LOCAL LACONICS.
Deserter Captured.
Charlotte Observer, Sunday: Charlie Harper, of Fort Mill, S. C., a white man who deserted from Battery I, Sixth artillery on April 25th, 1898, was captured yesterday at Coroleen by Officer Bradley and brought to Charlotte last night. Tomorrow Sergeant Baker will take the deserter to Fort Monroe Va. Fifty dollars reward will be paid for the capture.

Death of Mr. H. I. Kimball.
Charlotte Observer, Friday: Mr. H. I. Kimball, who was formerly from Statesville, died suddenly in Rock Hill yesterday morning of heart disease. For the last three or four years he had been living with his son, Mr. S. J. Kimball, who has a truck and delivery business in Rock Hill. The deceased was 64 years old. Five children—three sons and two daughters—survive. They are: S. J. and J. N. Kimball and Miss Mollie Kimball, of Rock Hill; Mrs. Emma Patterson, of Rowan county, and Mr. D. J. Kimball, of Statesville. The remains were taken to Statesville this morning for interment.

The J. J. Hunter Bankrupt Stock.
B. N. Moore, trustee, has filed a petition for leave to sell the stock of goods, store fixtures, etc., of J. J. Hunter, bankrupt, at private sale instead of public auction. The stock has been appraised at \$1,464.04. A number of sealed bids for the stock were opened last Friday. The highest cash bid was 62 cents on the dollar. Mr. Hunter himself submitted a bid of 70 cents, coupled with a proposition requiring 90 days in which to pay, and certain other conditions. There is to be a meeting of creditors on March 10 for the purpose of considering such bids as have been submitted, and determining whether the stock shall be disposed of by private or auction sale. The reporter has no information as to the liabilities of this estate; but it develops that the estimate of 75 cents on the dollar suggested when the bankruptcy was first announced, was far too high. It is now certain that the estate will not pay 50 cents and it is quite likely that it will fall under 25 cents.

Price of Fertilizers.
While a number of farmers are doing more or less talking, and making more or less investigation of the fertilizer question, it is hardly fair to say that the subject is one of deep interest in this section. At least the fertilizer dealers appear to be showing but small concern. From inquiry of a number of dealers, it appears that the local price is slightly 10 per cent. over what was being demanded last year. To be more exact, standard ammoniated goods sold last year at \$18 a ton, and this year the dealers are trying to get from \$20 to \$21. Some sales have been made at \$20; but since the \$20 stocks were laid in, there have been two advances, one of 50 cents a few days after January 1, and another of 25 cents about two weeks ago. Some of the dealers having sold their original stocks have made new purchases since the advance. As to the amount of sales compared with this time last year, it is hardly practicable to make a definite statement; but it is certainly a fact that deliveries have not been so heavy. The percentage of advance in the price of acid is rather greater than in the case of ammoniated goods. Dealers are now asking \$14 a ton for goods that they sold for \$12 last year. The indifference of the farmers about buying is accounted for in various ways, the most reasonable explanation being doubt as to whether the investment is warranted by the probable price of cotton.

SOUTH CAROLINA NEWS.
Shot by a Rabbit.
Clinton Gazette: Charlie Peden, of Gray Court, while out shooting rabbits with a pistol last week, met with a peculiar accident. He had wounded a rabbit. While kicking, one of its feet struck the trigger, exploding the revolver, the bullet striking Mr. Peden.
Mormons in Charleston.
News and Courier, Saturday: Mormon elders are trying to get in their work in Charleston. Two elders, the advance guard of the fighting brigade, arrived here yesterday and during the morning called on Mayor Smith. The object of their visit was to get permission from the mayor to be allowed to preach Mormonism on the streets. Mayor Smith informed the elders that street preaching was not allowed in Charleston, although he told the elders that if they would select some vacant lot he would provide police protection so that the meetings would not be broken up. "We simply want to get the true doctrine of our church before the people," said one of the elders to a reporter, "and we think we can do some good in Charleston. Our elders in this state have been doing wonder-

fully good work and we want the people of Charleston to enjoy some of the benefits of our religion." The elders were dressed in the regulation Mormon garb—the long sleek minister's coat and the black derby hat of the style in use twenty years ago. "Ye know it ain't de coat dat makes de elder," said Jeems Manigault, as the Mormons left the city hall, "but I guess its de pants."
They Want to Go to Congress.
Washington correspondence of the Greenville News: Several of the present congressional delegation in South Carolina, according to statements of South Carolina people coming to Washington, may find some difficulty in coming back at the beginning of next congress in an official capacity. It is regarded as somewhat strange that the opposition this year should be directed against the older members of the delegation from South Carolina. In addition to Colonel Elliott, who will be opposed for re-nomination by State Senator Barnwell, who is considered as one of the brightest men in South Carolina, Messrs. Norton and Wilson will meet with more or less opposition for re-nomination. The former, it is said, will be opposed by State Senator Appelt, while the latter's principal opponent will probably be State Senator Dea.

WILL CENSOR PRETORIA CABLES.—A Washington special to the New York Herald says: Great Britain has announced her purpose to censor official as well as private cablegrams sent to international representatives at Pretoria. This declaration is one of the most important steps affecting international relations taken by Great Britain since the war with the Transvaal began. It is likely to provoke correspondence, which will be of great moment in respect to future cable lines. There is no doubt that the purpose of the censorship is to prevent Dr. Leyds or other Boer agents from communicating with the Pretoria officials.
