

Scraps and Facts.

The danger of twisting the lion's tail was pointedly illustrated at Albany, Ga., last Saturday. Fred Morris, aged 10, visited Cooper's circus. Eluding the vigilance of the keepers he seized the tail of the biggest lion and gave it the severest twist his small hands were able.

The last of the series of yacht races between the Columbia and the Shamrock was sailed last Friday, and the Columbia won again, making "three straight." The Columbia made the 30 miles of the course in 3 hours, 38 minutes and 25 seconds, defeating the Shamrock by 6 minutes and 18 seconds.

This clever skit, which pokes fun at the Philadelphia dudes, is from The Record, of that city: "The Philadelphians who looked on Admiral Dewey during his recent welcome in New York, are agreed that the sailor's skill in dress has been overrated.

The transport Senator, having on board the Fifty-first Iowa volunteers and other soldiers to the number of 1,750, will reach San Francisco within two or three days, unless it suffered a serious accident in the typhoon which struck it soon after it left Yokohama on October 6, says a Minneapolis, Minn., dispatch of Saturday.

YORKVILLE, S. C.: WEDNESDAY, OCTOBER 25, 1899.

John D. Rockefeller, the oil king, and Andrew Carnegie, the iron king, are engaged in an interesting war against each other's dollars. For several years past Rockefeller has been engaged in buying up the most productive iron mines to be had in different parts of the country and, where necessary, building railroads for their development.

To the great disappointment of the Atlanta people, Admiral Dewey, on last Saturday, canceled his engagement to visit that city on Brumby Day—yesterday. He gave as a reason the advice of his physician, who thought that his nervous condition was not such as to warrant such a trip; but the real reason is evidently based on other considerations.

The Gaffney Ledger prefers a serious charge against the president of Winthrop college. It says: "President Johnson, of Winthrop Normal college, writes the governor that the college has been compelled to turn off 200 applicants for lack of dormitory room.

Since the above was put in type, we note that President Johnson says that the extent of Winthrop's offense was to notify a young lady who stood second in a competitive examination for a Winthrop scholarship and afterward went to Limestone, that the scholarship had fallen to her by reason of the failure of the young lady who stood first to take it.

Mr. D. A. G. Ouzts has divulged some interesting information regarding the transactions of some of the dispensary officials, since his dismissal, and we wish to know if Mr. Ouzts knew of these things before his dismissal. He certainly deserves no credit for allowing a spirit of retaliation to actuate him in making such revelations as have recently appeared in the public prints.

Right, right, every word of it. Ouzts deserves no credit and he should get none. His reward is revenge against the former pals who let him drop, and he is paid. That the dispensary management seems to be in the hands of men who have "an eye single to the main chance" seems to be true; but let the people of the state keep their eye "single to the main chance."

WHEAT AND OATS. Reports from various parts of the county during the past ten days or two weeks are to the effect that the farmers have been plowing like in the spring time, and they are still at it. The oldest citizen does not remember to have seen the like before.

All this argues well for good times next year. There is plenty of good land in this country that is never more than half worked. All the wheat that is likely to be put in will not appreciably diminish the available acreage for other crops.

White labor unions refused to participate in a street parade in Montgomery, Ala., last Saturday because black unions were not invited. The Dewey house committee has selected the building at No. 1747 Rhode Island avenue, Washington.

Again, the Philippine war is distasteful to many Americans, because it is in direct opposition to what they have always considered the established traditions and the manifest destiny of this country.

But the Monroe doctrine is now dead. It began to sicken with the seizure of Hawaii, and it expired with the purchase of Spain's title to the Philippine islands. Proof of its death is to be found in the fact that we allow ourselves to quibble with Great Britain over the Alaskan boundary.

It seems that nothing can disturb the remarkable equilibrium of Mr. W. J. Bryan. He was speaking at Finley, Ohio, last Friday, when all at once there came from the audience vociferous hisses. With scarcely a pause he said: "I am glad there are Republicans here. It is the first time I have met men who came to hiss rather than to listen, and it is encouraging to know that this is the only answer that they can give to our arguments."
