

ment, the town is to load and unload the rock, and the railroad is to deliver them in Yorkville. It is understood that the convict gang is to be put to work loading rock at the earliest practicable date, and the streets mentioned are to be put in first-class condition without delay.

Monday Was Hottest. "Hottest day we have had this week," was a stereotyped remark from Saturday up to Wednesday noon. The record, however, shows that the highest temperature was reached on Monday, when the mercury went up to 98°. The highest point reached on Wednesday, was 93°, but the rain on Wednesday night, cooled the temperature down to 63°. The rainfall averaged one-fifth of an inch at this place.

Twelve Pages Next Friday. Next Friday's ENQUIRER is to be a special souvenir edition of twelve pages. Among other things, it will contain a sketch of THE ENQUIRER from its inception up to the present time; the opening chapters of our splendid new story Teresa; miscellaneous and news matter, the annual report of the county treasurer, and special and general advertisements of a number of business men. It is our purpose and desire to place a copy of this special edition in the hands of every family in York county. So let everybody be on the lookout for it.

Machinery for Lockhart. Nine carloads of heavy machinery for Lockhart Shoals factory have reached Hickory Grove, and the machinery is now waiting to be transferred to and down the river. Messrs. Wilkerson and Martin have put the road from Hickory Grove to the river in good condition, and the boat in which they expect to do their carrying is nearing completion. Some people in the neighborhood say that the machinery is so heavy that it can never be gotten to the factory by the means proposed. Messrs. Wilkerson and Martin know what they are doing, however, and the machinery will surely go.

Raising Tobacco. The vicinity of Leslie station is developing into quite a tobacco producing section. At the present time there are about 90 acres under cultivation within a radius of a few miles of the station, and the present prospects for a good crop are fine. In many of the tobacco fields, we are informed, it is no usual sight to find plants that measure from 18 to 22 inches across. The following farmers are cultivating crops of from 2 to 25 acres each: R. H. Cornwell, D. H. Neely, D. B. Culp, F. P. Giles, T. F. Leslie, D. P. Leslie, W. S. Boyd, C. L. Williams, J. T. Boyd. They are working under the instructions of an expert from North Carolina.

Sudden Deaths. Two colored women of the community have died suddenly within the past few days. Lydia Witherspoon, aged about 40, worked all day Monday in a field on the eastern outskirts of Yorkville. On Tuesday morning she felt too unwell to go back to her work, and later in the day she died. Her death is thought to have been due to sunstroke. Jane Alexander, aged about 60 years, was on her way to her home in Liberia, in the same neighborhood, late Wednesday afternoon. She was taken suddenly sick, and calling for help, she was assisted to the house of a neighbor. A doctor was sent for; but before he arrived, she was dead. The doctor said her death was due to "heart failure."

Yorkville Graded Schools. A special meeting of the board of trustees of the Yorkville graded schools, was held last Wednesday, and a vacancy in the board was filled by the election of Mr. W. J. Waters. The board is now composed as follows: J. F. Wallace, chairman; W. T. Barron, secretary and treasurer; J. E. Lowry, C. E. Spencer, F. A. Gilbert, D. E. Finley and W. J. Waters. As will be noted by reference to the advertisement in another column, the annual school meeting, and an election on the question of continuing the two mill special tax, has been called for Friday, June 21st. If the tax is voted—as there is every reason to believe it will be—the school will be continued as heretofore, with Prof. Banks as principal, and Misses Gist and Allison as teachers.

These are Neighbors. Possibly it is the same way elsewhere; but if so, the Christian religion has made more progress than we have reason to believe. The circumstances of the recent destruction of the residence and household belongings of Mr. J. R. Hogue, of Beersheba neighborhood by fire, were mentioned at the time. While the ashes of the burned building were still smoldering, Mr. Hogue's neighbors gathered in from all quarters, divided with them their means, took their teams from their work, and went with him some 12 or 14 miles after the lumber for a new house. Just how much Mr. Hogue's neighbors contributed toward replacing his heavy loss, we do not know, nor does that seriously matter. All went down into their pockets deeply, and by their practical sympathy at

the time and since, have made the heavy loss easy to bear. As beautifully expressed by Mr. Hogue and family in another column, "we have been made to feel that we are among Christians." The Speakers at Tirzah. The committee charged with the task of securing speakers for the occasion of the Alliance encampment at Tirzah, has gone about its work on a big scale. It intends to invite Sibley, Bryan, Tom Watson and Marion Butler. Also Tillman, Irby, Governor Evans, W. D. Evans, Dr. Strait, W. A. Neal, Talbert, Keitt and a number of others. The committee has good reason to hope that Bryan and Sibley will be present, and is certain that Senator Tillman and Governor Evans and other leading Alliance men in this State, will be on hand. One of the committeemen informed THE ENQUIRER on Monday that he had reason to believe that the encampment would be the occasion of the largest gathering ever seen in York county, except, possibly, at the King's Mountain centennial.

THE MORGAN & WRIGHT PNEUMATIC BICYCLE TIRE is without doubt the BEST on the market. It is said that three-fifths of all the bicycles in the United States, and there are over 1,000,000—possibly 2,000,000 in this use, are fitted with M. & W. tires. This is a wonderfully large proportion when you take in consideration the fact that there are not less than 15 to 20 different makes on the market. A single pair of M. & W. tires have been ridden 10,000 miles. They have the unqualified endorsement of the riders of the world, and here is a sample from H. J. Franklin, of Lansingburg, N. Y.: "I have used your tires for three years, and as I enter my fourth season I must thank you for the comfort and pleasure that I have in using tires that do not break down and cause trouble for the rider. In the four years that I have been using these tires I have had no puncture. I never think of carrying my repair kit." These tires are worth from \$10 to \$15 per pair. We can have them fitted on any wheel. We are agents for this section. GRIST COUSINS.
