideal Wife.

Bill Nye writing about the ideal wife says "she looks well after her children, [keeps Anti-Ferment always in the house] and becomes thereby the mother of good citizens. She makes the world better by having lived in it, and of such is the kingdom of heaven." The observation in brackets is ours. Not so eloquent and so sentimental as Nye's, but well put in.

Mr. Kimball. Kimball of Rock Hill deposes and says that Anti-Ferment is a great remedy for colic in horses. He has frequent occasions to use it and it has never yet failed in his hands

In the Dead of the Night, In the Dead of the Night,

When the flames in the fire place are dying in spasmodic flickerings, a sound ominous and alarming breaks the stillness of the household and wakes the mother quicker than the shock of an earthquake or the fearful roar of the cyclone. It is the well known and dreaded cry of a child with croup. In cases of this kind what a comfort it must be to have a bottle of Campbell's Cough Cure in the bottle of Campbell's Cough Cure in the house. It cures croup, as one said who had tried it, in 20 minutes.

The Mother's Kingdom Is not alone in the parlor, the dining room or the nursery, but the kitchen comes in for a full share of your oversight, comes in for a full share of your oversight, for wholesome food, especially bread, is required at your hands. And ladies when thou comest into this part of thy kingdom, remember our Perfect Baking Powder. It assures you of beautiful, nourishing biscuits, light spongy waffles and delicious cakes. It excells in everything in which a baking powder is needed. In bulk and cans. Price reduced.
