

join his family. Postmaster General Smith was also another cabinet officer to quit Washington today.

Naturally the announcement of yellow fever at the Home and the large number of patients suffering, caused the greatest excitement among the guests of the hotels at Old Point, and additional alarm was spread by the knowledge that three large excursions had arrived at Old Point yesterday.

MILLIONAIRE SOCIALIST.

Mayor Sam Jones, of Toledo, becomes an Independent. Mayor Sam M. Jones, of Toledo, Ohio, promises to raise a big row in his state if he can do so.

"During the past two months I have received hundreds of letters from all classes of people in every part of Ohio, urging me to become an independent candidate for the office of governor of the state.

"I believe in all of the people and am, therefore, a man without a party. I believe in the people as people, not as partisans. I claim no privilege for myself or for my children that I am not ready to do my utmost to secure for all others on equal terms.

"In this way I shall always be free to vote and act for principles whatever party name I bear on the one hand, or independent of all parties, if need be, on the other; and the whole people shall always have the first claim on my service and affections, rather than a fragment of them named a political party.

Referring to the failure of the workmen's convention to get recognition from either the Democrats or Republicans, Mayor Jones says:

"In view of this situation, for the purpose of testing the quality and extent of the sentiment for an independent candidate, I invite those who feel that such a move should be made, to write to me for blank petitions for correct legal form upon which to secure signatures, petitioning the secretary of state to place the name upon the ticket. By careful study of the responses to this letter we shall be able to decide whether the sentiment is sufficiently pronounced to warrant so great an undertaking. If the decision shall be affirmative, I will enter upon the duties of the campaign in the interest of the larger humanity, wholly indifferent to the consequences to me personally."

MERE-MENTION.

Lieutenant-Colonel Ernest Garlington has been relieved from duty in the office of inspector general in Washington and ordered to Manila as inspector general of the department of the Pacific. The largest dairy in the world is located 14 miles from Newark, N. J., the minimum number of cows kept being 1,000. The proprietor runs a ranch in Iowa for the special purpose of supplying his dairy with cows. Captain Dreyfus has just recovered from a severe attack of fever. Congressman Joe Bailey says there is no doubt of the fact that there is an offensive and defensive alliance between the United States and Great Britain, and that the president is afraid to make the fact officially known. The Spanish government is trying Generals Toral, Baroja and others on the charge of cowardice in the surrender of Santiago. J. Edward Addicks, the notorious Delaware politician, has purchased in Arizona a tract of 1,300,000 acres of farming land. The tract is as large as the state of Delaware. Edward Marshall, the correspondent who was wounded at Las Guisimas, Cuba, has undergone the amputation of a leg. More than 50,000 people are out of employment in Chicago as the result of a strike of the bricklayers. Mississippi river towns are protesting against the plan whereby Chicago sewage is to be conducted to the river by means of a canal. General Miles has taken up with Secretary Root the question, "Who is commander of the army—the senior general or the secretary of war?" Quite a company of woman elders left Philadelphia one day last week for England, where they propose to do missionary work. There is a report of an offensive and defensive alliance between China and Japan. Jacob S. Coxy, of Ohio, is arranging to erect a \$150,000 steel plant. Mayor La Cote, of Havana, is doing what he can to put a stop to gambling in the city. The Cleveland, Ohio, street car strikers are using dynamite with which to convince the public that it is unsafe to ride on the boycotted lines. The public has taken the hint and the cars are running empty. In France, last Sunday, two automobiles beat an express train in a race of 226 miles, making the distance in 7 hours and 35 minutes.

THIS IS SOMETHING OF A CHRISTIAN. Dreyfus's attorneys, reports a Paris correspondent, say that when their client is acquitted, he will not sue for damages, but as a matter of principle will merely demand an indemnity of one franc—20c.

In France the law recognizes the right of the victim of a judicial error to damages from the state, which must proceed against all denounciators or

perjurers responsible for the condemnation, prosecuting them criminally and before civil courts also, in order to recover, if possible, the sum paid to the person wrongly convicted.

Some of Dreyfus's friends advise him to follow this course, which would mean ruin to all implicated in his conviction, none of them being wealthy. Dreyfus, however, steadfastly refuses to "make money out of his wife's tears and sufferings." He simply intended to draw his back pay as an officer doing colonial service; but the French law does not allow this. Therefore, 20 cents is all the unfortunate captain will get for his physical tortures and mental anguish of five years.

WORK OF THE PEACE CONFERENCE.

After All Some Practical Results Were Obtained.

The international peace conference met for its final sitting last Saturday, when it was announced that 16 states had signed the arbitration convention, 15 the other two conventions, 17 the declaration prohibiting throwing of projectiles or explosives from balloons, 16 the declaration prohibiting the use of asphyxiating gases, and 15 the declaration prohibiting the use of explosive bullets.

A letter was received from the Queen of Holland to the pope, asking his moral support of the conference. The pope's reply, which was read, promised co-operation, and recalled the fact that he had many times performed the function of arbitrator, and assured her majesty that in spite of his present abnormal position, the pope would continue to seek the advancement of civilization.

The three conventions dealing with arbitration, the laws and customs of war and the adaptation of the Geneva convention to naval warfare, were not signed by Germany, Austria-Hungary, China, England, Italy, Japan, Luxemburg, Servia, Switzerland or Turkey. The United States signed only the arbitration convention, and that under reserve. Roumania also made reservation.

The three declarations prohibiting the throwing of explosives from balloons, the use of asphyxiating projectiles and the use of dum-dum bullets were not signed by Germany, Austria-Hungary, China, England, Italy, Japan, Luxemburg, Servia or Switzerland, and the United States signed only the declaration regarding the throwing of explosives from balloons.

TO CONQUER THE FILIPINOS.

A Volunteer Officer Says It Will Require 100,000 Men.

An officer of one of the volunteer regiments in the Philippines, gave out to the Associated Press the following, under date of June 27:

The arrival of the rainy season finds the insurrection as vigorous as it has been at any time since the outbreak. The insurgent armies are well recruited, notwithstanding their heavy losses, and are well fed and clothed. They have profited by their five months of warfare against the Americans. They are fast adapting American tactics and are becoming better disciplined and more skillful in the use of their weapons every day. One hundred thousand soldiers should be here ready for business by the beginning of the dry season in November. Garrisons could then be stationed at strategic points.

A continuous warfare cannot be carried on in this enervating climate by the same troops. Frequent reliefs are necessary. Troops should not be kept longer than a year. Men from a northern climate retain their native vigor for six or eight months after their arrival here and then begin to succumb to the various ailments of tropical weather. This is exemplified in case of volunteer and regulars who have been in the Philippines since last summer. The most of them are saturated with malaria, many have rheumatism and all are greatly debilitated. They are unfit for further duty and recuperation seems slow and unsatisfactory. As it is with them so it is likely to be with their successors.

The eight million people of the Philippines are as highly civilized as the 12,000,000 of Mexico. If the American people will imagine the United States to have acquired Mexico against her will and to be engaged in an attempt to put down an universal rebellion of Mexicans with 20,000 troops, they will have a duplicate picture at close range of the situation in the Philippines with the exception that the climate of the Philippines is from 10 to 15 degrees more tropical than that of Mexico.

TO ENTERTAIN THE NEXT NATIONAL CONVENTIONS.—"Chicago," says the Chattanooga Times, "has curiously notified both parties the Chicago does not want to entertain their national conventions this year. Chicago politicians, of both parties, predict that the conventions will go elsewhere, and the politicians of the big and windy town say that they are not sorry, not a little. They say Kansas City, Milwaukee, Buffalo, Indianapolis, New York, Denver—any old town—may have the conventions, and welcome. The Republicans seem inclined to go to Denver. The Democrats will not go to New York for manifest reasons. Kansas City has raised \$50,000 as a bribe for the Democratic convention, and other towns may see her and go her some better."

YELLOW FEVER IN VIRGINIA.—There are 30 cases of what is believed to be genuine yellow fever at the National Soldiers' Home, near Hampton, and three deaths from the disease were reported today, says a Newport News dispatch of Sunday. There were several other deaths at the institution yesterday, but it cannot be stated to night that all of them were caused by yellow fever. Newport News and Hampton will quarantine against the Soldiers' Home. The government authorities at Old Point have already adopted this step, and no street cars are allowed to enter the reservation. Quarantine Officer Hobson, of this port, went to the Soldiers' Home tonight and verified the statement that there are now 30 cases of the disease at the Home, and that there were three deaths from the malady today. While no one outside of the Soldiers' Home knew anything about the existence of

the yellow fever until today, it is said that the disease made its appearance three days ago. The most rigid quarantine regulations will be enforced to prevent the spread of the malady.

The news has created great excitement in Newport News, Old Point and Hampton, and the most vigorous measures were resorted to to prevent its spread. There are 4,000 veterans at the Home, and several large excursion parties went through it last week.

THE NEXT CONGRESS.—The next congress will be confronted with the task of patching up the Dingley tariff law, of fastening the odious stamp tax more securely upon the people, of avoiding any attack on the trusts while formulating some sort of law that will delude the people, and of swallowing with a good grace all plans outlined by a coterie of selfish politicians who control the administration body, boots and breeches. The next congress will have to strut the stage and mouth the words offered by tricksters and intimidators, all the while pretending to be the great law-making body of the greatest republic on the earth.—Omaha World-Herald.

BALE BROUGHT \$2,000.—The first bale of the new crop of Texas cotton, grown at Sinton, Patricia county, and shipped by Governor Sayers, was sold at public auction in front of the New York Cotton Exchange last Monday for the benefit of the Texas flood sufferers. It brought \$2,000. The bale was redonated to the Exchange in order that it might be sent to the Boston Exchange to be auctioned off in a like manner. It will then be shipped to some other port, and before it is finally spun into yarn, it will, no doubt, realize a good, round sum for the flood sufferers. The market price of the bale is \$35.

LOCAL LICENSE SUGGESTIONS.—A license ordinance being under consideration in Abbeville, The Press and Banner makes the following decidedly novel suggestions: "1. That baseball teams be required to pay license. "2. That beggars, and all persons presenting petitions for signatures, be required to get license to pursue their business. "3. That 'pullers-in,' that is, curb stone drummers, be required to pay license. Men who pull a man into a store should pay for the privilege."

EVERYBODY PLEASED. ANOTHER supply of that delightful Breakfast Bacon which has been so heartily endorsed by those who have tried it, was received last week.

Blue Back Mackerel. We have not been handling Canned Mackerel for several months for the reason that the wholesale market was bare of the genuine Blue Backs—the best. We have them and are satisfied that we have said enough on this subject.

Early June Pease. Another lot of Early June Pease in cans has been received.

To Arrive Today. We expect to receive a supply of Irish Potatoes and Cabbage today.

We Have Chipped Beef, Canned Beef, Potted Ham, Lunch Tongue and Salmon.

Heinz Goods. We have Heinz Plain Cucumber Pickles, Mixed Pickles, Chow-Chow and Baked Beans with Tomato Sauce, and if you want the best, you will get it only in Heinz's Goods. They are recognized the world over as being without a rival.

GRIST COUSINS. It Has All Changed. The enormous profits of a few years ago, which prevailed in the jewelry business, has all changed since the advent of SPECK in that line.

The politician would have you believe that gold has a "standard" value, while the old time jeweler had its value at three times "standard." Of course it cost something to make the metal in artistic designs, but it is only a fair price that SPECK wants and he is the envy of all rivals.

Reliability. In a watch is what you want. SPECK, The Jeweler.

GRAND GIFT CUT RATE AUGUST SALE.

We would have you to understand that I, (H. C. STRAUSS) for the month of August, if the goods advertised hold out, will be cut in price "wid de blade" what we carried in de trade display" on Gaffney Day, in gala week. We, I, or us, have, or has no patience with penknife price cutting at this season of the year; and since there can be no artistic trimming wid our Damascus blade, we will whack away at just any old place on summer goods named below, of course first mutilating our prices on Men's Summer Coats at the cut rates mentioned below:

Men's Seersuckers, worth 50 cents. Our blade struck 'em in the middle and the whole stack of coats go at 25 cents. The blade cut 10 cents off our linen coats and they go now at 40 cents.

The reckless handling of this big sword went a little too far over and clipped 15 cents off our 50 cents Satine coats and left them to go at 35 cents. Linen or Crash suits caught the blade and they go at from \$1.10 up to \$2.50. The Alpaca Coat and Vest department had a regular "cake walk row" with the blade, and the prices were so mutilated that the bargain hunter cannot afford to parley. We don't care who gets them.

Allwool square cut double breasted Blue Serge coats worth \$5.00, for \$3.50 is what the blade says. A nice fancy, light colored, Neglige Shirt at 15 cents is where the blade struck in this department, and to supply yourself at once would need no suggestion from us.

It's the same way with all summer goods whether mentioned or not. We are not going to carry over any summer goods. We don't have to. We only ask 10 cents for 25 cents cloth hats, and our fur hats caught the knife in a greater ratio.

H. C. STRAUSS. J. J. HUNTER. -A- CLEAN SWEEP -OF- SPRING AND SUMMER GOODS FOR THIS WEEK ONLY!

White Goods, Peceals, Organdies, Zephyr Checks, Lawns, etc. Men's and Boys' White and Colored Shirts, Ladies' and Gentlemen's Undervests, Ladies' and Children's Oxfords, Neckwear, Suspenders.

The broom used in this sweep is LOW PRICES for Reliable Merchandise. Boys' Shirt Waists, 15 Cents. J. J. HUNTER. GLENN & ALLISON. LIVERY, SALE AND FEED STABLES. WAGONS! WAGONS! WAGONS!
