The work of the committee on publicity and promotion was also done in a thorough manner. Messrs. W. B. Moore and S. L. Hobbs had the principal direction of this work; but all the members of the association gave all the assistance in Telegraphic Summary of More their power. Lithographs and small bills were distributed everywhere, the newspapers in adjourning towns gave pleasant notices, and different members made trips up and down the railroads. All the wheelmen all about were interested, and they were here with their friends and acquaintances from everywhere. York county was particularly well repterday morning by private conveyance. All the incoming trains brought big crowds, and by noon the streets, stores and hotels presented the appearance of a circus day, with the exception that the visitors generally, ladies and gentlemen, constituted a thoroughly genteel aggregation-one calculated to excite admiration

The day's programme opened with a the Queen City, Rose Hunter and Arlington (colored) reels. Two heats were run. Distances were not measured in either case. The three companies stationed the fire alarm ran for it. A bystander knocked out. The work of the Queen shot. City's and Arlington was admirable. No effort was made to secure absolutely accurate observation, and opinions differ as to which threw water first. They were very close together, but the weight of testimony was in favor of the Arlingtons. In the second contest the Rose Hunters got there first with water; but it was without a nozzle. The Queen Citys and Arlingtons were again close together. It looked like a tie and probably was.

The next interesting feature of the programme was the military parade on bicycles. The company was composed of about 30 boys and girls, in costume, with elaborately decorated wheels and under command of Mr. W. B. Moore. The parade passed through the streets to the grounds, executing in fine style military movements, such as forming twos, fours, etc. The parade ended at the racing park with a circuit of the track, and the really meritorious work of the riders won considerable applause.

In the programme, of course, could only be published the list of riders in accordance with applications. Those who presented themselves at the tape during the

BLACKSBURG BUDGET.

cess-To Visit the Soldier Boys. Correspondence of the Yorkville Enquirer.

BLACKSBURG, May 16 .- The condition of the crops in this section is about as follows: A great deal of cotton has been planted, and there is generally a very good "stand." Early planted corn did not come up so well on account of cool weather and a beating rain; but that planted later makes a very good showing. The oats crop looks fairly well, but is needing rain badly. Wheat never looked better, and if nothing happens to it, an our township, which will, of course, be a welcome relief to the farmers, considering the present high price of that important cereal.

The bazaar given by the Ladies' Guild of the Episcopal church, in Cherokee Inn hall, on the 6th instant, notice of which was given in THE ENQUIRER of the 4th, was a very gratifying success, both for its social and financial features. The hall, which was tastefully decorated with festal and national colors, was well filled with an excellent and animated company, there was an intelligent instrumental nusic, a fish pond which delighted the children, elegant refreshments for all, and the sum realized was nearly \$50.

Thursday last, the members of the Baptist Sunday school, took for a picnic day. They went to that cool, delightful retreat on Broad river, near the O. R. & C. branch road to Gaffney, known as Goat Island. It is needless to say that the day, which was fine, was largely enjoved by all.

THE EARLY BIRD **GOT THE WORMS**

EARLY last August, the MONARCH CYCLE COMPANY manufacturers of the Monarch and Defiance Bicycles made an estimate as to how many "Defiance" wheels would be necessary to meet the demands for the best medium price on the market and concluded that 24,000, basing their calculations on the demand for the season then drawing to a close, would be sufficient, and laid in the necessary material for making them and started to work. The series included six models—three for gentlemen and three for ladies as follows: A gents and ladies' Defiance at \$50, another pair at \$40 and a third pair at \$35. As soon as the trade—riders—saw the wheels it went wild, and by May 1, the whole output had been sold. BICYCLES TO RENT.

WE have decided to increase our bi-

cycle livery business, and in addi-tion to our Monarch Tandem—the finest

double machine in the country—have this day added a Lady's 1898 Monarch and a Monarch 1898 Road Racer, a pair of as fine

machines as can be found on the conti-nent, and will rent them by the hour or for the afternoon or forenoon to LADIES and GENTLEMEN who know how to
