LESSON X, THIRD QUARTER, INTER-NATIONAL SERIES, SEPT. 6.

Text of the Lesson, I Chron. xxii, 6-16. Memory Verses, 11-18-Golden Text, Pa. lxxxiv, 4—Commentary by the Rev. D. M.

6. "Then he called for Solomon, his son, and charged him to build a house for the Lord God of Israel." It is written of Dasoever he went, and that he reigned over all Israel, executing judgment and justice preparation for the temple which he de-sired to build for the Lord and which was built by Solomon on Mount Moriah, where Abraham offered up Isaac, and which David afterward bought from Arannah or Ornan the Jebusite.
7. "And David said to Solomon, my

son, as for me, it was in my mind to build In the middle ages cats were or a house unto the name of the Lord my ten kept in nunneries, and this may God." In chapter xxviii, 2, he calls it, "An ditional association with old maids.

of the Lord." The ark was the symbol of the presence of God, for He told Moses mune with him from above the mercy seat from between the cherubin, and that there He would dwell among them (Ex. xxv, 8, 22). Nathan the prophet thought so well of David's plan that he said, "Do all that is in thine heart, for God is with thee' (chapter xvii, 2).

8. "Thou shalt not build an house unto my name because theu hast shed much blood upon the earth in my sight." This was the Lord's message to David through Nathan. Compare chapter xviii 8. There was a ceremonial uncleanness connected with the shedding of blood (Num. xxxi 19, 20), but from the words of Solomon to Hiram in I Kings v, 8, it would also seem that If you wish succes in life, make the hindrance to David's building the for a time of rest. The tabernacle of Moses your elder brother, and hope your and its lessons are very applicable to the times in which we live, while the temple of Solomon rather points to the next age,

omon shall reign.
9. "His name shall be Solomon (peace people ought to pay you, and what able), and I will give peace and quietness unto Israel in his days." Thus said the Lord of him who should build the temple, loved of the Lord) (II Sam. xii, 25, and margin) is also very suggestive of Him who is the true beloved and also the Prince Bible, because he cannot see through of Peace. "He shall build the temple of everything it contains, might just as the Lord, and he shall bear the glory and shall sit and rule upon his throne, and he shall be a priest upon his throne." Behold the man whose name is The Branch (Zech. vi, 12, 13). Compare Jer. xxiii, 5, 6.

10. "He shall build an house for My name, * * * and I will establish the throne animal home that it was his own cow of his kingdom over Israel forever." While Solomon is surely referred to in these words and in this lesson and also the temple which he builded, we may well say in the words of our Lord, "A greater than Solomon is here" (Luke xi, 81). A shure, an' its done me a wurruld of throne established forever could not be for good goin' away. I've come back another man altogether; in fact, I'm et, knew that God had sworn with an oath to him that of the fruit of his loins, according to the flesh, He would raise up Christ

> thing concerning the temple were given to David by the Spirit of the Lord (chapter xxviii, 12-19). All that Solomon needed was wisdom to carry out the plan, and the same Spirit who gave the pattern would give the wisdom to complete the work, if only Solomon would rely upon Him. God has a plan and purpose concerning the completion of the church, and the Spirit will carry out the plan through us if only we are willing and obedient. See Eph. ii, 10; Heb. xiii, 20, 21; Isa. xiv, 24; xiiii, 18.

> 13. "Then shalt thou prosper. * * * Be strong and of good courage. Dread not, nor be dismayed." The secret of prosperity is found in taking heed to the word of God, meditating therein day and night that we may observe to do all that is written therein, according to Josh. i, 8, 9. Thus the Lord himself will be our strength, and fearing Him-that is, fearing to grieve comfort of Isa. xli, 10, and Jer. xxix, 11,

> will then be ours. See also Deut. xxxi. 8 14. "Now behold, in my trouble I have prepared for the house of the Lord an hun-dred thousand talents of gold and a thousand thousand talents of silver." This, beabundance of timber and stone. Valuing a talent of gold at \$25,000 and a talent of silver at \$1,500, which is a very low valuation, we have here gold and silver to the value of \$4,000,000,000. Then from in gold and \$10.500,000 in silver (chapter xxix, 4), while the rulers gave \$125,000,000 in gold and \$15,000,000 in silver. Thus we have a total in gold and silver alone of more than \$1,225,000,000 (four billions two hundred and twenty-five millions) for

16. "Arise and be doing, and the Lord be with thee." It is written in Dan. xi, His purposes, His power, and, while bear ing His name, yet not in sympathy with Him? He is with us. He has given us all things. He has all power. Let us set our heart and soul to seek the Lord our God

WATERING AND FEEDING.

orders of the horse and mule are brought about by injudicious feeding and watering.

Since the stomach of the horse is very small in comparison to the frame this; then wash off thoroughly and it immediately suggests the question, rub in glycerine. Those who suffer how often ought we to feed the horse and the mule?

Water stays but a short while in the stomach of the horse or mule, and cardinal rule in watering horses is: relief. Water before feeding."

If a horse or mule comes in exhausted or wet with sweat, it is well to allow a moderate draft of not too cold water. Next rub the animal dry, after that give him a reasonable amount of water and feed grain, hay or fodder. Experience teaches us that feeding the domesticated horse three times daily is sufficient. If old and unable to masticate the grain properly, as shown by whole grains appearing, which at the same time may be due to diseased teeth or too greedy a nature the former to be corrected by the veterinary dentist, the latter by putting a couple of cobblestones in the manger, thus forcing the animal to pick the food from between the stones slowly-ground feed is indicated, while any change in feeding must be a gradnal one.

Horses should not be fed when heated or immediately before or after hard work. A very wrong idea prevalent among our people is to feed the horse or mule an extra mess because he is about to do some extra hard work on the farm. In either case positive harm is most likely to follow such practice and invariably can a fatal case of indigestion be traced to feeding or watering while the animal was either too hot, exhausted, or fed shortly before or after hard work. Regularity in feeding is very desirable to

keep up healthy digestion. Overlengthened abstinence is in itself injurious and the mischief is often aggravated by the animal eating in excess when he finally gets his food. An overhearty meal is hurtful at any time and especially so when the stomach is weakened by long fasting, hard work, hot weather, etc. Mouldy hay, artificially dried oats and corn and the drinking of stagnant or muddy water is at no time "good enough for the horse or mule."

THE MISTAKE OF MOTHERS.-Thousands of mothers slave, grow permanently old, forget and neglect their own accomplishments, and drag themselves about as mere appendages, something between a nurse and a housekeeper, to a daughter too young to realize or appreciate the sacrifices made for her. It is every person's business to make all of themselves possible, morally, mentally, physically, and thus settling down at 35 or 40 into an old woman and taking a back seat, that the daughter may shine, is a mistake and defeats the very end sought. There's often too much done for children, and the chief result is making them helpless, dependent creatures.

Mothers today are saying, "I don't Leave Blacksburg..... Leave Patterson Springs... Arrive at Shelby...... Nettie get their full quoto of accom-plishments;" when, if that mother went on building herself up on the basis of her own matured experience, and ceased to sink and absorb herself so completely in Effie and Nettie, the world with which she came in contact might be profited. Society needs matured women as live, potent factors, and the shining should not be left entirelf to fledglings. Were there time and space, a word would be said time and space, a word would be said here on this matter for the old man, too, though he is more apt to take care of himself.

Common Errors.—The man limits himself to two meals a day, or limits himself to two meals a day, or soon becomes dyspeptic, says a writer in the Boston Journal of Health. Every 24 hours he needs just so much food to supply the wants of his system. If he practices long abstinence, then, when he next eats, to supply the requisite material, he craves and takes more into his stomach than he can properly digest. The victim be comes nervous and irritable, work which was formerly easy to, and a pleasure for him, has become a task. It is at this point that many men be-

gin the use of stimulants. Prejudices against them are easily satisfied if one feels that he needs them. For a time alcohol or malt liquors seemingly act well. They "pull him together;" he is more cheerful, and he doubtless feels certain that he has found his much needed remedy. He is simply "poking the fire from the top," and soon it burns lower, finally threatens to go out, and our man is broken down with nervous prostration, caused by over work, as he and his friends think; but in reality, by his own stupid, sinful and
