Since the operation, the young patient has been getting along nicely. He has been entirely relieved of the constant suffering he experienced previous to the operation, and the probability is that he will soon be entirely restored to health.

LOCAL LAONIOS.

Always Acceptable. There are a good many fat hogs scattered around throughout York county. A Tea Found Potato.

Mr. James M. Cobb, of Hickory Grove, has sent THE ENQUIRER a sweet potato which, when dug, weighed 10 1/2 pounds. It is the largest specimen that has come to this office for quite a while.

Death of Mrs. J. D. Anderson. Mrs. J. D. Anderson, second daughter of the late Hon. A. S. Wallace, of this county, died at her home in Cuero, De Witt county, Texas, last week. She was about 62 years of age and leaves a husband and six children, all grown.

The Game Law. THE ENQUIRER is requested to again call attention to the fact that the law prohibiting the sale of partridges either in or out of the state, is still in force. The sportsman who requested the repetition of the statement said: "I do not like to play the role of informer in anything; but all violations that come to my knowledge I will report as sure as shooting."

The Train Did Not Wait. Yorkville visitors who returned from the fair last Saturday were very much inconvenienced on account of the Southern train being behind, and the failure of the northbound Carolina and North-Western freight train to wait at Chester. The conductor of the Southern carried all passengers who were willing to accept his offer, to Rock Hill, without extra charge, and they were taken to Yorkville over the S. C. & Ga. Ex.; but all this was attended with considerable annoyance.

Wheat in King's Mountain. "I don't know," said a citizen of King's Mountain township, Monday, "that the wheat acreage in our neighborhood will be any larger than last year; but it will be as large and the seed will be put in better. The farmers are going down deep, pulverizing thoroughly, using lots of fertilizer and seeding with drills. I have enough wheat on hand right now to do me for three years. I have not tried to sell it. I don't want to sell. On the contrary, I have arranged to sow more wheat this year than I sowed last year. I used to buy most of my flour; but I am not going to do it any more. It does not pay. Maybe I'll dispose of my surplus after awhile; but if I continue to feel as good and comfortable about it as I do now, I do not care whether I sell or not."

Washington correspondence News and Courier: It is learned that the Rev. Oliver Johnson, pastor of the Associate Reformed Presbyterian church at Leslie, S. C., was recently broached on the subject of his willingness to accept the pastorate of one of the Washington churches connected with the Northern general assembly. The church which contemplated making the call is in a new and rapidly improving residence portion of the city, affording a field altogether desirable for church work. Mr. Johnson, however, did not entertain or encourage the suggestion of such a call, not caring to give up his church connection with the Seceders of the South. Mr. Johnson has several times preached in Washington and his hearers were captivated by the force and simplicity of his manner. He is evidently a man of scholarship and broad mental grasp. The Psalm-singing Presbyterians, the body to which he belongs, have no organized church in Washington.

A CARD FROM MR. HOPE. Editor of The Yorkville Enquirer: With reference to the recently published card recommending the boycotting of Mormons and my name thereto, I beg to say that I am in full accord with the idea that the Mormons are undesirable citizens and that Mormonism is an undesirable doctrine. I fully agree with the people of this locality, in their desire to discourage the propagation of Mormonism. It was because I had expressed myself so that my name was signed to the published card. There was in the card no suggestion that I did not meet the entire approval, and it was for that reason I asked the erasure of my name. Respectfully, JULIUS A. HOPE. Smyrna, November 5, 1900.

ZADOK ZIGZAGS. The Old Plan of Farming and the New Plan... Difficulty of Pleasing Everybody in a School Teacher.

Correspondence of the Yorkville Enquirer. ZADOK, November 5.—The people around Zadok are all up with the times. They are noted for purity, piety, peace and poverty.

Every farmer in this neighborhood seems to be sowing enough wheat to bread his family. I have never seen so many new wheat drills as have recently appeared in this neighborhood, and I am sure the time has never been when so much fertilizer was used for wheat. When I was a lad the people planted most of their land in cotton; but I do not remember to have seen much accumulation from that style of farming. According to my understanding most of the money went where Ward's ducks went. But as the price of cotton went down, people planted a great deal more corn, and during the past few years large farms have been devoted to cotton, corn and wheat. As the result the dollars, or ducks, are returning.

Our public school will be open in a fortnight, and as usual I guess every patron will want a different teacher. I'll have a number of fights to report in my next letter, maybe. There is no state, county or community that is as hard to please as are the patrons of some of the schools northwest of Yorkville. I believe that if King Solomon were to come down and teach school around here, and some people would say that he was not competent and that they would not send unless they could get Abraham, Isaac or Jacob. SUT.

Those Scholarships. There are few young ladies in this section who cannot afford to work for those scholarships that THE ENQUIRER is offering in Converse and Due West Female colleges. It makes no difference whether the young ladies may be able to pay her tuition without missing it or not, the \$60 thus saved will come in very nicely. But compared with a year's tuition in either Due West or Converse, the sum of \$60 is a small item. The ladies who get these scholarships will not have to do anything like \$80 worth of work. Those who fail to get the scholarships will be well paid for all the work they may have done. This is one of the prettiest considerations about THE ENQUIRER'S proposition.

These papers cover much of the early history of York county. Although of much historical value, they are not of exclusive local interest. They have been read with pleasure by thousands of the older people throughout this section, and their republication will prove entertaining, as well as of great value to the generation now growing up. OUT OF IT. IT is with sincere regret that I beg THE ENQUIRER, who have been favoring me with their names for so many years past, that I will not be able to make a club this year. In my last contract with the town council that body saw fit to impose a condition that I should not engage in business other than that for which I was specifically employed by them, and it is for this reason that I am compelled to keep out of the contest. Otherwise, for the pleasure and profit I have always found in the work, I would agree to carry off all the premiums within reach. With the kindest thanks to the many friends who have heretofore favored me, and with the best wishes to all my former competitors, I am, Very respectfully, P. W. LOVE, Yorkville, S. ATTENTION, FARMERS. THE season is on hand for turning the stubble into grain. We want to remind you that we have the Plows that will do the work, and do it right—The Oliver Chilled Plow. Also remember the season for Seeding Wheat is near at hand. Break your land with OLIVER CHILLED PLOWS and follow seeding with a DOBBER DISC DRILL, using 150 to 200 lbs. of Ashepo fertilizer to the acre, and you will not likely fall in making a good crop of wheat. We also have in stock BUFFALO-PITTS DISC HARROWS, both solid and cutout, which are the best implements for preparing land for the seeding of wheat. When in need of any of the above farming implements call and see us and we will treat you right. Yours to please, YORK IMPLEMENT CO. L. R. Williams, Manager.
