Saturday, June 19, 1897.

novel sight. For a considerable portion firm, by all our physicial powers and of the distance it was nip and tuck between the wheel and dog, and Mr. Thomasson was in constant apprehension of losing a piece out of one of his legs. Finally, however, the dog became disgusted and gave up the chase as a bad job, and Mr. Thomasson, though not inclined to drop out first, was not sorry when the race ended.

LETTER FROM HOODTOWN.

Severe Electrical Storm-Condition of the Crops-Children's Day Picnic-Rev. Peyton Hemphill.

Correspondence of the Yorkville Enquirer. HOODTOWN, June 17 .- One of the most

severe electrical storms we have witnessed in a long while, passed over this section Saturday evening, just about dark. The rain was not very heavy; but the wind and the almost constant play of electric-ity were enough to make timorous even the most brave-hearted for a short time. Some trees were blown down and others struck by the lightning ; but no damage was done to crops. At Mr. Jno. T. Whitesides's plantation-two and-a-half miles from here-there was a considerable fall of hail, over a very small territo-Crops were badly torn up and ry. beaten by the hail; but not badly enough to materially injure the prospect of a crop. Fences were also blown down for some distance in places.

The crops are generally growing finely where they have been properly cultivated. I cannot recollect to have ever seen a greater transformation in the appearance of crops in so sort a time, as that of the past week. Cotton, especially, presents a thriving aspect, although some lice are to be found on it here and there. Small grain is now being harvested

and is better generally than for severa years; but so little was sown that little can be reaped at best.

Preparations are being made for a gen eral picnic and "children's day" exer cises at this place in the not far distant future. We will probably have more to say of this in another letter, when the program shall have been arranged.

Rev. Peyton Hemphill, of Georgia. who has been visiting relatives and old acquaintances in this county for a few weeks, filled the pulpit of Rev. Swann, at Bullock's Creek last Sunday. He is not known to the younger people ; but those of maturer years recall that he was born and reared but five miles from here. Surely it is a pleasure and privilege not accorded to but few in like circumstances. to be able to visit the scenes of childhood and youth after such an abscense-about 25 years. He paid a visit to the place of his birth two weeks ago; but the tenderest chords of his heart doubtless entwined around old Bullock's Creek, where lies the remains of his mother and probably other relatives. VOCE.

BLACKSBURG BUDGET.

Work on the Gaffney Extension-House to House Meetings-Personal Mention.

Correspondence of the Yorkville Enquirer. BLACKSBURG, June 18.—The first cross ties and steel rails over the new road from here to Gaffney, were laid on Friday, the 11th instant, and the work is still going on under the supervision of Mr. Ed. Smith of this place. The grading of the road has been much hindered by the difficulty of getting and keeping a regular force of hands, and as the days grow warmer, the less disposed are the dusky sons of toil to expose themselves to the has the masonry and trestle contract, will be ready by Monday next to begin work

hearts, not to sit supinely by and witness this Negro horde turned loose upon the pursuits of our mothers, our wives, our widows, our daughters, our sisters, and rob them, of their living." Pinkussohn Closed Up. The dispensary law of South Caro-

lina is to be brought before the courts once more, says a Charleston dispatch of Thursday to the Columbia Register. This afternoon J. S. Pinkussohn's "original package" agency was seized by the state authorities, the proprietor taken before a magistrate and his store

closed up. This action is taken under section 22 of the dispensary law, which declares that any place, other than a state dispensary, in which liquors are sold shall be considered a public nuisance. It is probable that the case is made to test the validity of the "original package" decision, recently issued in the United States courts. Pinkussohn's agency was the first to be opened under the decision, and it is evidently the intention of the state to attempt to break down the original package business which is rapidly springing up under the court's recent decree.

AN HONEST CONFESSION. -- This newspaper is an enemy of the protective tariff system, and Senator Tillman, as it has believed for a decade, is a protectionist at heart. Yet The State, with all its dislike for the senator and for protection, is not able conscientiously to denounce his vote for a bounty on agricultural exports. The fact is that, whatever his purpose, the effect of his speech and his vote was to put protection by tariff "in a hole." -Columbia State.

AT THE CHURCHES.

Officers to Serve Without Pay.

Columbia Register : The officers and clerks at the state house have no very cheering prospects before them for a month or two this summer. The outlook is that they may have to worry along without any salaries. As is well known there is to be a deficiency in the treasury of about \$100,000, and the only way to raise it is by borrowing. Some of the state officials who wil thave to arrange the loan are much opposed to making it, saying that it will be easier for officials and clerks to get along for a couple of months without salaries than it will be for the state to borrow money at from 5 to 6 per cent. The outlook is, therefore, that no money will be borrowed and that offi-cials will have to wait until taxes are collected.

Race Trouble Brewing.

The trouble in the Charleston cotton mills has broken out afresh. Last Wednesday a number of handbills were distributed on the streets, which contained an address to the public and The was signed "Many Operatives." address is very lengthy and sets forth the grievance of the white operatives, and protests against the employments of Negroes in the mills. "Some (that is, white operatives,) had applied and been refused employment," the address says, "because their complexion clearly indicated they were not tinged with Negro blood." The address concludes with these words : "But, as a hereditary right, we claim for our race the first prints of the land, and are determined to oppose all foreign socialists or southern apostates who at- and the O. R. & C. railroads. tempt to deprive us of them. We af-
