"JUST AS GOOD."

We are satisfied that the agents for all plows besides the genuine Oliver, in order to make sales, will tell the farmers that their plow is "just as good as the Oliver." They know that the Oliver is recognized the world over as the most perfect plow ever made, and that no man who has ever used one in accordance with the plain instructions given, has ever yet been disappointed, and that it is the only genuine chilled plow made. There is one important point that often escapes the attention of the farmer in search of a plow. He forgets that all plows need repairs. He also forgets that perhaps he or a neighbor has a plow that is no longer manufactured, the factory that made it having failed, and the plow, although considered a good one, is useless because the repairs cannot be bought, and the plow that an agent is trying to sell him may be useless in a year or two for the same reason. Please bear in mind that history repeats itself.

Oliver Plows Are the Standard.

Having been on the market for about 30 years, and are made by the wealthiest plow concern in the world, as well as the largest, and will be in business when three-fourths of the would-be competitors who are trying to palm off cast plows on the farmers as "chilled" are out of business. For the foregoing reasons, it strikes us that the wise farmer will buy the Oliver every time, aside from the fact that there is not a shadow of doubt but that it is the best.

\$15.00 COATS AND VESTS AT \$1.25!

Let everybody understand that I am in the Clothing business to sell CLOTHING. I sell it at prices to suit my customers, and on next THURSDAY, FRIDAY and SATURDAY, the 10th, 11th and 12th instant, I propose to cut my prices, not only on Clothing, but my entire stock, on the days mentioned.

TEN PER CENT. is the amount of the cut decided upon, and it includes Ladies' Capes, Jackets and Dress Skirts. Let everybody avail themselves of this opportunity and SAVE 10 CENTS on every dollar's worth of goods you might need in my line.

Below will be found a few lots of Coats and Vests, which will give you an idea of what I expect to do the last three days of this week:

LOT NO. 1.

Clothing Lot No. 1 consists of Coat and Vest; pants sold out. The Suits were formerly sold at from \$10 to \$15. In this sale \$1.25 will be my price. Just one and a fourth dollars while the goods are worth from five to ten dollars. These garments are 3-Button Cut-aways and the sizes I have are Nos. 33, 34, 35, and they are bargains of the highest class.

LOT NO. 2.

Lot No. 2 consists of Round Cut Sack Coats and Vests, sizes 36-42. Worth \$2.50 but I am going to let them slide at \$1.24.

Lot No. 3. Round Cut Sack Coats and Vests. Pants sold out. Previously the suits sold for six and ten dollars. My price for next Thursday, Friday and Saturday will be only \$2.98.

Lot No. 4 consists of a splendid line of Gents' Gray Melton Overcoats, worth \$2.50. On the days specified they are to go for \$1.50. The biggest value of the season. Buy your Clothing from Strauss. He cuts his own prices.

STRAUSS'S SHOES.

My \$1.00 English Ties are now going at 89 cents. This is a value that you can't get elsewhere. The former price was \$1. I bought last week a big lot of Men's English Ties which have always been sold on this market for \$1.25; but will go now as long as they last at \$1!

My shelves are groaning under my Shoe stock. I have all kinds of Shoes for men, women and children and no one can touch me on price not to mention quality.

This is an opportunity of your life. Act and act quick. I have cut the price and have showed you how to save money. It is your fault if you don't do it. CLAIMS AGAINST YORK COUNTY.

THE time fixed by law for the annual meeting of the county board of commissioners, the THURSDAY after the FIRST MONDAY IN NOVEMBER. But as the fiscal year does not end until December 31, the annual meeting will not take place until some time in December.

All persons holding claims of any nature or kind against York county, are required to present the same to the clerk or supervisor, and sworn to according to law, on or before the 31st day of December, 1898. "No claim against any county of this state shall be valid and payable unless the same be presented to and filed with the county board of commissioners of such county during the fiscal year in which it is contracted, or the next thereafter." FOR SALE.

The King's Mountain Military School Property. THE undersigned trustees will, up to DECEMBER 1, 1898, receive bids for this property, reserving the right to reject all bids.

The lot contains NINE acres of land, and the buildings, with comparatively slight repairs, may be made admirably suitable for a COTTON FACTORY, as the following letter from an experienced mill man shows:

YORK COTTON MILLS, YORKVILLE, S. C., October 22, 1898. Mr. C. E. Spencer, Yorkville, S. C.

DEAR SIR—Replying to your recent favor, I was just on my way to train to see you several days on business for my company and could not reply earlier.

As already stated, I think \$5,000 would be a fair estimate for the changes necessary in the existing building to make it suitable for a cotton mill.

To build new, with the same amount of floor space, would cost \$13,500, and would have capacity for about 4,500 spindles, spinning yarns from No. 2s to No. 40s.

Yours truly, (Signed) P. M. GRIMES. J. F. WALLACE, E. SPENCER, I. D. WITHERSPOON, Trustees, November 9 w 3t

DON'T BE AN OSTRICH. AN ostrich will stick his head in the sand and assure himself that he is safe from all harm. To shut his eyes he would be just as secure from danger, and would require much less effort, and it is to the eyesight of the public that it is to be protected in the purchase of "protection" against loss by fire. Their eyes are never opened until it is too late, and they find that their policy is a myth, written in the clouds, and that it would never become a claim. When you want trustworthy, time-tried, fire-tested and reliable fire insurance see me. My agency is the strongest.

FIRE IN THE CAPITOL.

Explosion of Gas Works Disastrous Results.

A disastrous fire occurred in the National Capitol at Washington last Sunday afternoon as the result of an explosion of gas near the bottom of an elevator shaft.

The exact cause of the explosion is unknown. A large gas meter was located at the bottom of the shaft and a number of jets were burning there continually. It is supposed that one of the jets was blown out by a draft of wind, and that the escaping gas which was afterward ignited, caused the explosion.

The portion of the building which suffered most was the supreme court room, located near the shaft. The flames got among the books and papers and much damage was done by the flood of water that was necessary to extinguish the fire.

As a result of the explosion, the Capitol was shaken from centre to circumference. The report was heard all over Washington.
