I have shown not less than a dozen policy holders in other companys what they have, and explained the guarantees of the policies, and in no single instance have I found a man who knew in advance what I KNOW THE MUTUAL BENEFIT IS THE BEST Company and am sure that I can tell you why, if you are not already convinced, in such plain, simple language that you will know it too.

If I cannot convince you I do not expect to write your application, and it would not be reasonable to expect it, as you "pay the freight," and have a right to choose your company. Be sure that you know what you are getting. You can find out before you pay a cent, and

ments are sustained by the policy contract. To illustrate: If he tells you that he is selling you a "twenty years distribution" policy, and leads you to suppose that he is going to deliver a TWENTY PAY-

MENT, and he does deliver an ordinary life, twenty year distribution, you cannot help yourself, after the policy has been accepted and paid for. In the Mutual Benefit contract you can tell an ordi-

nary life or a twenty payment as easily as an agent. You can't be fooled, and Mutual Benefit Agents don't have to deceive people in

YOU MAY BE IN THE NOTION To apply for insurance and I may not know it, (there are lots of things I don't know), and if you propose to take insurance I would be pleased to show you what I have to offer. I know it is not customary, but would it not be just as good business to go to an agent for life insurance, as to go to a store for a suit of clothes? If you use as good judgment in buying insurance for the protection of your

family, as you would if you were going to build a house them to live in, you would not go far wrong.
