When you want Commercial Printing, it is to be assumed that you want the best to be had for the money. It is cheaper in the end to get that kind of Printing; and then, too, the Printing that ranks as the best is the kind that attracts the attention of the people whom you want to reach. And to get the best printing is especially desirable when you can get it at about the same price as you can get printing of the "cheap" kind, and perhaps a little less. Our reputation for years has been standing and growing on the fact that the printing done at this office is equal in every respect to any printing executed within the bounds of the state. If you want good work we want your business; if you want "cheap" work, we don't do that kind.

Lawyers who have cases to carry to the State Supreme Court will find that we are thoroughly prepared to do their Brief and Argument Printing at a price that is perhaps lower than can be had from any other printers in the state. We are especially well prepared to do this work rapidly, carefully and deliver the goods promptly. We invite all lawyers to see us before placing their orders for Law Work.

Another specialty with us is Wedding and other Invitations, and we guarantee this work to give satisfaction in every detail, both in quality of material used and in the typographical execution of the work. We do this work from new type and give a product equal to engraved work, at much lower L. M. GRIST & SONS. prices.
