"Now the first day of the feast of unleavened bread the disciples came to Jesus, saying unto Him, Where wilt Thou that we prepare for Thee to eat the pass-over?" This was of all passovers the over?" greatest, for it was the last, the consummation and fulfillment of all that had ever been. He said concerning this one, "I have heartily desired to eat this passover with you before I suffer" (Luke xx, 15, margin). And He also added that it would have a fulfillment in the kingdom of God. The first passover was in connection with the deliverance of Israel from Egypt. The still future fulfillment will be in connec-

Pretend to Farm Without It.

SEVEN YEARS ago, Mr. W. Holmes Hardin, of Chester county, enjoyed the distinction of being one of the most practical and successful farmers in the Piedmont section, and according to the best information at hand he still ranks among the first. The appended endorsement of the Corbin Disk Harrow was written by him in March, 1890, and what he said then we are sure he will endorse now. Read it and do some thinking:

CHESTER, S. C., March 27, 1890.
SAM M. GRIST, Yorkville, S. C.: Dear
Sir: I have owned a Corbin Disk Harrow
for several years, and consider it the most nest and economical farming implement of which I have any knowledge.

Mr. Corbin has done more for the farmer than all the politicians, reformers, etc., combined. He has done something practical. No farmer can fail to be benefitted by the use of the Harrow, and the more it is used the greater the benefit or profit. It is almost the only so-called improved farming implement that I have ever seen that would do all its manufacturers claimed for it, and the only one that would do more. Every farmer should have one, and a man who is able to buy fertilizers for his land is more able to buy a Corbin Disk Harrow. The time will come when the Corbin Disk Harrow will be considered as much of a necessity on the farm as the wagon, sewing machine, cooking stove, and I might say, the plow; and the sooner it comes the better for the farmer. It only takes a farmer, who has been active. that would do all its manufacturers claim It only takes a farmer, who has been ac-customed to the old way of doing things, about one hour to realize how much time and labor he has literally wasted before he used the Corbin Harrow. In conclusion, let me say that I would not pretend to farm without it. Respectfully, W. HOLMES HARDIN.

We sell the GENUINE CORBIN DISK
HARROW. It has never had a successful rival. If you want a so-called Spading or Cutaway, we can furnish you one made by the manufactures of the Corbin.
The Corbin has solid disks and they are the best; but as stated we can furnish the other if you prefer to take the opinion of someone who has had less experience than
