

Scraps and Facts.

Secretary of War Root has issued an order extending the time on mortgages in Porto Rico six months.

The Methodist church is about to begin active missionary work in the Philippines, says a San Francisco dispatch of Tuesday.

There was a monster meeting in the Grand opera house, Washington, last Sunday night, called for the purpose of expressing sympathy with the Boers in their fight with Great Britain.

Secretary Hester's statement of the world's supply of cotton shows a decrease for the week just closed, of 47,151 bales, against an increase of 8,214 last year.

A Calcutta, India, dispatch says: The official estimates show the cost to the government of the relief works, etc., to the end of March will be 40,000,000 rupees.

According to the reports published, it looks very doubtful as to whether General Buller is going to make a success of his move for the relief of Ladysmith.

The idea of a great daily newspaper like the Topeka Capital being turned for a week to the views of Rev. Mr. Sheldon, is even more novel in this day and generation than Mr. Sheldon's ideal of a daily newspaper ought to be.

The war department has recently issued some interesting statistics of the war with Spain. From these statistics it appears that the total number of officers and men in active service from first to last was 182,687.

The state of Kentucky has been in a fever of excitement for many weeks over the election contest, and now that the whole matter is to be threshed over again before the general assembly, the excitement has not abated.

The reports of the special committee of investigation in the case of Brigham H. Roberts, of Utah, were presented to the house last Saturday.

upon which he made claim for his seat. It does not appear that polygamy is a crime which disqualifies an individual to a seat in congress, and to an outsider it still looks as if the house is confronted by a serious problem.

The Yorkville Enquirer.

YORKVILLE, S. C.: SATURDAY, JANUARY 24, 1900.

The Graydon bill provides that the superintendent of education, comptroller general and secretary of state constitute the state board of control.

The Greenville jury commissioners have determined to try the experiment of placing the names of preachers and newspaper men in the jury boxes.

The Columbia people are very much interested in the question of completing the state house. It is estimated that about \$150,000 will be sufficient, and it is the suggestion that the appropriation be made in three annual installments.

The idea of a great daily newspaper like the Topeka Capital being turned for a week to the views of Rev. Mr. Sheldon, is even more novel in this day and generation than Mr. Sheldon's ideal of a daily newspaper ought to be.

would not be disposed to trust too much to the dication of his state board.

The present contracts of the state board of education with school book publishers expire soon, and new contracts are to be made. Agents of school book publishing houses have already established themselves in Columbia for the purpose of doing what they can to secure these contracts, and some of the agents are reported to be keeping open house.

For the benefit of those interested, we print elsewhere the resolutions adopted by the Greenwood farmers calling upon their brother farmers to hold mass meetings on the first Monday in February for the purpose of considering the means for fighting the fertilizer trust.

It is known now that Buller's army, supposed to be about 26,000 strong, crossed the Tugela river at Potgieter's Drift. This point, from the maps at hand, appears to be about 25 miles west of Colenso, and nearly the same distance southwest of Ladysmith.

Several of the London papers of Monday print dispatches that indicate bloody outpost fighting between General Warren's troops and the Boers.

It seems that so far as the reports up to Monday were concerned, they related only to clashes between advanced lines. The Boers had thrown out such lines in entrenchments, and it was their policy to hold these entrenchments as long as possible and then retire either to another line or to the main position.

The indications are that the British have considerably changed their tactics. They are no more disposed to make their reckless charges forward and be shot down by the Boer rifle-men; but instead they depend upon their artillery to clear the Boer trenches, after which the infantry advances, taking advantage of all possible cover.

According to the nature of the reports at hand, the fate of Ladysmith ought to be decided within a very few days. It is possible that the decisive battle has already been fought.

At last accounts Mafeking was still holding out. There has been no news from Kimberly for several days. It is possible that the town has fallen. This, however, is not certain.

At a mass meeting of the farmers of Greenwood last Saturday, the following resolutions presented by ex-Senator Gaines were unanimously adopted:

Whereas the prices of fertilizers are being advanced arbitrarily though the influence of a trust and to an extent not justified by commercial conditions; Resolved, 1. That we, the farmers of Greenwood county, S. C. hereby appeal to the farmers of the state and the cotton states to hold meetings at their respective courthouses on the first Monday in February, and that they pledge themselves not to purchase fertilizers at an advance exceeding 10 per cent. over last year's prices.

Says a Washington correspondent: Senator Dewey, it was announced the other day, will probably accept the invitation extended by Erskine college, South Carolina, to address the students at the graduation ceremonies to be held this year.

There are a great many people who are, for various reasons, wedded to certain small boll varieties, especially the "King." Their preference is based, perhaps, upon certainty of crop or the number of pounds of lint their favorite will yield per acre.

LOCAL AFFAIRS.

INDEX TO NEW ADVERTISEMENTS. L. R. Williams, T. R. Carothers and James L. Hanahan—Give notice of the dissolution of the firm of Williams & Carothers, and announce that in the future the business will be conducted by James L. Hanahan.

MR. MOELLER IS HAPPY. Our German friend, Mr. Simon Moeller, is evidently quite happy. The following cable message was received from him at noon yesterday:

Mr. Roy Carroll, who has been down near Camden with the firm of Fleming & Carroll, railroad contractors, for some time, is spending a few days with his father's family, Mr. T. L. Carroll, near Yorkville.

EGYPTIAN COTTON. The Yorkville correspondent of the News and Courier sends that paper the following interesting information about the use of Egyptian cotton at Clover.

Several weeks ago the statement was made in this correspondence that the new cotton mill at Clover would use Egyptian cotton exclusively. The question was subsequently asked by The News and Courier as to why the mill would use foreign-grown cotton instead of sea island.

The first shipment of the Egyptian cotton arrived at Clover yesterday afternoon, and a few facts in this connection will no doubt interest the readers of The News and Courier.

It is to be hoped that all of the qualified electors of the town of Yorkville will remember that an important election takes place today, and it is also to be hoped that each and every one of them will take sufficient interest to cast a ballot.

There seems to be some confusion in the minds of some of the citizens, connecting today's election with the lighting franchise which the town council has seen fit to grant to Mr. T.

B. McClain. There is no connection whatever between the two. The lighting franchise has already been granted by the council, and under its provisions Mr. McClain has the exclusive right to sell electric light in the town of Yorkville during a period of 20 years from the date of the contract.

The question today, then, is do the people of Yorkville want to light their streets by means of electric light, and if so are they willing to submit to an additional one mill tax with which to help pay for the same?

There has been any misgivings before as to the practical value of electric lights over the oil lamp system, that misgiving could no longer exist in Yorkville.

There has been any misgivings before as to the practical value of electric lights over the oil lamp system, that misgiving could no longer exist in Yorkville.

bothered with an election on the question. Speaking of pending dispensary legislation, Mr. Johnson said that if there was any change it is quite likely that it will be in the line of the Graydon bill, rather than the Winkler or Appell bill.

The bill to authorize the county board of commissioners of York county to borrow the sum of \$8,000 for the purpose of erecting a bridge across Catawba river, at Sutton's ferry, was to have been read for the last time in the senate on Monday night.

With very few exceptions, all of the public schools of the county are now in operation, and in the belief that the information would be of interest, THE ENQUIRER has procured from Superintendent of Education Carroll a list of the white schools and the names of the teachers in charge of each.
