Scraps and Lacts.

- The first official steps looking toward a systematic agitation for a change in the date of holding presichange in the date of holding presi-dential inaugurations, was taken last Wednesday, says a Washington dis-patch. Resolutions adopted by the in-augural committee were laid before the district commissioners with a re-quest for appropriate action. It is un-derstood the commissioners are in fa-vor of a date later than March 4, and will bring the matter to the attention ments are in order. The judiciary is entirely reformed and is satisfactory to the people. The people are gentle and easily governed. They are affectionate and tractable. Beggars are never several states and territories. The plan proposed by the inaugural committee is that a national committee be appointed, composed of the governors of the states and territories, fifteen additional citizens of the country at large and a representation of foremost citizens of Washington. This committee is to select the date and proceed to the people. The people are gentle and easily governed. They are affectionate and tractable. Beggars are never seen. The products of nature are easily satisfied."

Demotrically reformed and is satisfactory to the people. The people are gentle and easily governed. They are affectionate and tractable. Beggars are never seen. The products of nature are easily satisfied."

—Says a Wichita, Kansas, special of July 29, to the Baltimore Sun: Miss Hattie H. Beal, who drew claim No. 2 in the Lawton district land lottery, in the Lawton district land lottery, lives here. She is an operator in the local telephone exchange, and has been earning \$3 a week. Miss Beal has already been offered \$25,000 for her Oklahoma land; but cannot sell it under the homestead laws for 14 months. Meanwhile she will go to Oklahoma to reside. On her way to Oklahoma to resister, she found an old horseshoe, which she brought home and hung over her bedroom door. She attributes her good fortune to that. The fortunate young woman is engaged to marry a street car conductor here, and it is probable that the that would be the the that we have that we have the t street car conductor here, and it is probable that their wedding will take place soon. She was amused at the demands of the El Reno crowd that she should marry James R. Woods, who drew first prize in the Lawton district. Miss Beal remained at her work here all day; but resigned at sight. She will leave tomorrow for work here all day; but resigned at night. She will leave tomorrow for Lawton to select her farm. Several proposals of marriages have come to her by wire, some being from other lucky ones in the land lottery.

- Congress thought it was reducing the government's revenue by forty millions when it repealed a number of millions when it repealed a number of internal revenue taxes last session, says a Washington special to the Atlanta Journal. For some unexplained reason (and Secretary of the Treasury Gage is at a loss to explain), the government revenues for July show an increase of about \$2,400,-000 over July, 1900. Expenditures have decreased over a million six hundred thousand from July last year, so that instead of a deficit of \$4,000,000 for July as in July a year ago, the July statement this year will show a surplus of about \$15,000. unless some emergency about \$15,000. unless some emergency requiring an unexpected expenditure should arise today. The internal revenue receipts for July, despite the supposed reduction in internal taxation, amounted to \$28,338,190: an increase over July of last year of \$787,501, while customs aggregated \$21,263,963, an increase of \$1,461,691, and miscellaneous receipts were \$2,718,186 an increase of gallant effort of congress to prevent a surplus in revenues by reducing taxasurplus in revenues by reducing caxation, every source of revenue shows an increase for July and the unprecedented occurs—a small surplus for the first month of the fiscal year. It looks then as if congress might have to reduce the revenues further.

- George F. Washburn, of Boston president of the Commonwealth Club of Massachusetts, sailed for Europe last Tuesday on a mission of inquiring into co-operative methods of various bodies in England, Belgium and Switzerland, with a view to the formation of a \$50,000,000 cotton combination in this country. According to an tinterview with Mr. Washburn, he has worked out a plan to unite the cotton producers of the South into one great co-operative trust, with headquarters at St. Louis and central warehouses at Memphis. He said he had been selected for this mission because of the special study he has made of co-operation from a business man's standpoint, and that in his judgment the only way to meet the sentence of the special study he has made of co-operation from a business man's standpoint, and that in his judgment the only way to meet the sentence of the special study he has made of co-operation from a business man's standpoint, and that in his judgment the only way to meet the sentence of the said that have been enforced by the Americans.

Curious Developments.

Editor of The Yorkville Enquirer:

I have read with interest the recent articles in your paper about the freak-present recess of congress in his frequent visits to Washington, in behalf of the exposition. Mr. Latimer while in Washington stopped at the St. Mathematical trust articles in your paper about the freak-present recess of congress in his frequent visits to Washington, in behalf of the exposition. Mr. Latimer while in Washington stopped at the exposition of the exposition. Mr. Latimer while here articles in your paper about the freak-present recess of congress in his frequent visits to Washington, in behalf of the exposition. Mr. Latimer while here articles in your paper about the freak-present recess of congress in his frequent visits to Washington, in behalf of the exposition. Mr. Latimer while here articles in your paper about the freak-present recess of congre to meet the capitalistic cotton and wheat trusts was to organize better and bigger ones in the interests of the producer. Mr. Washburn said that the application of the idea of the cotton industry was made because the planters being men of means, can unite in a co-operative business movement and effect a tremendous saving to them-selves. Mr. Washburn, who, in two national campaigns was a national executive committeeman of the People's party, was asked if his plan had any political significance, and he said only in so far as it was successful, and in that case it would have a far-reaching effect along political lines in the west

the Brooklyn in the historic engage-ment off Santiago. Captain Eulate would hardly be prejudiced in favor of Schley, and his high rank as an of-ficer in the Spanish navy entitles him to be regarded as a competent critic of that famous maneuver. His state-ment, as it appeared in print a year or two ago, is as follows: "The Brooklyn was a half mile closer to us than any other ship, and I determined to ram her, so that the Colon and Oquen-do could get away, and I started for her. She made a good mark with her big broad side, and as I started I thought surely I would get her. But she had evidently seen us, and very quickly she turned about and making short circle, came at our port side so I thought she would ram us. I moved in toward the shore so that I could avoid her, and then I saw that the Oquendo had gone ashore also, her steam pipes having evidently been severed by a shell. The maneuver of the Brooklyn was beautiful. We open-ed rapid fire at her with all our big but she returned it with terrible effect. The Oregon also hit us several times, but the Brooklyn's broadsides crushed through our super-structure, simply terrorizing the men. She drove us to the shore, at one time fighting us at 1,100 yards. The Brookfighting us at 1,100 yards. The Brook-lyn prevented me from getting away for I could have beaten the Oregon out, as I had a two mile lead of her. My orders were to try and sink the Brooklyn, and I did my best to carry them out. I did not think her battery could be so terrible as it was."

- General Wood had the following to say to an Associated Press reporter on Wednesday, about Cuban affairs: "Cuba is a totally undeveloped island and has a great future before it. Yellow fever, that great bugbear of our people in the south, in another year will cease to be epidemic. We have not had a single case of yellow fever at Habana single case of yellow fever at Habana olution has broken out in the United this summer and none in eastern Cuba States of Colombia. It is a fight befor two years past. Cuba's resources tween the Liberal and Conservative for two years past. Cuba's resources tween the Liberal and Constitution of the government and constitution of the government and constitution of the government, now controlled by the Constitution party....The Southern Cot-

fairs. Our troops have been well cared for and their health compares favorably with that of the troops in this country, showing that the island is healthy. They camp out and take practice similar to those of other troops of the army, and in every way their condition and behavior has been admirable. The municipal governments are in order. The judiclary is entirely reformed and is satisfactory to the people. The people are gentle contained war cost the British government \$180,-000,000..... The great strike is still in process of settlement with the prospects hardly so good as they appeared several days ago.... The Geo. H. Phillips company, which has become famous as the result of its pool operations in the Chicago corn pit during the past year, is embarrassed... The strikent described as being practically in process of settlement with the prospects hardly so good as they appeared several days ago.... The Geo. H. Phillips company, which has become famous as the result of its pool operations in the Chicago corn pit during the past year, is embarrassed... Phillips company, which has become famous as the result of its pool operations in the Chicago corn pit during the past year.

YORKVILLE, S. C.:

SATURDAY, AUGUST 3, 1901.

SENATOR McLaurin and Admiral Schley are having a hard row to hoe these days.

Schley has been suggested as an available man for the next Democratic nomination for the presidency. It was no time for any exchange of com-will not be surprising if this naval will not be surprising if this naval believe that cowardice was thinkable. row shall result in his nomination and election.

The fight was over in about three hours and three quarters. Had I been election.

THE New York Journal of Commerce has completed a special canvass of the condition of the cotton crop, and puts

ANOTHER serious "why," in the Sampson-Schley controversy, is why Sampson went off to a conference with Shafter in the New York, when he could have made the trip as easily in one of the smaller dispatch vessels without the smaller dispatch vessels without the smaller dispatch vessels without to consecutiveness. Admiral Schley showed ability and thoroughness.

"It is a case of demonstrated valor against bravery. It is a case of the difference between the act and the possibility, or, as the old philosophers used to say between the esse and the posse. The philosophical axiom which the smaller dispatch vessels without the smaller dispatch vessels without is 'A posse ad actum non valet consecucrease of \$1,461,691, and miscellaneous receipts were \$2,718,186, an increase of \$125,986. Thus, notwithstanding the true that things turned out very well, the same as doing it) probably applies even with the New York absent; but it to this case.

"I don't know Admiral Sampson and "I don't know Admiral

> fish in the waters of Havana harbor. for adverse criticism—at least from Heretofore all the filth of the city has the American side." been emptied into the waters of the harbor, and the fish could not live there. The changed conditions, which adds materially to the health of the Quite a Plausible Explanation as

> ed upon a matter that could easily ing peas in a commend, and undertoom have waited a year or two. If his critions and tests made several years ago, icism is just, it would seem to apply I satisfied myself that if a stalk of corn with still greater force to the executive committee that undertook to express itself on matters with which it had no business whatever, and to which the people will give due consideration next year.
>
> I satished myself that it a stak of corn was cut by a bud worm, or other worm, just above the first joint, while young, it would put out suckers. If these are allowed to grow to maturity they will invariably put silks, grains of corn and tassel where only the tassel ought to be.
>
> Now my explanation is that the first

In view of the practicably indisputable testimony to the effect that Schley inflicted 56 per cent. of the dam-Schley inflicted 56 per cent. of the damage that was inflicted on the Spanish fleet at Santiago, and sustained 54 per cent. of the damage that was inflicted by the Spaniards on the Americans, it is a law of nature, and as in animal The revival of the Schley case has had the effect of calling attention to what Captain Eulate of the Vizcaya had to say in regard to the action of the suggestion that he was is absurd. It may be that it will take a certain the suggestion that he was is absurd. Eut it will be possible to convict Schley of disobedience, for of this offence the admiral is no doubt guilty. When Dewey cleaned up the Spanish at Mainila, he proceeded at once to cut the cable line. His object, of course, was to cut off the long string of fool instructions he would have otherwise. Chester, S. C., August 1, 1991. structions he would have otherwise received from Washington. It was not practicable for Schley to cut himself off from communication with the au- Trustee of Clemson. thorities, and his only recourse was to ignore fool orders from Sampson and to his others. This is a matter, however, with which the court of inquiry will of Clemson college, Governor McSwee-have to deal lightly.

CERVERA PRAISES SCHLEY.

Declares Him a Gallant Officer and a High-Minded Man.

The New York Journal of Tuesday published an interview with Admiral Cervera, who commanded the Spanish fleet that met destruction in that memorable naval conflict off Santiago. 'Ine admiral was found at Vichy, France, and to the Journal correspondent said: "Actions speak. The good old proverb is: 'Actions speak louder than words.' Why not apply it to Admiral Schlar?

Schley?

"Understand that what I say is in the light of this distinction. As a Spaniard I look upon that war as being as un-just as the war which England is now waging against the Boer republics. Personally I shall never forget the generous and courteous treatment that generous and courteous treatment that was accorded to me by the Americans, and particularly by Admiral Schley. He impressed me as a gallant officer and a highminded gentleman to the fullest sense of the phrase. A priori, I should say that a man of noble principles and generous impulses cannot oe a coward. To such men I would look rather for Castilian bravery.

"The naval battle of Santiago was short and decisive—so short that there was no time for any exchange of com-

captured in the days of ancient Rome, my back might have been used as a stepping place for the conqueror mounting his horse. Admiral Schley treated me on terms of absolute equalcondition of the cotton crop, and puts its conclusion at 75.3, a decline of 17 points as compared with the same paper's report, made on July 1 last year.

There is little reason to doubt that the Maclay history, with its slurring references to Admiral Schley, is purely the work of Schley's enemies. The idea the work of Schley's enemies. The idea that such a history could be used as a textbook for the use of students in the time, though our ships and batteries all the time, though our ships lacked naval academy, is absurd.

struck her colors to the Brooklyn and the Oregon. The Erooklyn holding to the Westward blockading position, was within range of our ships and batteries all the time, though our ships lacked certain things necessary for full effectiveness. Admiral Schley showed abili-

York been present.

It is said that for the first time in centuries, it is now possible to catch centuries, it is now possible to catch centuries, it is now possible to catch centuries.

THAT FREAKISH CORNFIELD.

Now my explanation is that the first joint holds the embroyo materials nec-essary for the formation of silk, tassel,

In the Interest of Watermelons.

The United States government is carrying on an interesting experiment in Saluda county. Watermelon seed from all parts of the world are being planted to see if a melon can be found which can withstand the "wiit," a disease which has proven a deadly foe to the industry of melon planting in this section of the country. Train loads of melons were once shipped from Moret-ta, but the "wilt" now attacks entire fields, often with the vines full of halfgrown melons.

Can't Find the Body.

The governor recently wrote to the sheriff of Beaufort, in regard to the reported lynching of a Negro, Cornish, who is a British subject. It was sent out that the fellow had been lynched. The sheriff writes that he has fully investigated the alleged lynching and so ar as he can ascertain nothing of the kind has occurred. He believes that Cornish has gone away and is alive and well. He says that everything and well. around Beaufort is quiet and peacea-

A Woman Contractor.

Greenville News, August 1: Tuesday, at Lima, this county, a woman was the successful bidder on a contract to erect a bridge across a stream at Lima known as the Lima bridge. This is the first time in the history or the county that a bridge contract has been let to a member of the female sex. Mrs. Hattie Goodwin was the successful bidder, having bid against a number of other contestants. The price bid was \$225. Mrs. Goodwin is a thorough business woman and is thorough y capable to handle the contract. She, of course, will have men under her em-ploy to superintend the work. It is said that the work of building the bridge will begin in a very short time. Greenville Wins.

On Thursday morning the state su preme court handed down a decision in the case involving the establishment of the line between the counties of Spartanburg and Greenville near the Pel-ham mills. The case originated by reason of one county claiming the mill property as being located therein. The decision of the circuit court was in fa-vor of Spartanburg county; the su-preme court reverses this, and the land in dispute goes into Greenville county. It means that all of the property of the Pelham mills, heretofore considered in Spartanburg, goes over into Greenville county, the total valuation of the mill and other property going over being probably \$300,000. The question about the line grows out of the use of differ-ent compasses at different stages of the history of the country.

Senator McLaurin's Resignation.

Columbia State, Thursday: A few days ago it was stated that Colonel U. X. Gunter, secretary, had sent to Sena-tor McLaurin a copy of the resolutions tor McLaurin a copy of the resolutions adopted by the state Democratic executive committee, and it was added that he would probably hold what he had to say until he received the official document, and would then reply to the committee through its officers. Yesterday the statement was made by Mr. Mayfield, who saw Senator McLaurin or Sunday that the official convent on Sunday, that the official copy had not yet been received by the senator. This caused a representative of The State to ask Mr. Gunter about the matter again yesterday. Mr. Gunter stated that he had sent the communication, as that he had sent the communication, as stated, but that he had mailed it addressed to the senator at Bennettsville, his home, not knowing what his exact address was in the up-country and knowing that it would be mailed to him in the course of events. This, therefore, is the reason the senator had not yet received the communication by Sunday. From what can be heard, it is generally understood that Senator McLaurin ly understood that Senator McLaurin will be heard from in an official communication to the committee, and that he will simply tell the committee that it has exceeded its authority in passing the resolutions in regard to himself.

Latimer In Washington. Washington correspondence Charles-ton Post: Representative Latimer. South Carolina, is in Washington for a few days, looking after some matters of interest to his constituents. Mr. Latimer is prominently mentioned as a possible successor to Senator McLautin and there are many who believe rin, and there are many who believe that he will at least receive the passive support of Senator Tillman. Mr. Latimer and Senator Tillman are on excellent terms, and while it is improbable that the senator will actively, or openly, support any candidate for the senatorship, it is believed by Mr. Latimer's friends, that the congressman would be perfectly satisfactory to Mr. Tillman as a colleague. Mr. Lati-mer takes much interest in the coming South Carolina and West Indian expo-sition to be held at Charleston, and he

tee, however, in requesting the resig-nation of Senator McLaurin. Home For Confederate Soldiers.

Columbia correspondence Charleston Post: General T. W. Carwile, of Edgefield, who is chairman of the commis-sion of the veterans in charge of the soldiers' home proposition, was in the city recently. He talked earnestly about the project and declared that it is a disgrace to South Carolina that the legislature has not yet provided a home for her indigent soldiers, the men who gave their all for her and endured hardships and sufferings that no set of soldiers the world has ever known has endured. He says that he does not see the wisdom of calling a meeting of the committee for yet awhile, for it is after all a matter that the legislature will have to consider and make an appropriation for. In the meantime he says the camps all over the state are one after another taking the matter up and making demands upon the legislature for this needed institution. He believes that each local camp should secure an unqualified pledge from its representative in the general assembly. General Carwile says that he intends to call the commission to meet in Columbia on the night of the opening day of the fair this fall, for the purpose of talking over the matter, agreeing upon a plan and preparing a strong memorial to be presented to the general assembly when it meets. He thinks that at least \$10,000 should be appropriated the first year. From what he has been able to gather as to the public sentiment in regard to the home, it will be established beyond question by the next session of the general assembly. Under the Electric Light.

Anderson Intelligencer: A few evenings ago, one of our citizens, while sit-ting on his plazza, noticed that pedes-trians passing under the arc light on the corner of East Boundary and River streets would invariably halt and go through the motion of throwing something from the sidewalk with their feet. The citizen grew curious and walked over to the light to investigate. What he saw he could scarcely believe, and fearing lest his recital should be discredited he called two of his neighbors, a gentleman and a young lady, as co-witnesses. Under the arc light were about a hundred frogs, forming a circle and in this circle was a snake. The frogs were not croaking, nor was the snake hissing. Every fellow appeared to be attending to his own business, and all seemed in a good humor and perfectly happy. Recalling the univer-sal belief that snakes are the mortal enemies of frogs and that frogs are thought to be a dainty meal for snakes, our citizens sat down to watch the performance. In a short time it was discovered that there was no enmity between the snake and frogs, but all were there for a common friendly pur-pose, the snake being the centre of at-traction. Miriads of bugs are attracted by the arc light and circle round and round it till their wings are singed, and then drop to the ground. It was noticed that as they droped the snake and frogs would jump for them, there being a lively competition between them as to which would get the bugs first. After watching this rather singular performance for sometime, our citizens killed the snake. It was an upland

moccasin, and measured about three

PAID HIS WAY.

There was a big picnic at Liberty Hill, down in Lancaster county, near the Kershaw line, on July 23. It was attended by nearly a thousand people and was under the auspices of the Liberty Hill military company.

Senator Tillman was there, and so was Congressman Finley, Gen. Floyd and W. P. Pollock, all of whom made speeches. Not a single newspaper was represented; but some interesting stories are being told of the occasion, especially in so far as it relates to Senator Tillman.

The senator, so the story goes, had been especially invited; but he declined to accept the invitation except on a promise of the committee that his "expenses" to the amount of \$10 be paid.

The senator made a characteristic speech, discussing in his own way not exactly national issues; but the alleged sins of the national majority, and he took occasion also to address himself to the doings of Senator McLaurin. throwing upon that gentleman his customary abuse and denunciation. In the tomary abuse and denunciation. In the course of his talk the senator took occasion also to speak of the general ignorance of the Liberty Hill people, teling them that they were backwoodsmen who did not know enough to read the daily papers.

The speech throughout was listened

to with more or less attention; but was not applauded with especial enthusiasm. As a matter of fact, it is said that the Liberty Hill people have not been an especially demonstrative community since the first few years of the

The \$10 for Senator Tillman's expenses had not been raised beforehand as would have been the case had the committee been more thoughtful and considerate, so it was necessary to raise the amount by subscription after the speech had been delivered and the work was rather slow. But whether, as the result of the publicity or otherwise Senator Tillman became quite generous with the money when it was turned over to him. He donated it to the rifle company with instructions that it be used for providing better seats around

the speakers' stand for use next year.

There has been a great deal of talk about the meeting all down in Lancaster county, and it seems to be quite a pity that there was no newspaper man present to write up the whole story in

Miss Emma Ford will be Prof. J. A. Tate's assistant in the Clover school, which opens on September 2d.

which opens on September 2d.

THE ENQUIRER received a pleasant call on yesterday from our old friend, Mr. J. Randoiph Wallace, of Zadok. Misses Zena and Helen Spencer, Atlanta, Ga., are visiting in Yorkville, the guests of Mrs. Robt. J. Herndon. Miss Della Gladden, of McConnellsville, has been spending a week in Yorkville, as the guest of Mrs. W. O.

Rawls. Rev. J. B. Bozeman is assisting Rev. A. Finch in a protracted meeting at Pleasant Valley, Lancaster county, this week.

Miss Mamie McConnell left on last

Wednesday morning for Philadelphia, where she will enter a training school for nurses.

Mr. and Mrs. W. E. Dendy, who have been in Yorkville for several weeks, returned to Pickens last Thursday, accompanied by Mrs. W. C. Latimer.
Dr. Paul T. Gordon, of Eagle Lake,
Texas, is on a visit to relatives and
friends in Yorkville. He is accompanied by his little daughter, Mary Baker.
Mr. "Dick" Wallace, of the "Everything Store, "Mr. Will Williams, of the York Drug Store, Mr. Carl Hart, of the Palmetto Grocery, and Mr. Geo. Hart, of the postoffice, are out on a vacation.
Clover Review: Rev. W. B .Arrowood
and Messrs. I. B. Faires, D. G. Stanton, and R. A. Jackson as representatives of Bethel church, took the train here on Tuesday afternoon for the convention

at Chester.
Prof. J. W. Linley, of Hickory Grove, was in Yorkville Thursday, attending to some business. He will leave for Anderson next week; but his mother and brothers will probably remain at Hickory Grove until October.

Clover Review: Rev. J. M. Shell, of the Methodist church, has been spend-ing a part of his time in and around Clover for a few weeks. He has order-ed the lumber and let out the contract for building a church here. In a short while we will have another church

building.

Rev. J. C. Johnes has gone away for a month's vacation. He will go to Glenn's Springs for a few days and will then take a trip into the mountains. There will be no services in the Church of the Good Shepherd during his absence.

THE CONFEDERATE MONUMENT.

The subscription fund for the erection of a monument to the Confederate soldiers of York county, stands as J. B. Johnson to J. E. Roddey. Lot at follows:
