THE ECLIPSE NEXT MONDAY.

Careful Arrangements That Are Being Made by the Government For Its Observation.

Preparations of an elaborate nature are going on in those parts of Louisiana, Alabama, Georgia, North and South Carolina, in the area of totality, for observing the solar eclipse Monday, May 28, says an Atlanta dispatch of Sunday.

Observations will be made by parties at Thomaston, Barnesville, Indian Springs, Griffin, Union Point, Washington and other points in Georgia; Picehurst and Wadesboro, N. C.; Thompson, Ala., and other points where clear weather is generally to be expected at this time of year.

Probably the two most important eclipse stations in Georgia are those at Thomaston and Barnesville. Lick Observatory sent Prof. W. W. Campbell, senior astronomer on the observatory staff, and Prof. C. D. Perrine with a quantity of valuable apparatus, to establish a station at Thomaston.

Our New Serial,

ARE WE GLAD OR SORRY?—The Associated Press gives the following account of an interesting discussion in the senate last Friday:

Senator McCumber, of North Dakota, then spoke on the Philippine question. He said it was our commercial, financial and naval interests to retain the islands. He referred incidentally to the Civil war, and what he believed to be the present feeling of the southern people toward the Union.

Senator Tillman, of South Carolina, thereupon declared that not 10 per cent. of the white people of the south were today glad that the Confederacy had been defeated, or what they fought for had been rejected.

From a Little Canvass

IN the country, we find the DEERING HARVESTING MACHINERY in such good favor that we do not deem it necessary to enlarge on its merits.

We will simply say that it is the lightest running, simplest, best made and most practical harvesting machine on the markets of the world.

We have a carload on hand, and they are going fast. So come and supply your wants. We do not consider the machine sold to you till it is in your field and working to your entire satisfaction on your own land.

Don't be bamboozled into buying some machine that is claimed to be "just as good" as the Deering; but buy the old original and only absolutely satisfactory harvesting machinery on earth.
