DESTROYING MONEY.

Extraordinary precautions are taken by the United States government in the destruction of its worn out and filthy paper money. The fact that this could be used again makes it necessary that its destruction should be conducted with care and he made com-

All the paper money that passes through the treasury is sorted, and the old bills are sent to the redemption division, where they are searched for possible counterfelts. Then they are carefully counted and tied up into bundles of 100 notes each.

A great canceling machine then drives four holes through each of these bundles, of which a careful record is kept. The piles of bills are then cut into two parts, one set of halves going to the secretary's office and the other to the register's office.

In each place the halves are again counted, after which they are choped by machinery into fragments. Not satisfied with this, the bits are then boiled in vats of hot water and alkali until they are reduced to an unrecognizable pulp. This the law permits the treasury to sell to manufacturers of novelties, who make it into little models of the capitol and the White House, which are sold as souvenirs in the Washington stores. New bills are issued in an amount equal to those destroyed .- Youth's Companion.

#### A DECEPTIVE BLUSH.

A writer in the New York Press says of Hugh J. Grant, ex-mayor of New York, and Ulysses S. Grant, Jr.: It is not a bit odd that they should have been chums at college. Names often draw men together. One day, long after they had cut their political eyeteeth, after Hugh was sheriff, "Buck" said as they strolled down Broadway:

"Hugh, why is it you are so modest?" With a sly twinkle, the future mayor replied: "Modesty doesn't do a man any harm

in politics." Hugh Grant may have an "easy" look about his face, but he can hold his own with the shrewdest. Naturally warm hearted, he is as cold at business as Russell Sage. At poker he is recognized as pastmaster. I have yet to see the man who can outhold him, lay 'em down quicker when he's beat, bet 'em harder when he's got 'em, and gather in the pot with a more regretful air. His skin being clear and his blood clean, he can blush like a sensitive girl still tied to mother's apron strings. But, brethren, don't let that blush fool you.
